Civil Works.

READ—the following papers :—

Proceedings of the Board of Revenue (Land Revenue), dated 1st June 1893, Mis. No. 3320.

Read—the following letter from F. A. NICHOLSON, Esq., Acting Collector of Anantapur, to the Secretary to the Commissioners of Land Revenue, dated 17th May 1893, Dis. No. 1529 :—

I have the honour to forward, herewith, an estimate, amounting to Rs. 34,100, duly countersigned, for constructing a new taluk cutcherry at Dharmavaram, received from the Superintending Engineer, III Circle.

Resolution—dated 1st June 1893, Mis. No. 3320.

The site plan and estimate for Rs. 34,100 for constructing a new taluk cutcherry at Dharmavaram are submitted for the sanction of Government with reference to correspondence ending with G.O., dated 9th February 1893, No. 359 W.

2. The Board observes that in the estimate a provision of Rs. 194 is made for a compound hedge of aloes or korakapalli. The Board recommends the substitution of a barbed wire fence therefor.

3. Owing to the position of the site the building will face south.

(A true Copy and Extract.)

(Signed) R. C. C. CARR,
Acting Secretary.

Proceedings of the Board of Revenue (Land Revenue), dated 3rd June 1893, Mis. No. 3366.

Read—letter from the Acting Collector of Anantapur, to the Secretary to the Commissioners of Land Revenue, dated 26th May 1893, Dis. No. 1628.

Resolution—dated 3rd June 1893, Mis. No. 3366.

The site plan and estimate, amounting to Rs. 33,700, for constructing a new taluk cutcherry at Gooty, are submitted to Government with reference to the correspondence ending with G.O., dated 4th March 1893, Mis. No. 894, Revenue Department, communicating G.O., dated 9th February 1893, No. 359 W. The case is shown by the Collector to be of special urgency.

2. The Board observes that in the estimate a sum of Rs. 130 is provided for fencing the compound of the taluk cutcherry with korakapalli or aloes. As aloes harbour snakes and are not a sufficient protection against cattle, it is suggested that a barbed wire fence may be provided instead.

3. The Collector's proposals in paragraph 5 of his letter read above to locate the taluk office in the building occupied by the Deputy Collector's office and to shift the latter into one of the travellers' bungalows pending the construction of the new building for the taluk office are approved.

(A true Copy and Extract.)

(Signed) R. C. C. CARR,
Acting Secretary.

Mis. No. 2636, Revenue.

The estimates submitted with the papers read above are approved and will be transferred to the Public Works Department in which the question of substituting a barbed wire fence for an aloe or korakapalli hedge will be considered.

OOTACAMUND,
15th July 1893.

(Signed) C. A. GALTON,
Secretary to Government.

ORDER—dated 28th August 1893, No. 2196 W., Public Works.

The estimates, amounting to Rs. 33,700 and Rs. 34,100, for constructing first-class taluk offices at Gooty and Dharmavaram in the Anantapur district, have been reduced to Rs. 33,564 and Rs. 33,897, respectively, by omitting the provision for korakapalli or aloe hedges, and the estimates as thus modified are sanctioned for execution when funds are available.

2. Barbed wire fencing should be substituted for the korakapalli or aloe hedges which have been disallowed and record racks should be provided for the buildings as required by paragraph 2, chapter XI of the Public Works Code. The Superintending Engineer will accordingly submit supplemental estimates for these works.

3. The sanction accorded in paragraph 1 has been registered as Provincial Nos. 80 and 81 W. of 1893–94 and classified as Civil Buildings, Origimal Works.

ENCLOSURES. 1

From Mr. A. Raj
G. Raghavendra Rao Pantulu Garu
Sepanty COLLECTOR OF Gooty division
ANANTAPUR. Sentinel

To

THE Collector of
Anantapur.

SIR,

I have the honor to forward herewith Gooty Tahsildar's Dept no: 116 of 4th Sentinel reporting on the condition of his Cutchery.

I have inspected the building. It is in a very dangerous state. The roof and verandahs are all leaky and not one room or hall is safe. The record room is very unsafe and the duftars have to be shifted from place to place on account of leakages throughout. Even the treasury room is not safe. Every day almost we have rain here and one man has to be on the roof during rainfall to close up holes to stop leakages. It would be no wonder, if in one of these rainy nights the duftars are seen floating in water in the room. It is a very old building quite unsuited to a Taluq office and I think it very dangerous to keep the office there especially in these rainy days. I therefore venture to urge strongly that the office

should be removed from it and some accomodation be made for it temporarily at back. There is a mound of chowdu on the roof already, and any addition to it would simply add to its weight on the timber and would not stop leakage unless the old chowdi is scraped off and the rotten and torn mats are replaced and fresh chowdu spread over it. I request that early arrangements be made for preserving the records and locality the office in a more secure place or for early and thorough repairs to the present building if such be possible here.

I have the honor to be
Sir
Your most obedient servant
(sd) C. Raghavalu
Deputy Collector

BOARD'S OFFICE, R.C. No. 2196/93

To
The Secretary to the Commissioner of
Land Revenue
MADRAS.

