Superintending Engineer's Office,

No. 1290 Ns

23¹²/₁

II CIRCLE,

Dated 28 August 1893.

From,

J. W. Martin Esquire,

Superintending Engineer,

II Circle.

To,

The Chief Engineer, &
Secretary to Government,
P.W. Department.

Sir,

Referring to G.O. No 21734
dated 23rd instant, which I have
just received, replacing Mr
Chatterton's services at the disposal
of the Educational Department,
I have the honor to inform you
that on the 21st instant, letter
No 201 SE dated 19th instant was
received at my office from him
requesting me to apply to Government
for an extension of one year
to the period of two years already
sanctioned for him to be attached to
the

the Public Works Department.

2. Mr. Lechatterton is a most excellent officer for the duties of an Executive Engineer in Charge of one of the irrigation divisions of the Kistna District. At some months, in fact, for nearly the whole time I have been in Charge of this Circle, he has been in Charge of the Godavari Division. He is most attentive to his work & takes much interest in it particularly in adopting measures for economizing the Consumption of water in view to extending irrigation. We are now pumping water from the - Apputero, and supplying it for irrigation as an experimental measure to see if the water can be used on an extended scale.

Mr. Lechatterton is mainly the author of this proposal, and so far

not at all.
Mr. Lechatterton is the author. JH

So far it promises well, and he takes much interest in it. In short he has given me Complete Satisfaction as an Executive Engineer in Charge of a division, and I am of opinion that it would be distinctly of great advantage to the Public Works Dept. as regards extending irrigation rapidly in the Kistna District, to permit him to remain attached to the Department for another year. I hope, therefore, Government will be able to allow Mr. Lechatterton to remain attached to this Circle for another year.

I have the honor to be,
Sir,
Your most obedient Servant,

J. W. Martin
Supt. Engineer
Dumth
