in charge of the Division
who determined the route
as explained by actual trial
at Travers Kolbe
Superintending Engineer
III Circle*

*Sir
With reference to
your No 826 dated
6th July 1893, I have
the honor to explain
that in order to econ-
omize space and
to facilitate counting
the tools have been packed
in the manner
shown in the accom-
panying tracing.
The work was done
before*

before I took charge of the Division but
the Storekeeper tells me that the
rate was fixed after personal trial
by the late Executive Engineer Mr. Peters.
Besides actual stockpiling the tools had
to be carried into the shed from the
yard.

At this period of the year labour
is scarce and dear in Bellary
owing to it being the Cotton season.
I therefore have the honor to request
that the Estimate may be presented
for sanction with the above explanation.

I have the honor to be

Sir

Yours most obt. Serv^t
