CHIEF SECRETARIAT MADRAS.

2313/1

PROCEEDINGS OF THE MADRAS GOVERNMENT.

READ the following paper :—

From the Presidency Port Officer, Madras,
dy 14th July 1893, No: 695/241 Gy.

Order dy 21st August 1893, No: 305.

The Presidency Port Officer recommends that the opinion of an expert in matters connected with harbours should be obtained before steps are taken for extending the northern groyne at Cocanada. The best opinion that the Government can command is to the effect that the extension is advisable and the Conservancy Board wishes to undertake it. The Government will not therefore object to the work being carried out.

2. It appears from the Presidency Port Officer's report that on the 31st March last the Board had a credit balance of Rs 20,156. As the Board has been relieved of the payment of charges approximating Rs 11000 on account of interest and depreciation for the use of the dredger "Wenlock" a considerable amount is immediately available for expenditure, there being no necessity

× Not Commd.

2313/2

necessity for the retention of so large a balance. The Board will therefore not require to borrow Rs 34,500, the estimated cost of the work - but should utilise Rs 18,000 out of the balance in hand and the Government will be prepared to make the remaining sum of Rs 16,500 available by a loan from the Malabar District Port Fund, to be repaid in four years with interest at four per cent. As the annual surplus of Landing and Shipping - Dues is estimated at Rs 10,000 the payment will be well within the Board's means.

3. The Board should state without delay whether the offer now made is accepted.
