No 3646

Nilgiri Collector's Office
Ootacamund 10th August 1893

247

From

C. Wolfe Murray Esquire
Ag. Collector of Nilgiris

To

The Superintending Engineer
W Circle.

Sir,

I have the honor to call your attention to the banks of the streams just above the Coonoor bridge. It seems to me that the heavy floods and digging combined are rapidly washing them away and that the time is rapidly approaching if not already arrived when they should be regularly rivetted, as has been done already with small portions of them; for the banks seem to me in danger of falling in. There are two converging streams just above the bridge and I should be glad of your opinion on this matter, as you can spare time to inspect the place.

(Enclosure)

I am, Sir, very respectfully,
Yours faithfully,
C. Wolfe Murray
Ag. Collector

No 324

Superintending Engineer Office
L^d Circle. 16th August 1893

From

Major A. W. Smart R. E.

Superintending Engineer

L^d Circle

To

The Collector of
Nilgiris.

Sir,

With reference to your No 3646
dated 10th Instant, I have the honor to state
that I inspected the bonnor bridge and river
above on the 23rd July 1893, and am of
opinion that there is no immediate
danger of the slopes of the road above
slipping into the stream. It will
be well next year to build up stream
walls for which an estimate will
be prepared. Meanwhile the Executive
Engineer will be requested to have the
place watched and if there is any
further movement in the slopes to
pitch them for temporary protection.

I have the honor to

Superintending Engineer
4th Circle.

To

The Collector of
Nilgiris

Sir,

I have the honor to inform you
that since I wrote this office letter
No 324, dated 16th current, I am informed
that the Connor bridge is not in
the charge of the Public Works Depart-
ment and I cannot therefore do
any thing for it.

I have the honor to be

From

O. Wolfe Murray Esquire
Ag. Collector of Nilgiris

To

The Secretary to Government
Public Works Department
Stonehouse Hill

Sir,

I have the honor to submit for the orders of Government the marginally noted correspondence between this office and the Superintending Engineer Mr. Cole regarding the condition of the banks of the streams near the Coonoor bridge. The bridge, which is reported not to be in charge of the Public Works Department, is all right: it is the banks above it on both sides of the two streams, which the Superintending Engineer referred to in his first letter, that require attention. These I conceive are in need of the skilled supervision of the Public Works

Works Department. I have however
drawn the attention of the Chairman
Municipal Council to the
condition of these banks. It will be
observed that the Superintending
Engineer admits the necessity of
building up wings to the banks next
year and that meantime the banks
will be watched. In the short time
I have been here, I have seen
considerable washing away of the
banks.

I have the honor to be
Sir

Your most obedient servant

J. H. Payne

for Ag. Collector
