Madras Meteorological Office,
12th August 1893 No. 891

From

Mrs E. Isis Pogson, F. R. Met. Soc.,

Meteorological Reporter to the Government of Madras,

To

The Under Secretary to Government
Revenue Department

Ootacamund.

Sir,

In reply to letter No 5066 dated Ootacamund 15th July 1893 from the Superintendent of Telegraphs, Madras Division, forwarded to me for remarks, under your Endorsement G. O. No 2731 M.O. dated Ootacamund 24th July 1893, I have the honor to state that the suggestions made by the Superintendent of Telegraphs to loop the existing wires between the Central Telegraph Office and the Nungambakkam Combined Office with the Madras Meteorological Office will meet all my requirements providing suitable arrangements are made to prevent any obstructions during the hours at which the Weather Telegrams are expected to arrive, viz, between 8 and 10 A.M.

2. I shall be much obliged if the Telegraph Department will kindly depute a Signaller to attend this Office daily from 8-30 to 10-30 A.M. or until all the Weather Messages from the Meteorological Observatories have arrived.

I have the honor to be,

Sir,

Your most obedient servant,

E. Isis Pogson

Meteorological Reporter to the
Government of Madras.

Recd.

Sir, ^{enclosure} With reference to your letter No. *1754 W*, dated the 6th instant
of *1893*, I have the honour to ^{forwarding} a copy of

Government Order No. *457* dated 26th May 1893 and in which
I am asked to arrange to connect telegraphically the Office
of the Meteorological Reporter with the Central Telegraph
Office, Madras. I have the honor to enquire whether a
special wire is required for this connection or if it will
answer to loop the existing wire between the Central Office
and Otingumbankum Combined Office into the Office
of the Meteorological Reporter to Government.

2. It is my belief that the latter arrangement would
meet all requirements and that it would probably be less
costly than the former, but there may be reasons of which
I have no knowledge for the erection of a special wire to
be used solely for the weather telegrams.

3. I should be much obliged also if you would let
me know whether the Signaller to attend the instrument
in the Meteorological Reporter's Office would have to be
provided by this Department.

I have the honor to be,

Your most obedient servant,

A. P. Palmer
