Read—the following paper :—

From H. E. CLERK, Esq., Executive Engineer, North Arcot Division, to the Superintending Engineer, IV Circle, dated Vellore, 27th October 1893, No. 467 S.E.

In submitting herewith a revised proposition statement for the Survey establishment required for this division, as called for in your No. 481 N.A., dated 9th September 1893, I have the honour to inform you that in G.O. No. 1382 W. of 20th May 1893, sanction was given for the employment of—

One surveyor on Rs. 70 for one year.
" do. on Rs. 60 for six months.
Three surveyors on Rs. 25 each for six months.

2. Pending receipt of sanction above referred to—

One surveyor on Rs. 70,
Two surveyors on Rs. 25 each,
One surveyor on Rs. 25 for one month

were employed and their pay was charged to work establishment. The Examiner objected to this and pointed out that, under the spirit of G.O. No. 483 W. of 24th February 1893, the pay of the surveyors from the commencement of the current official year should be charged to Establishment. The necessary write-back has been carried out, and the pay of the men from March 1893 claimed in the salary bill for August 1893.

3. Sanction of Government is therefore required for the employment of the men, with effect from 1st March 1893, as detailed in the proposition statement.

Enclosure to G.O., No. 1382 W., dated 20th May 1893.

NOTES.

REFERENCE TO MADRAS P. W. D. CODE, EDITION OF 1886.

PARAS. 25 & 26.

1. The column headed "present scale" should invariably show the *sanctioned scale for the time being* and not the strength of the actual (whether above or below sanctioned) establishment as it happens to stand at the time. The "present scale" should be verified by the examiner before the proposal is submitted to government for sanction (paras. 25 and 26).

2. In the column "average or fixed pay," financial value, not mean value, should be given.

3. The financial value should in the case of progressive appointments be calculated as follows:—

(1) If the period of rise from minimum to maximum is 5 years, the average will be the minimum *plus* two-thirds, or if the appointment is a ministerial one, *plus* three-fourths, of the difference between the minimum and maximum (C. S. R., Art. 164).

(2) If the period of growth exceeds five years (as in the case of accountants) the $\frac{2}{3}$th fraction should be decreased by $\frac{1}{10}$th of the difference for every year by which the period exceeds five; the fraction for periods in excess of five years will therefore be as follows:—

6 years = $\frac{2}{3} - \frac{1}{10} = \frac{14}{30}$
7 years = $\frac{2}{3} - \frac{2}{10} = \frac{13}{30}$
8 years = $\frac{2}{3} - \frac{3}{10} = \frac{11}{30}$

and so on; so that when the period of growth is 20 years the financial value will be the exact mean.
