GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

Buildings and Roads.
Civil Works.

READ—the following paper :—

From G. D. WYBROW, Esq., Superintending Engineer, I Circle, to the Chief Engineer, Public Works Department, dated Dowlaishweram, 2nd August 1893, No. 1147 G.D.

With reference to your memorandum No. 1267 C., dated 16th March 1893, I have the honour to submit the marginally-noted statements, &c., connected with the stock taken of the Dowlaishweram Workshops.

- 1 comparative statement.
- 1 statement showing the result of stock-taking of the Dowlaishweram Workshop Stores.
- 1 letter No. 153, dated 30th May 1893, from the officer in charge, Government Workshops, Dowlaishweram, to the Executive Engineer, Gódávari Eastern division.
- 1 letter No. 292 S., dated 18th July 1893, from the Executive Engineer, Gódávari Eastern division, to the Superintending Engineer, I Circle.

4

2. From these papers it will be seen that the prices of the articles actually counted have been fixed on the basis of current market rates agreeably to the instructions laid down in paragraph 39, chapter XIII, volume II of India Code, with the result that a net profit of Rs. 6,836-7-5 has been arrived at as per subjoined abstract statement :—

—	As per stock account.			As actually counted.			Profit.			Loss.			Net profit.

Total ..	39,931	4	9	46,767	12	2	7,747	13	4	911	5	11	6,836	7	5

3. As usual, the profit *minus* the loss which will be effected by sale of unserviceable articles to be sanctioned by me will be credited to "Provincial Revenue" and debited to "Stock" in the accounts of Gódávari Eastern division, and I request the necessary sanction of Government to the same.

ENCLOSURES.

From C. J. USSHER, Esq., Executive Engineer, Gódávari Eastern division, to the Superintending Engineer, I Circle, dated Dowlaishweram, 18th July 1893, No. 292 S.

I have the honour to forward herewith copy of letter No. 153 of 30th May 1893 received from Mr. H. A. Moss, Executive Engineer in charge Workshops sub-division, together with statements noted in the margin showing the results of his stock-taking.

1 copy of Sub-divisional officer's No. 153 of 30th May 1893.
1 statement of actual count.
1 do. showing the result of stock-taking.
1 comparative statement showing the differences between the book and market values.
1 Survey report.
—
5
—

2. The prices of the articles actually counted have been fixed on the basis of current market rates in accordance with the instructions contained in paragraph 39, chapter XIII, volume II, India Code, the result being that there is a profit of Rs. 6,836-7-5, which is due to the book values being less than the market values of stores in many cases.

3. The profit after deducting the loss which will be effected by sale of unserviceable articles shown in the accompanying survey report will be credited to Provincial revenue and debited to stock and necessary alterations will be made in the stock books with reference to the actuals of stock-taking both as to quantities and values on receipt of the sanction of Government which I request you will obtain as early as possible.

4. The suggestion of the Sub-divisional officer that hides should be accounted for by weight has been approved by me and necessary instructions have been given to the Sub-divisional officer on the subject.

From H. A. MOSS, Esq., Assistant Engineer, in charge Government Workshop sub-division, to the Executive Engineer, Gódávari Eastern division, dated Dowlaishweram, 30th May 1893, No. 153.

With reference to your letter No. H. 780, dated 24th February 1893, I have the honour to submit a statement showing the result of my stock-taking in the Workshop Stores together with statements showing increase or decrease of quantities or values and a list of unserviceable articles.

2. On the whole the quantities "as counted" agree very fairly with the book balances. There are no serious deficiencies and the value on the whole is in excess of that shown in the accounts. The excess is principally in iron and fuel. The causes of this are explained in the remark column of the statement. There are one or two instances noted of articles being entered under the wrong names. These should, if possible, be rectified.

3. A large number of planes in stock are perfectly useless and appear to have been so for years. These should be got rid of. They have been entered in the list of unserviceable stores.

4. I find that hides are entered in the accounts by number. I think their weight should be entered instead. They are issued in small pieces and the issues can thus only be shown by fractions of a hide which it is possible to check.

ORDER—dated 29th August 1893, No. 2202 W., Public Works.

The results of the stock-taking of the Dowlaishweram Workshops, as summarised in the Superintending Engineer's letter, are satisfactory.

2. The actual value of the stock is shown to be Rs. 6,836-7-5 in excess of that appearing in the books. The adjustment of the difference, as proposed in paragraph 3 of the Superintending Engineer's letter, is sanctioned.

Sir

With reference to your letter No. 87/780 dated 24th February 1893, I have the honor to submit a statement showing the result of my stock taking in the workshop store together with statements showing increase or decrease of quantities or values and a list of unserviceable articles.

On the whole the quantities "as counted" agree very fairly with the book balances. There are no serious deficiencies and the value on the whole is in excess of that shown in the accounts. The excess is principally in iron and fuel. The causes of this are explained in the remark column of the statement. There are one or two instances noted of articles being entered under the wrong names. These should if possible be rectified.

A large number of planes in stock are perfectly useless and appear to have been so for years. These should be got rid of. They have been entered in the list of "unserviceable" stores.

I find that hides are entered in the accounts by number. I think their weight should be entered instead. They are issued in small pieces and the issues can thus only be shewn by fractions of a hide which its is possible to check.