Sir,

In forwarding herewith an estimate amounting to Rs 3370-0 for constructing a new Taluq cutcherry at Gooty, I have the honour to report as follows:-

2. About the middle of last year proposals were made to repair the cutcherry at Gooty and it was then thought that Jedpatri should have preference in case funds are allotted for the Construction of new cutcheries in this district. But on inspection of the building by the then divisional officer, M.R.Ry T. Lundana-ja Ayengar Avl. in July and M.R.Ry C. Raghava Row Garu in September 92, it became clear that the Gooty Cutcherry was in a very bad state, extremely leaky, insecure and dangerous for records, clerks and treasury. A copy of the latter officer's letter No: 502 dated 7th September 1892 is herein enclosed which shows the true condition of the building. It is insecure in every way and the monsoons in the past

In his letters printed in RO in RP 11-3-93 1617

past year affected it so much that immediate abandonment was thought necessary: in rainy weather a man had to be on the roof to stop the leaks, without which the duffers would be afloat: the records had continually to be shifted from place to place, and the whole building is described as not only insecure but dangerous.

3. It was, therefore, proposed to locate the Gooty Taluq Cutcherry in a rented house. The necessity for its removal increased and Mr: Mounsey, when a Collector inspected it, and being convinced of the urgent necessity of providing another building, addressed the Board in his letter Ref on c. no: 606 dated 14th December 1892 to locate it in Lambiah Chetty's house and pronounced that any repairs to the old Cutcherry were out of the question. The permanent Collector who knew of the condition of this building was also not in favour of any repairs to it.

4. The Board accepted the proposal of Mr. Mounsey in B. P. No 55 Mis: Land Revenue dated 9th January 93. This, however, had to be given up as the owner failed to carry out certain improvements in the house as reported in Ref on c. current no: 606 dated 7th April 1893.

5. The next proposal was to locate the Taluq office in one of the Travellers' Bungalows or a part of Allumpur Chuttrum. The Taluq Board has consented to the former. It has, however, been suggested that owing to the smallness of the Bungalows and other causes, the Taluq office may be located in the office to be called the and the latter in one of the Travellers Bungalows. As the matter is of some urgency, owing to the approach of the South-west monsoon, 21/6/93 I am proceeding to Gooty directly to arrange for this transfer. It is not a mere question of the safety of the records; I cannot get good work out of a badly accommodated office, nor can I expect records to be in proper order when they are incessantly being shifted, and the contents of duffers exposed for the purpose of drying papers.

6. From the above it is clear that the necessity for a new Taluq Cutcherry at once at Gooty is urgent and I have, therefore, the honor to request that Government may be moved to accord sanction for its construction prior to all others, and to allot money at once for its immediate construction, which will take 1½ or 2 years.

I have the honor to be
Sir
your most obedient Servant

From the Revenue Dept.

TECHNICAL NOTE.

Name of work Constructing Taluq Offices at Dharmavaram & Gooty, in Anantapur Dist.

The estimates under review have been framed with reference to G.O. No. 359 W dated 9th Feby 1893 & provide for Constructing first class Taluq Offices with outhouses at the undermentioned Stations in Anantapur Dist.

(a) Taluq Office at Dharmavaram Rs 34,100
(b) " " " at Gooty — Rs 33,700

The estimates for both the Offices have been based on the Type designs for Taluq Offices approved in G.O. No. 3023 W dated 11th April 1891 for the main building & for the outhouses as per designs circulated with G.O. No. 1409 W dated 28th May 1889.

The estimates are divided as follows

Office at Dharmavaram:

Office ———	Rs 32,361
Cook room ———	667
Public latrine ———	640
Safe compound wall & hedge	322
Compensation for land	60
Contingencies 5% (Rs 1522)	
Petty supervision establishment for 40 months at Rs 25 per month ——— (Rs 1000)	
	Rs 34,100

W 1998 W 8.24.7.91
W 1998 W 8.20.9.89

Offices at Gampola

Taking Offices	Rs	32,113
Cooly rooms	"	654
Public latrine	"	680
Gate, compound wall & bridge	"	353
Contingencies 5% (Rs 1538)		
Watching for 33 months at Rs 25 per month (Rs 950)		
Total estimate	Rs	33700

The nature of soils at the sites are stated are as follows :-

At Dharmavaram, surface soil red gravel to a depth of 2 feet & sub soil white gravel or earth

At Gampola - surface soil brown earth to an average depth of 1'9" & sub soil white kankar

The foundations for both the offices will be sunk 4 feet deep, the lower one foot will be laid with concrete & the upper 3 feet together with the basement raised 2 feet high built with coursed rubble in mortar 2³ 2½ to. The superstructure walls will be raised to the heights noted on the Typical designs & built of coursed rubble in mortar 1½ to 1 with arches over doors & windows. The external face of walls will be pointed with chunam & the internal plastered with chunam & coats. The flooring will be of granite slabs laid over 4" concrete thumpoot except the verandah rooms & jail wards which will be of ¾" asphaltic laid over a bed of 4" concrete. The roof will be terraced thumpoot with brick on edge &c. supported by teak beams & girders. The doors & windows will be of teakwood

The wrought & painted with 3 coats of Silicati paint. The roof timbers will be wood oiled 2 coats.

The scantlings for roof timbers are correct.

The rates are fair. 2196/11

The plinth area & cost per sft. with be as follows :-

	area		
Dharmavaram	10842	= Rs	3-2-0.
Gampola	10842	=	2-15-5.

No provision has been made for reward racks, there being five lines may under para 2 Chapter XI of the P. W. Code be provided for on a supplemental estimate.

The estimates have been countersigned by the Collector of Anuradhapura & approved in the Revenue Dept. with the remark that the question of substituting a hard wire fence for an aloe or Korakapallie hedge will be considered in this Dept.

By omitting the provision of Korakapallie or aloe hedge the amount of the estimate will be reduced as follows :-

Dharmavaram	from Rs 34,100	to	33897 -
Gampola	33,700	to	33,564

& the necessary alteration have been made in the estimates in red ink. Supplemental estimates may be called in for providing barbed wire fencing instead
