James Johnston
4th 7. 93
Executive Engineer
Kurnool Division

47

Letter No: 130 dated 4th July/93 from
the Executive Engineer Kinnool Division
to the Superintending Engineer III Circle
Bellary.

2/25

With reference to your endorse-
ment No: 645 dated 10-6-93 herewith
returned I have the honor to report
as follows:—

During the late famine we em-
ployed a large number of temporary
clerks and lascars—among these men,
especially the lascars, there were constant
changes which were not in all instances
reported to this office. As men left they
were paid their salaries by the Special
Executive Engineer on his Subordinates—
and in consequence of non reports in all
the cases of these transactions to this office,
some of the men who had left were
still borne on the pay lists kept in this
office and pay drawn for them while
in fact some others were working in
their stead. The surplus money thus

drawn

No 8-1
627/93
6777

drawn was repaid by the Special Executive Engineer and thus arose the list of sums "less paid"

2. Sums under "overpaid" were the amounts paid by the Special Executive Engineer to men whose appointments had not been reported to this office

3. The preparation of the schedules of establishment charges to end of July/92, was entrusted to my former accountant who was allowed two assistants. In October 1892 the Accountant fell ill without having completed his task - my present Accountant then took up the work and by the middle of Nov 92 Schedules from June to Sept. had been completed. The famine was declared over in Sept/92. Nothing much of the "less paid" and "overpaid" amounts could be known till after completion of the Schedules in November, since which month efforts have been made to get rid of as many items as possible.

4. Notwithstanding that nearly half

of my Office Establishment has been ill during last Cold weather - and that ^{21/3} men had to be given long leaves on Medical Certificate, a large number of the items have been disposed of.

5. In the Case of Superior Servants all but 5 items have been adjusted or are in course of speedy adjustment but those relating to inferior Servants are found difficult to adjust. It has been found impossible to trace the lascars named, I have the honor therefore to submit a list of all the items which are not susceptible of adjustment either by payment or recovery and request that sanction of Govt. may be obtained to authorize the Examiner to pass the charges which amount to Rs 67-5-4 net.

6. The items belonging to ordinary Establishment have all been traced and are now in course of adjustment which will be finished by end of July 1893 -
No 932 B. & L. —

Copy forwarded to the Chief Engineer P.W.D with request that the Examiner

P.

P. W. Accounts may be authorized to
admit the ret charge of \$67-54 as the items
could not be adjusted either by vouchers
or receipts.
