GOVERNMENT OF MADRAS.

2191/1

PUBLIC WORKS DEPARTMENT.

General.
Establishment.

Read—the following paper:—

From M.R.Ry. Rai Bahadur S. SUBROYACHARIAR, Avergal, Executive Engineer, Negapatam division, to the Superintending Engineer, V Circle, dated 23rd July 1893, No. 347 S.E.

Just as I was intending to write to you about the insufficiency of the establishment, I have the honour to inform you that I received your No. 37 C./N.G. regarding Tank Restoration Scheme works in Pattukkóttai.

2. At present two overseers of my ordinary establishment are absent and I do not know yet when their substitutes will join me. The tanks' estimates are being now rapidly sanctioned and I begin therefore now to think that time has arrived for the formation of the said taluk into a sub-division as previously suggested and approved of—*vide* your No. 246 N.G. It should form a sub-division with three overseers attached; so one additional sub-divisional officer, two more overseers and their establishment should be soon posted. These two overseers are in addition to the absent two overseers whose substitutes also should be soon posted.

3. In starting works there is generally much time taken in engaging contractors and laying out works, more so in a taluk like Pattukkóttai where it is not easy to carry out work expeditiously. From Mr. Ainley's 16 days report recently submitted, it would appear that he had inspected some started works and the progress is rather fair. The masonry works have not, however, advanced satisfactorily and great difficulty is being experienced for firewood. The estimates now sanctioned are all under "New Works."

4. I have intended to go this month from Tirutturaippúndi *viá* Muttupet to Pattukkóttai (being now engaged in the Tirutturaippúndi sub-division), but as the Head Assistant Collector has desired me to make a joint inspection with him and the Railway Engineer of the new railway works that affect our irrigation works on the 1st proximo to dispose of the several villagers' petition against them, I shall go to Pattukkóttai next month as soon as the said work is over when the detailed report called for of Tank Restoration Scheme works will be submitted.

5. I should also submit again for your consideration the desirability of reducing the Executive Engineer's own sub-division charge. In fact, he should have no sub-division of his own after the formation of the third sub-division.

P.S.—After drafting this and sending to office for being faired, Overseer Appadoray Mudaliar has reported himself whom I have sent to Pattukkóttai.

No. 261 W.

Submitted to the Chief Engineer, Public Works Department.

2. During the execution of the Tank Restoration Scheme works in Pattukkóttai taluk, an extra temporary sub-division may well be sanctioned. Up to date, 67 Tank Restoration Scheme estimates have been sanctioned amounting to Rs. 71,000. The greater number of these are in the extreme southern corner of the taluk, a long way removed from Mannárgudi, the head-quarters of the sub-division, to which Pattukkóttai now belongs.

3. Two extra overseers are also much required.

4. The Executive Engineer's proposal in paragraph 5 may also be sanctioned, the head-quarter sub-division being attached to the Tirutturaippúndi sub-division, at present a light one.

5. A colored tracing accompanies showing the present sub-division boundaries.

25th July 1893.

(Signed) J. C. LARMINIE,
Superintending Engineer, V Circle.

Order—dated 25th August 1893, No. 2191 W., Public Works.

The formation of an additional sub-division in the Negapatam division to be termed the Pattukkóttai sub-division is sanctioned and the proposal in paragraph 4 of the Superintending Engineer's endorsement is approved.

2. The Chief Engineer will arrange to post the additional overseers required in the division.

(True Extract.)

Major, R.E.,
Under Secy. to Govt., P.W.D.

From

The Executive Engineer
Negapatam Division

To.

The Superintending Engineer
5th Circle

Sir

Just as I was intending to write to you about the insufficiency of the Establishment, I have the honor to inform you that I received your No. $\frac{37 M G}{C}$ Regarding T. R. S. Works in Patte-Kota.

2. At present, two Overseers of my ordinary Establishment are absent, and I do not know yet when their Substitutes will join me. The Tanks Estimates are being now rapidly Sanctioned and I begin therefore now to think that time has arrived

for

for the formation of the said Taluq into a Sub Division as previously suggested and approved of vide your No. 246 of G. It should form a Sub Division with 3 Overseers attached. So one additional Sub Divisional Officer, 2 more Overseers and their Establishment should be soon posted. These two Overseers are in addition to the absent 2 Overseers whose substitutes also should be soon posted.

3. In starting works, there is generally much time taken in engaging Contractors and laying out works, more so in a Taluq like Pattukota where it is not easy to carry out work expeditiously. From Mr. Ainley's 10 days report recently submitted it would appear that he had inspected some started works and the progress is rather fair. The masonry works have not however advanced satisfactorily & great difficulty is being experienced for firewood. The Estimates now sanctioned are all under "New Works".

4 I have intended to go this month from Tiruturaipundi via Muthupet to Pattukota (being now engaged in the Tiruturaipundi Sub Division), but, as the Head Assistant Collector has desired me to make a joint inspection with him and the Railway Engineer of the new Railway Works that affect our Irrigation Works on the 1st Proximo, to dispose of the several Villagers' Petitions against them, I shall go to Pattukota

next

for the Same [illegible]
next month as soon as the said
work is over when the detailed
report called for of T. R. S.
Works will be Submitted.

5. I should also sub-
mit again for your Conside-
ration the desirability of
reducing the Executive En-
gineer's own Sub Division
Charge. In fact he should
have no Sub Division of
his own after the formation
of the 3rd Sub Division.

I have the honor to
(Sd) S Subroyachariar
Executive Engineer

P.S. After drafting this & sending
to office for being faired
Overseer Appodoray Mudr.
has reported himself
whom I have sent to Patter
Kota.

To W. To carry out the work in
this Taluq expeditiously & therefore
with economy, I consider the Sub
Dn. proposed by the Ex. Engr. Negapa-
tam should be constituted. The amt.
of estimates already sanctioned and
that will be so in the near
future appear to
warrant this.
