The plans and estimates have been countersigned by the ~~Inspector General of Registration~~ and approved in the ~~Judicial Dept.~~ with a ~~Remark~~ that the compound wall is hardly necessary.

This estimate has been framed with reference to G.O. No. 2937 of dated 27.12.1891. It provides for constructing a Sub-Registrar's office at Tanur in the Tanjore District, as per type design approved & sanctioned with G.O. No. 1320 of dated 13.11.1891, for Tanur (large office).

The following variations have been made from the type design:-

- That the partition wall & pillars have been increased in thickness from 14" & 13" respectively to 16" in order to suit the use of labour in the vicinity.
- That the same have been made to project 2 feet in lieu of 16", in order to suit the wet climate of the Tanjore District.
- That the windows in the front verandah be provided with closed

Shutter shutters inside to iron bars outside in lieu of plantation shutter shutters, as the latter shutters are considered unnecessary owing to the climate of the West Coast.

Provision has been made for compound wall with gate at the request of the Registration Dept. but Govt. in the Judicial Dept. consider the compound wall as hardly necessary.

The site selected belongs to the Madras Railway Co. The Consulting Engineer for Railways has no objection to the construction of the office provided that no trees are cut in the vicinity.

The building is to be built as per plan to the south east.

If the compound wall be omitted the amount of the estimate will be Rs. 3500.
