" Chief Engineer, Military Works, Madras Command, dated 1st Dec. 1892, No. 9495.

From R. G. MACDONALD, Esq., Officiating Deputy Secretary to the Government of India, Public Works Department (Account—Civil Works), to the Secretary to the Government of Madras, Public Works Department, dated Calcutta, 10th January 1893, No. 19 A.—C.W.

I am directed to acknowledge the receipt of your endorsement No. 3231 W., dated 24th November 1892, forwarding the schedule of demands for Imperial Civil Works for 1893–94, and, in reply, to communicate the sanction of the Government of India to a provisional grant of Rs. 36,300 for which amount the preliminary issue of the budget estimate should be prepared.

2. The details of the provisional grant now sanctioned are shown in the accompanying statement.

Enclosure.

Statement showing details of the provisional grant for expenditure on Imperial Civil Works in Madras during 1893–94.

Order—dated 6th February 1893, No. 295 W., Public Works.

In the letter recorded above, the Government of India has made a provisional grant of Rs. 36,300 for expenditure on Imperial Civil Works in Madras during 1893–94 and the budget estimate for that year has been prepared accordingly.

2. No provision has been made by the Government of India for the following Major Works which were included in the schedule for next year:—

(1) New combined Post and Telegraph office at Mysore.

(2) Rebuilding the Telegraph office at Bezváda.

3. The Superintending Engineer, IV Circle, has, in his budget estimate submitted to Government, proposed an allotment for the Post office at Chandragiri in the North Arcot district. The work has not, however, been included in the schedule of the Director-General of Post Offices, and no provision has accordingly been made for it by the Government of India. The attention of all Superintending Engineers is called to the rules in para. 20, chapter XV, volume II of the Government of India Code, from which they will observe that the assignments for major and minor works made by the Government of India for Post and Telegraph offices are based on schedules submitted by the heads of the departments concerned. All demands, therefore, under these heads should, in future, be submitted through departmental officers and not direct to the Chief Engineer. The budget estimates of Superintending Engineers should, under rule II of the paragraph quoted above, be confined to requirements under *repairs*.

4. The control of grants for minor works under postal and telegraph being vested in the Directors-General of Post Offices and Telegraphs respectively, Superintending Engineers and the Consulting Architect will apply to those officers for funds required under those heads.

5. The Superintending Engineer, VI Circle, has applied for an allotment of Rs. 810 under "Salt works" for altering the left wing of the European infantry bomb-proof barracks at Trichinopoly so as to adapt it as an office for the Deputy Commissioner of Salt and Abkári Revenue. The allotments for salt works are based on the schedule of demands submitted by the Board of Revenue, but the Board's schedule for 1893–94 contained no provision for this work and no allotment has consequently been made by the Government of India for its execution. If the work is of such urgency that it cannot be conveniently postponed till next year, it will be specially brought forward by the Board.

6. Part II of the budget contains the distribution, among divisions, of the grants for postal and telegraph repairs.

7. The allotments applied for by the Chief Engineer, Military Works, Madras Command, for repairs to the postal and telegraph buildings at Bangalore have been included in the budget estimate and will be placed at his disposal on receipt of the final orders of the Government of India on the budget estimate for 1893–94.

8. The Consulting Architect will lose no time in submitting the necessary plan and estimate for additions and alterations to the Telegraph office at Madras, for which an allotment of Rs. 4,300 has been provided in the budget.

9. The difference between the budget and the revised estimate of charges for 1892–93 is due to the following causes:—

(1) Allotments for minor works subsequently sanctioned by the Directors-General of Post Offices and Telegraphs.

(2) Surrender to the Government of India of a portion of the grant for the Telegraph office at Guntakal.

(3) Transfer of Rs. 623 to the Military Works Department for expenditure at Bangalore.

295-6
2

10. With these remarks the preliminary issue of the Imperial Civil Works budget estimate for 1893–94 will be printed and circulated to the officers concerned, and four copies will be forwarded to the Government of India, Public Works Department.

" " Chief Engr. Mily. Works Madras Command } No. 9495 d/ 1 Decr. -do-
Letter from the Govt. of India No. 19 C.W. d/ 10th Jany 1893.

In the letter recorded above, the Govt. of India has made a provisiona grant of Rs. 36,300 for expenditure on Imperial Civil Works in Madras during 1893-94 and the budget estimate for that year has been prepared accordingly.

2. No provision has been made by the Govt. of India for the following major

major works which were included in the schedule for that year:—

1. New Combined Post and Telegraph office at Mysore.
2. Rebuilding the Telegraph office at Bezoada

3. The Suptg. Engineer IV circle has, in his budget estimate submitted to Govt., proposed an allotment for the Post office at Chandragiri in the North Arcot District. The work has not, however, been included in the schedule of the Director Gl. of Post offices and no provision has accordingly been made for it by the Govt. of India. The attention of all Suptg. Engineers is called to the rules in para 20, Chap. XV. Volume II of the Govt. of India Code, from which they will observe that the assignments for major and minor works made by the Govt. of India for Post and Telegraph offices are based on schedules submitted by the heads of the

concerned departments. All demands, therefore, under these heads should in future be submitted through ~~these~~ Departmental Officers ~~con~~= =~~cerned~~ and not direct to the Chief Engineer. The budget estimates of Suptg. Engineers should, under Rule II of the para quoted above, be confined to requirements under repairs.

4. The Control of grants for Minor Works under Postal and Telegraph being vested in the Directors Gl. of Post offices and Telegraphs respectively, Suptg. Engineers and the Consg. Architect will apply ~~direct~~ to those offices for funds required under those heads.

5. The Suptg. Engineer VI Circle has applied for an allotment of Rs. 810 under "Salt Works" for altering the left wing of the Euro. Infantry bomb. proof at Trichinopoly so a

adapt it ~~for~~ as an office for the Deputy Commissioner of Salt and Abkâri Revenue. The allotments for Salt Works are based on the schedule of demands submitted by the Board of Revenue; but the Board's schedule for 1893-94 contained no provision for this work, and no allotment has consequently been made by the Govt. of India for its execution. If the work is of such urgency that it cannot be conveniently postponed till next year, it will be specially brought forward by the Board.

6. Part IIa of the budget contains the distribution, among Divisions, of the grants for Postal and Telegraph Repairs.

7. The allotments applied for by the Chief Engineer, Military Works, Madras Command, for repairs to the Postal and Telegraph buildings at Bangalore have been cluded in the budget imate, and will be

o.

on receipt of the final orders of the Govt. of India on the budget estimate for 1893-94.

8. The Consg. Architect will lose no time in submittin the necessary plan an estimate for additions a alterations to the Telegra Office at Madras for which an allotment of Rs. 4,300 has been provided in the budget.

9. The difference between the budget and the revised estimate of charges for 1892-93 is due to the follow causes:—

1. Allotments for minor Works subsequently sanctioned by the Directors Gl. of Post offices and Telegraphs.
2. Surrender to the Govt. of India of a portio of the grant for the Telegraph office at Guntakal.
3. Transfer of Rs. 623 to Military Works Dep expenditure at

0. With these remarks, the preliminary issue of the Imperial Civil Works Budget Estimate for 1893-94 will be printed and circulated to the officers concerned, and four copies will be forwarded to the Govt. of India P. W. Department.
