Sir,

With reference to
your letter No. 119. M. W. of
13 January 1893, inquiring
when a further com-
- munication regarding
the Bellary water supply
project may be expected,
I am directed to state
that plans and es-
- timates amounting to
Rs 9,11,080 for improving
the water supply of the
town have been pre-
- pared by the Sanitary
Engineer, & have been
referred to the Bellary
municipal

municipal
consideration, in con-
= sideration with a note
on the subject by the
Chief Engineer P. W. Dept.
who has doubts whether
the uncertain nature
of the supply justifies
so large an expenditure.

2. It is proposed to
divide the Capital ex-
= penditure, as well as
the working expenses which
are estimated at Rs. 1,83,88
between the Civil &
military departments in
the proportions of 57 to 9,
but it will not be
possible to report the
exact figures to the
Govt. of India until
the views of the Munici-
= pal Council have
been received, & until
certain

certain modifications
in the plans & estimates
considered ^{25/6} necessary by
the Chief Engineer have
been carried out.
