GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

General.
Account.

READ—the following papers :—

From the Superintendent of Works, No. I Periyár Division, dated 2nd June 1893, No. 50 C.E.

From L. L. WICKHAM, Esq., General Superintendent, Public Works Stores, to the Chief Engineer, Public Works Department (through the Examiner of Public Works Accounts), dated Madras, 22nd June 1893, No. 27 S.

In submitting, herewith, an indent No. 3 for spare parts required from England for No. 10 and 8 patent electric disintegrators for Periyár project, I have the honour to state that they can be made without difficulty in this workshops within one month of date of receipt of pattern or drawing. I have nevertheless signed the certificate to avoid delay in the event of your ordering it from England.

2. The value of the spare parts is not known.

From the Examiner, Public Works Accounts, dated 28th June 1893, No. 2328 C.

Forwarded to the Chief Engineer, Public Works Department, with the remark that the required certificate cannot be completed unless the value of the articles indented for is inserted in the indent in the column provided for the purpose.

From S. D. PEARS, Esq., Superintendent of Works, No. I Periyár Division, to the Chief Engineer, Public Works Department, dated Periyár, 11th July 1893, No. 83 C.E.

In reply to your No. 2481 C. of 3rd July 1893, I have the honour to report that it would be preferable to procure the spare parts of the electric disintegrators from England.

The disintegrators run at very high speed and it is therefore essential that the shaft, disc and pulley should be perfectly true and evenly balanced.

The makers are pretty sure to have a stock of spare parts, which would be certain to fit accurately. This might not improbably be otherwise with parts made up independently in Madras and the inaccuracies might be such as we have neither the skill nor the tools to rectify.

The loss in time by sending to England would not be more than a month or two and the parts now in use will last long enough. The cast-iron side jaw plates could be made in Madras, but the pattern would be an awkward and expensive one for us to supply, and, if the other parts are to be got from England, it would save trouble to procure these also from thence.

21st JULY 1893, No. 1881 W., PUBLIC WORKS.

ORDER—dated 21st July 1893, No. 1881 W., Public Works.
Ordered that the indent be forwarded to the Director-General of Stores for compliance.

2. With reference to G.O., No. 2567 W., dated 30th September 1896, the indent should be classed as "Provincial," not as "Imperial" as shown therein. The necessary correction has been made.

[Here enter No. 1882 W., dated 21st July 1893.]

LETTER—from

J. HANNAN, Esq.,

Ag. Joint Secretary to the Government of Madras,

Public Works Department,

General, Buildings and Roads Branch,

To

THE DIRECTOR-GENERAL OF STORES,

INDIA OFFICE, LONDON.

SIR,

I am directed to forward, herewith, for favour of very early compliance, an indent, in duplicate, for certain spare parts of patent electric disintegrators urgently required for No. I. Periyár division.

2. It will be observed, from the accompanying copy of the Proceedings of this Government No. 1881 W., dated 21st July 1893, that the Examiner of Public Works Accounts is unable to furnish the requisite certificate in the absence of information as to the value of the stores indented for. The cost of the indent can, however, be met from the current year's budget grant for the Periyár project, and I am directed to request that the amount may be ascertained and reported as early as practicable.

I have the honour to be,

Sir,

Your most obedient servant,

Ag. Joint Secy. to Govt., P.W.D.,
General, Buildings and Roads Branch.
