16TH FEBRUARY 1888, No. 537 W., PUBLIC WORKS.

GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

General
Establishment.

READ—the following letter from J. HANNAN, Esq., Superintending Engineer, II Circle, to the Chief Engineer, Public Works Department, dated Bezvada, 28th January 1888, No. 406 G.L. :—

I have the honor to request you will be good enough to grant me a general permission to appoint a temporary clerk, 5th class, 1st grade, and a temporary lascar on Rs. 6 to work under temporary upper subordinates, who have already been, and will be, appointed to this circle, from, or subsequent to, the date on which such upper subordinates join the several divisions of this circle. These appointments will be duly intimated to the Examiner in the weekly returns. These appointments will cease from the date on which such upper subordinates quit the divisions concerned.

2. In making the above appointments, I beg to bring to your notice that the supernumerary permanent clerks will be first provided for.

To the Examiner of Public Works Accounts, dated 2nd February 1888, No. 433 C.
From the Examiner of Public Works Accounts, dated 11th February 1888, No. 1055.

ORDER—dated 16th February 1888, No. 537 W., Public Works.

Superintending Engineers are authorised to appoint a temporary clerk, 5th class, 1st grade, and a temporary lascar on Rs. 6, for employment under each temporary upper subordinate sanctioned. It will be understood that the establishment is not to be engaged unless absolutely necessary, and that it must be dispensed with when no longer required. Supernumerary hands must in all cases be first absorbed.

(True Extract.)

(Signed) J. O. HASTED, Colonel, R.E.,
Secretary to Govt., P.W.D.

To Superintending Engineers.

GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

General
Establishment.

READ—the following paper:—

From M.R.Ry. Rai Bahadur S. SUBROYACHARIAR, Avergai, Executive Engineer, Negapatam division, to the Superintending Engineer, V Circle, dated 23rd July 1893, No. 347 S.E.

Just as I was intending to write to you about the insufficiency of the establishment, I have the honour to inform you that I received your No. 37 C.N.G. regarding Tank Restoration Scheme works in Pattukkottai.

2. At present two ~~overseers~~ of my ordinary establishment are absent and I do not know yet when their substitutes will join me. The tanks' estimates are being now rapidly sanctioned and I begin therefore now to think that time has arrived for the formation of the said taluk into a sub-division as previously suggested and approved of—vide your No. 246 N.G. It should form a sub-division with three overseers attached; so one additional sub-divisional officer, two more overseers and their establishment should be soon posted. These two overseers are in addition to the absent two overseers whose substitutes also should be soon posted.

3. In starting works there is generally much time taken in engaging contractors and laying out works, more so in a taluk like Pattukkottai where it is not easy to carry out work expeditiously. From Mr. Ainley's 10 days' report recently submitted, it would appear that he had inspected some started works and the progress is rather fair. The masonry works have not, however, advanced satisfactorily and great difficulty is being experienced for firewood. The estimates now sanctioned are all under "New Works."

4. I have intended to go this month from Tirutturaippundi via Muttupet to Pattukkottai (being now engaged in the Tirutturaippundi sub-division), but as the Head Assistant Collector has desired me to make a joint inspection with him and the Railway Engineer of the new railway works that affect our irrigation works on the 1st proximo to dispose of the several villagers' petition against them, I shall go to Pattukkottai next month as soon as the said work is over when the detailed report called for of Tank Restoration Scheme works will be submitted.

5. I should also submit again for your consideration the desirability of reducing the Executive Engineer's own sub-division charge. In fact, he should have no sub-division of his own after the formation of the third sub-division.

P.S.—After drafting this and sending to office for beingaired, Overseer Appadoray Mudaliar has reported himself whom I have sent to Pattukkottai.

No. 261 W.

Submitted to the Chief Engineer, Public Works Department.

2. During the execution of the Tank Restoration Scheme works in Pattukkottai taluk, an extra temporary sub-division may well be sanctioned. Up to date, 67 Tank Restoration Scheme estimates have been sanctioned amounting to Rs. 71,000. The greater number of these are in the extreme southern corner of the taluk, a long way removed from Mannargudi, the head-quarters of the sub-division, to which Pattukkottai now belongs.

3. Two extra overseers are also much required.

4. The Executive Engineer's proposal in paragraph 5 may also be sanctioned, the head-quarter sub-division being attached to the Tirutturaippandi sub-division, at present a light one.

5. A colored tracing accompanies showing the present sub-division boundaries.

25th July 1893.

(Signed) J. C. LARMINTIE,
Superintending Engineer, V Circle.

ORDER—dated 25th August 1893, No. 2191 W., Public Works.

The formation of an additional sub-division in the Negapatam division to be termed the Pattukkottai sub-division is sanctioned and the proposal in paragraph 4 of the Superintending Engineer's endorsement is approved.

2. The Chief Engineer will arrange to post the additional overseers required in the division.
