The Exec. Engineer  
Vernon dist.  
To The Supg. Engineer  
First Circle  
No 1378 of 10-10-93

with last for any length of time; and the lines have in all probability cost more, in annual repairs, than the original cost and subsequent maintenance would have been, had the lines been first built of the best material procurable.

4. Under the circumstances I beg to suggest that the lines be rebuilt in a more substantial manner; the walls of stone in Chunar and the roof of teak or sal-wood with tiles; personally I should prefer to have a light corrugated iron roof covered over with thatch or palmyrah leaves, as per section annexed. Building stone is obtained 2 miles from site and lime  $\frac{1}{2}$  a mile, so that the cost of the masonry will not be more than Rs 7 $\frac{1}{2}$  to Rs 8 per 100 C. ft.

5. It is not to be expected that the grant for one year will cover the cost of rebuilding the whole of the lines; but there is no reason why the work cannot spread over for 3 or 4 years so that in time we would have substantial buildings and every rupee would be spent in the right direction.

HEADING *Native Lines Building.*

QUARTER MASTER GENERAL'S OFFICE,

Ootacamund,

13<sup>th</sup> November 1893.

It is requested that the heading, number, and date of this communication may be quoted in any subsequent correspondence on this subject.

No. 2055-M. W.

2027/3

From

BRIGADIER-GENERAL E. H. LYRE,

QUARTER MASTER GENERAL,

To

THE SECRETARY TO GOVERNMENT,

MILITARY DEPARTMENT.

SIR,

In returning R. O. No. 7328 of 4<sup>th</sup> Instant, with enclosures, referring for remarks a report on the Madras Infantry Lines at Vizianagram, I am desirous to state that the condition of these lines has already been on several occasions brought to the notice of His Excellency the Commander-in-Chief and it is intended as soon as funds can be made available to reconstruct them according to the standard plan, but owing to the smallness

Smallness of the grant at the disposal of the Commander-in-Chief and the very many demands thereon, it has not been found practicable at present to do more than keep the existing lines in repair, and large amounts as far as the "Hutting Grant" will admit, have been annually expended for the purpose. Since the lines have been purchased by the State.

2. It is noted that para 1154 M. P. W. D. Code quoted in the letter from the Assistant Engineer in charge Vizagapatam Division (one of the enclosures herewith returned) has reference to only temporary barrack buildings in charge of the

the Executive Engineer<sup>927</sup>, and is not therefore applicable to the lines in question, which are under regimental charge and erected and repaired regimentally; the local office of the Public Works Department being only required to afford the officer Commanding his professional assistance in framing the necessary estimates &c.

I have the honor to be,

Sir,

Your obedient Servant

L. D. Lye: B. Genl.  
Quartermaster General.
