very difficult to
good men to join
temporary Establish-
ment such as the
S. R. S. especially good
draughtsmen, to retain
whom, if they are of
any use, has been
found very difficult
without sufficiently
liberal rates of pay
being offered. In effi-
ciency in personnel
considerably retards
output in work and
the increase of pay
asked for was more
especially interested
to obtain a better class
of draughtsmen than

the present salaries
attract. I request
that, under the circumstances
explained, Government
may be pleased to
reconsider its order
declining the proposals
made in this office

under the explanation now afforded, it is thought that the proposition statement may be sanctioned.

The proposals as a whole result in a saving to Govt of Rs 1068 per annum, and as the entire establishment is temporary, no increase in pensionary charge is involved by the proposed small addi-

I think an amendment in the order of the Surveyor should be made - the work done is of the complete nature which can be done by any person in Surveyor - a great deal of work is being done in connection with the work of the Surveyor. FOR ORDERS with reference
to L.O. No. 1974 W dated 28
July 1893.

The undersigned is
still unable to see why the
pay of draftsmen and surveyors
should be increased.
The work to be done is of the
simplest nature which can
be done by any draftsman
or surveyor.

A great deal too much
money is being spent on
surveying and levelling in
connection with these pet
tanks.
