மடிக்கவோ கண்டபடி கையாளவோ கூடாது

From A. S. Russell Esquire, Executive
Engineer, Buckingham Canal &c
to the Superintending Engineer, II Circle,
dated Kottapattam, 17th June 193, N^o 844.
1896

I have the honor to state that
the Superintendent, Survey of India
Department, supplied direct to this
Division the following Tide Tables,
for the Calendar year, 1893 and their
cost Rs 11-8-0 was paid into the Bank
of Madras as desired by that Officer,
in February last, but as the Examiner,
P. W. A. can now desires me to obtain
the sanction of Government to enable
him to admit the charge, I request you
will kindly obtain the necessary sanction.

15 Copies Madras Pamphlets.

4 - do - do - Sheets

1 Copy Part II

2. The Examiner requires me in future
to obtain Tide Tables through the Financial
Department. This course will, in all
probability, lead to considerable delay
and I think such circumspection should
in the circumstances be avoided as
it is absolutely necessary that the Tide
Tables for each year be supplied to this
Division as soon as they are published
and this cannot be done unless the
Survey of India send them to me
direct

direct as soon as they are ready for issue. As it is, they only reach me in just in time.

3. No proper arrangements for canal clearances working of lock gates and for numerous other purposes in connection with a tidal Canal can be made without Tide Tables. In the absence of them, there is no means of obtaining any information whatever regarding the tides. The number noted below will continue to be wanted year by year, as more copies of the small pamphlet will be required for regulation at the new locks now or shortly to be, under construction. The cost is small and I request that Government may be moved to order the supply of the Tide Tables direct to me from the Superintendent Survey of India at the earliest date the Tide Tables issue.

- 24 Copies Madras Pamphlet.
- 4 - do - Sheets.
- 1 - do - Part II.
