Civil Works.

READ—the following paper:—

Proceedings of the Board of Revenue (Land Revenue), dated 10th November 1893, Mis. No. 6265.

Read—letter from the Collector of Madura, dated 11th May 1893, No. 141.

Reference thereon, dated 26th May 1893.

The Collector is requested to forward a complete plan of the building including the police station and the sub-jail wards and to indicate therein the changes proposed by the Sub-Collector.

Read—letter from the same officer, dated 31st October 1893, Ref. on Current No. 578-Rev. Gl.

Resolution—dated 10th November 1893, Mis. No. 6265.

Submitted to Government with the request that orders may be issued in the Public Works Department for the preparation of the necessary estimate.

2 The proposed window in the north wall of the treasury does not appear safe. It will be better to conduct the transactions through the south window which will open on a frequented verandah. If more light is required, another window may be added in the south wall. A door-way should be added leading from the police station to the south verandah to enable the police to guard the building by night. The new north wall should be extended up to the station and the space converted into a room for remanded property with a door leading into the police station. This will set free one of the cells of the police station. The clerks' room appears to require additional windows on the north and south.
