NOTE.—Executive Engineers should carefully scrutinize the journals of their Executive officers and subordinates, and disallow all claims to travelling allowance not fairly earned. From the knowledge they possess of the circle under their charge and of the works in progress in the several divisions, Superintending Engineers are alone fully competent to judge of the necessity or otherwise of each half, of the distances charged and of the necessity for the allowance, &c.; and the Government look to them as the primary auditors of the travelling allowance bills of their subordinate officers, not to permit the provisions of the travelling allowance code to be taken undue advantage of.

Reference to P. W. D. Code, Chapter IV, para

1. Claims for travelling allowances and the journals in support of them should be submitted within the month after that to which the claim relates.

2. An Overseer or other subordinate who habitually, and without due cause assigned, omits to despatch his journal in support of claim for travelling allowance within the first five days of the month succeeding that for which the claim is made, should be reported to the Superintending Engineer.

To,

The Examiner
of P.W. Accounts.

Sir,

With reference to your disallowance on my Travelling allowance bill for May of Rs 6-3-0 for the carriage of camp equipment, I have the honor to ask if I am not entitled to draw actual expenses for the two bandies which I engaged at Coimbatore and which did not return to that place till the day after my arrival there by train.

It appears to me that your interpretation of the rules in this case is a very hard and fast one, considering that I might have taken not only my camp equipage but my horses also by train and charged Government for them, both of which would have come to more than the charge I made for the

the bandies.

No 642 Dated Madras 19th Augt 1893.

Sir,

With reference to your No 196/Estt dated the 27th July 1893, I have the honor to point out that the provisions of article 1093 do not apply to any and every occasion on which an officer may choose to take his horses or Camp equipment by rail or steamer, but only to those occasions when a Local Government is satisfied that the interests of public service require them to be so sent, i.e. when an officer is sent on some special duty

or has suddenly to proceed on a journey which necessitates his arriving at his destination fully equipped for field work or campingout.

2 No provision has been made in article 109 for road carriage of camp equipment, simply because an officer's daily allowance or mileage is intended to cover the cost of such carriage and accordingly I must express my regret that I cannot in a position to pass the charges in question.

3. My interpretation may not be acceptable to you, but there is no objection to your referring the point to Government.

Sir,

I have the honor with reference to the disallowance by the Examiner of my charge of Rs 6-3-- for carriage of Camp equipage &c from Tirupur to Coimbatore on the 31st May 1893 to request that you will sanction the charge or obtain the sanction of Government to the same.

2. The charge was passed by you but disallowed by the Examiner on what appears to me inadequate grounds. With your permission I could have

taken my horses and Camp equipage by rail and the Examiner would have made no objection, but as I had hired carts at Coimbatore I sent my Camp equipage by road instead of rail with my horses. By doing this I actually saved Government some expense. Under the circumstances it appears to me that I was entitled to Charge for carriage of my Camp equipage by road. Copies of correspondence with the Examiner are enclosed.
