17TH NOVEMBER 1891, No. 3086 W., PUBLIC WORKS.

GOVERNMENT OF MADRAS.
PUBLIC WORKS DEPARTMENT.

General.
Account.

READ—the following paper :—

From H. IRWIN, Esq., C.I.E., Consulting Architect to the Government of Madras, to the Chief Engineer, Public Works Department, dated Chepāk, 29th October 1891, No. 2885.

I have the honour to request that you will be good enough to obtain the sanction of Government for the marginally-noted revised limits of stock for the Consulting Architect's division sanctioned in G.O., No. 3039 W., dated 11th November 1887.

Sub-head of stock.	Reserve limit at present. RS.	Reserve limit as applied for. RS.
1. Building materials ...	12,000	25,000
2. Timber ...	6,000	Nil.
3. Land and kilns ...	15,000	25,000
4. Fuel ...	Nil.	2,500
Total ...	33,000	52,500

2. This increase of limit under item 1 was absolutely necessary as a large quantity of special bricks required for ornamental buildings have to be manufactured and kept in stock for use on

buildings sanctioned for execution in the Consulting Architect's division.

3. The revised limit for item No. 4 is also necessary as some quantity of stock has to be purchased and kept dry in reserve for the manufacturing operations of bricks and lime.

4. The increase of Rs. 10,000 under Land and Kilns is asked for, as an estimate for working pugging machinery with steam power has lately been sanctioned in G.O., No. 3138 W., dated 25th November 1890, and is likely to be completed during the course of this year. The outlay to end of September 1891 on this work is about Rs. 8,200.

From the Officiating Examiner, Public Works Accounts, dated 13th Nov. 1891, No. 7007.

ORDER—dated 17th November 1891, No. 3086 W., Public Works.

Sanctioned.

(True Extract.)

Office of the Consulting Architect to Govt.,
Chepauk, Madras,
9th August 1893.

No. 1477

From

Henry Irwin, Esq., C.S.E.,
Consulting Architect
to the Government of Madras,

To

The Chief Engineer
Public Department
Madras.

Sir,

/ Enclosures.

With reference to para 2 of G.O. No. 1241 dated 26th May 1893, I have the honor to submit a statement showing the cost of the materials at site of the Steam Tramway and Children's Hospital (abandoned) and the rates at which they are proposed to be transferred to ^{the} Law College & stock. Most of the materials at site that are brought on to the stock will be utilized on the construction of the present station Hospital for the use of the Women and Children Hospital.

2. The loss is partly due to depreciation of the materials by exposure for 15 months loading stacking unloading ^{and} partly

partly for the charges in carting these
materials to other works on which
they are intended to be used.

I have the honor to be
Sir

Your most obedient Servant

Henry Irvine

Consulting Architect London
