Read—the following paper :—

From the Inspector-General of Jails, dated 12th July 1893, No. 3601.

With reference to G.O., dated 12th December 1892, No. 2287, Judicial, and to G.O., dated 10th January 1893, No. 8 R., Judicial, I have the honour to submit, for the approval and sanction of Government, plans and estimates, amounting to Rs. 3,080, for the improvements to the Salem Central Jail which were approved by Government in the former Government Order. The necessity for these works was fully explained in my letter No. O-785, dated 16th November 1892.

2. A space of 32 feet should be left between the two main gates, the inner one of which should open outwards, i.e., into the jail and not into the space between the gates, and the wall in which the inner or iron-barred main gate is fixed should be raised sufficiently high to make it impossible for a prisoner, by climbing on the gate, to reach the top of the wall. I have pointed these matters out to the Superintending Engineer who has informed me in his letter No. 269 M., dated 9th instant, that the plans and estimates have been revised accordingly.

Order—dated 20th July 1893, No. 1466, Judicial.

Approved and transferred to the Public Works Department.
