READ—the following paper:—

Proceedings of the Board of Revenue (Land Revenue), dated 13th September 1893, Mis. No. 5312.

Read—the following letter from J. ANDREW, Esq., Acting Collector and District Magistrate of Salem, to the Secretary to the Commissioners of Land Revenue, dated 8th September 1893, Ref. on No. 1991-Ver.:—

I have the honour to submit herewith copy of arzi No. 343 C and D of the 27th May last of the Deputy Tahsildar of the Shevaroy Hills, together with a plan and memorandum of measurement in original, submitting proposals for the extension of his office building and for other additions, and to request that the Board will be pleased to obtain the sanction of Government for the preparation by the Public Works Department of the necessary plans and estimates.

2. I have seen the place and think that the extension proposed by the Deputy Tahsildar is very necessary. The Executive Engineer, Salem division, who was consulted in the matter, is of opinion that the proposed extension will cost more than Rs. 500.

ENCLOSURE.

From M.R.Ry. S. VENCATASUBBIER, Avergal, Deputy Tahsildar of Shevaroy Hills, to the Collector of Salem, dated Yercaud, 27th May 1893, Ref. No. 343 C and D.

I beg to submit that my office building, which is not spacious enough for the present requirements, requires improvement, and therefore suggest the following improvements and additions for your honour's kind consideration and early orders.

2. (*a*) Referring to the enclosed rough sketch, I beg to state that the room B where the two clerks at present sit with their current records being too small, it is necessary that this and the registration clerks' room C should be converted into one room for my clerks by removing the wall D which divides them at present, and that another room G should be added on the western side for the records and forms, &c., which are now kept in the court room in three almyras.

(*b*) As the conversion suggested would deprive the registration clerk of his room, another room A should be added on the northern side for the use of the registration clerk.

(*c*) Moreover, during cloudy days the court room gets dark so soon as 4 P.M., and I find it difficult to work without light till the close of the day. It is therefore necessary that some contrivance should be made in the court room to admit of light till 6 P.M.

(*d*) As the treasury and court rooms are situated at present, I cannot see what the shroff is doing. I would therefore suggest the expediency of opening a large window in the wall which intercepts the two rooms in the place marked E, so that I may have always a look at what the shroff is doing. Further, a wooden railing, with a flat wooden top fit for counting money thereon, is also necessary in the place marked F in the treasury room so as to prevent people from approaching the treasury, which is generally the case at present.

(*e*) The front verandah on the eastern side also needs extension as far as AA and the addition of another room BB to the present police lock-up CC is very essential to avoid the present objectionable practice of keeping male and female prisoners when under remand in one and the same cell. If this suggestion is approved and carried out, the wall DD will have to be removed which will make the police guard room EE spacious enough. In this connection I

have also to urge the extreme necessity of providing a small kitchen for cooking the meals of the prisoners when under remand. At present the meals are cooked underneath the trees around the office, which is rendered very inconvenient during cold and rainy seasons. A ryots' shed is also very much needed as the parties are put to much inconvenience during the unfavorable seasons just now mentioned for want of a place to wait.

3. When Mr. Manson was here some time ago, I had secured an opportunity to take his opinion *re* the improvements I am now suggesting, and he opined that these can be easily effected with funds available on his being addressed by your honour on the subject.

4. As doubtless you are also convinced, during your recent inspection of my office, of the necessity that the building needs be made more spacious, I beg that early steps may be taken in the matter.

Resolution—dated 13th September 1893, Mis. No. 5312.

Submitted to Government with the request that the necessary orders may be issued in the Public Works Department.

To,
The Collector of
Salem

Report of the Dy Tahsildar of
Shevaroy Hills

Respected Sir,

I beg to submit that my office building, which is not spacious enough for the present requirements, requires improvement and therefore suggest the following improvements and additions, for your honour's kind Considera-tion and early orders:-

2. (a) Referring to the enclosed rough Sketch, I beg to state that the room B. where the two clerks at present, Sit with their Current records being too small, it is necessary that this and the Registration Clerk's room C. Should be Converted into one room for my clerks by removing the wall-D which divides these

3

at present. And that another room G. should be added on the western Side for the records and forms etc which are now kept in the Court room in 3 almyras—

(b). As the Commission suggested would deprive the Registration Clerk of his room, another room H. should be added on the northern Side for the use of the Registration Clerk.

(c) Moreover during Cloudy days, the Court room gets dark so soon as 4. P.m. and I find it difficult to work without light till the close of the day. It is therefore necessary that some Contrivance Should be made in the Court room to admit of light till 6. P.m.

(d). As the Treasury and Court rooms are Situated at present I Cannot See what the Shroff is doing. I would therefore Suggest the expediency of opening a large window in the wall which intersects the two rooms in the place marked E,

So that I may have always a look at what the Shroff is doing: Further, a wooden railing with a flat wooden top fit for Counting money thereon is also necessary in the place marked F, in the Treasury room, So as to prevent people from approaching the Treasury, which is generally the Case at present.

(e) The front Verandah on the Eastern Side also needs extension as far as A.A. and the addition of another room B.B. to the present Police Lockup C.C. is very essential to avoid the present objectionable practice of Keeping male and female prisoners when under remand in one and the Same Cell. If this Suggestion is approved and Carried out, the wall D.D. will have to be removed which will make the Police from 6 room EE Spacious enough.

In this Connection, I have also to add the

extreme necessity of providing a Small Kitchen
for Cooking the meals of the prisoners when under
remand. At present the meals are cooked
underneath the trees around the office which is
rendered very inconvenient during Cold and
rainy Seasons. A regular Shed is also very
much needed as the parties are put to much
inconvenience during the unfavourable Seasons
just now mentioned for want of a place to wait.

3. When Mr Manson was here some time ago, I had
learned an opportunity to take his opinion re the
improvements I am now Suggesting and he opined
that these Can be easily effected with funds available
on his being addressed by your honor on the Subject.

4. As Doubtless you are also Convinced, during your
recent inspection of my office, of the necessity
that the building needs be made more spacious,
I beg that early Steps may be taken in the matter.

I beg to remain
Sir
your most obedient Servant.
