From A. A. G. Malet Esq. Executive
Engineer, Western Division to
the Superintending Engineer, Circle
of 16th November 1893, No 469 S. 91

I have the honor to bring to your
notice that by giving effect to G. O.
No 2720 W. d. 24th October 1893, a severe
hardship will be inflicted on many
clerks now in the Department.

I believe (though I have no figures
to go on) that if the subject is looked
into, it will be found that on an
average there is not one vacancy
in the 4th class, 2nd grade, Rs 30-40
in each calendar year or at least
that the average number of vacancies
is so few that the prospects of clerks
now in the Department below this grade
will be absolutely blocked.

Under G. O. No 1802 W. d. 10th July 1893
the promotion of clerks in the 4th
class 3rd grade - Rs 20-30 has been
checked and the G. O. referred to
above is a final blow to their prospects.

It has been ruled that from the
1st January 1894, appointments carry-
ing a salary of Rs 15/- and upwards
must be filled by either B. A., H. A.,
or Upper Secondary Candidates.

I do not know much about the
Upper Secondary Examination but
I have heard it is a failure and
if so, appointments of Rs 15/- will
have

which means
under the existing
regulation & the
provision has been
substituted for this
one.

Candidates for
B. A. & H. A.
can now substitute
the examination
with some
addition

have to be filled by B.A., or F.A.
Candidates if available. Under
these circumstances, G.O. No 2720A
of 24th October 1893 would seem to
conflict with this ruling.

As an example of the hardship
involved, I would cite the cases
of two clerks in my office viz:-

S. Sreenivasahar Pantulu. of 12 years
service in 20 to 30 grade.

A. Parthasaradhi Naidu of 10 1/2 years
service in - do -

Both these men have passed the
examinations required for promotion
and the latter has also passed the
Pee's writing, higher grade and
has acted in the 30 to 40 grade
for 3 years 2 months in your office.
Neither of these men should I
consider, be superseded.

As far as can be judged from
the G.O., the order does not apply
to any other Department so it would
seem to be somewhat invidious.

No 1990 H.S.
20-11-93.

The undersigned cannot
interfere in this matter as it must
be assumed Government considered
the question.

/s/ J. W. Martin,
Supg. Engineer
2nd Circle
No.

³¹⁹¹
I have only asked you to
represent to Government what is
to the best of my belief a real and
serious injury to clerks now in the
Department. It is of course open
to the clerks to petition but I thought
it would save you trouble, if I wrote
a letter on the subject instead of
informing the clerks that they could
send in petitions. The clerks con-
cerned naturally look to you
as the head of the Circle to do your
best to protect their prospects.

/s/ A. A. G. Inayat
En. Engineer, K. W. B.

No 2132 Rs
1-12-93

Forwanded to the Chief
Engineer, P. W. Department, for
favorable consideration with
the remark that out of 25 men
the sanctioned scale for clerks
4th class, 3rd grade for the Circle, -
22 men have now over 10 years
service in this class and grade.
From 1884 to date only three men
in this circle have been promoted
from 4th class, 3rd grade, to 4th class 2nd
grade, that is, that during the last
10 years there have been only 3 promo-
tions. From this it will be seen
that if one appointment must
be reserved for men who have
passed

passed the Entrance test for the
subordinate accounts branch,
and one for men who have -
passed either the H. A. or B. A.
examination the clerks now in
the service will most probably
get no further promotion. This
appears very hard taking their
services to date into consideration.
