GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

General.
Account.

Read—the following papers :—

From J. E. PAUL, Esq., Executive Engineer, Nellore Division, to the Superintending Engineer, II Circle, dated 10th November 1893, No. 335.

In continuation of this office No. 311 of 24th October 1893, I have the honour to forward herewith a statement showing the receipts and issues of rough stone and concrete during the three years 1890–91 to 1892–93, in which the loss of Rs. 1,412-8-0 occurred on "stone manufacture."

2. From the particulars given therein, it is manifest that, with the exception of 2,381 cubic feet of concrete used for "Collector's cutcherry" and "Gravelling Pennéru anicut roadway," the stock of rough stone and concrete have been specifically collected for the repairs of the Pennéru anicut and main head sluice.

3. Part of the stone manufactured during the three years, however, still remains on stock, but as this will eventually be utilized for the repairs of the Pennéru anicut, I would propose to adjust the loss against the estimate for the repairs of Pennéru anicut for 1893–94, agreeably to paragraph 1850 of Madras Code and paragraph 39, chapter XIII, volume II, India Code.

4. In connection with this adjustment I have gone through the question of continuance of "Land and kilns" and "Stock manufacture" and am of opinion that the two accounts may advantageously be closed under the rules of the Madras Code now in force.

5. The stone is exclusively manufactured for a specific work "Pennéru anicut" and the expenditure incurred during the current year may therefore be charged direct to the estimate for "Repairs of the Pennéru anicut for 1893–94" under paragraph 1790 of the Madras Public Works Code instead of being accounted for under suspense head "Stock manufacture and carriage," which is simply a multiplication of accounts work in this division.

6. Similarly, the balance of Rs. 3,757 remaining unadjusted under "Land and kilns" at end of October 1893 may be finally charged off to the estimate for "Repairs of Pennéru anicut" inasmuch as separate land and kilns account is not permissible where manufacture of material is carried on only for a specific work—see clause (i), paragraph 1791 A. of the Madras Public Works Code.

7. I trust that, under the circumstances, the proposals will meet with your approval, in which case I request that you will be good enough to obtain the necessary sanction of Government so that the adjustments may be effected in accounts as early as possible.

No. 506 N.L.

Forwarded to the Chief Engineer, Public Works Department, through the Examiner, Public Works Accounts, Madras, in continuation of this office endorsement No. 469 N.L., dated 4th November 1893, to the latter officer.

24th November 1893.

EXAMINED
27 NOV 1893

In continuation of this office No. 311 of 24th October 1893, I have the honor to forward herewith a statement showing the receipts and issues of rough stone and concrete during the three years 1890-91 to 1892-93, in which the loss of Rs 1,412-8-0 occurred on "stone manufacture".

2. From the particulars given therein, it is manifest that with the exception of 2,381 C.ft of Concrete used for "Collector's Cutchery" and "Gravelling Penner Anicut Roadway", the stock of rough stone and concrete have been specifically collected for the repairs of the Penner Anicut and Main Head Sluice.

3. Part of the stone manufactured during the 3 years however still remains on stock, but as this will eventually be utilized for the repairs of the Penner Anicut, I would propose to adjust the loss against the estimate for the repairs of Penner Anicut for 1893-94, agreeably to para 1850 of Madras Code and para 39 of Chapter XIII, Volume II, India Code.

4. In connection with this adjustment I have gone through the question of

Contin

Continuance of "Land & Kilns" and "Stock manufacture" and am of opinion that the two accounts may advantageously be closed under the rules of the Madras Code now in force.

5. The stone is exclusively manufactured for a specific work "Penner Anicut" and the expenditure incurred during the current year may, therefore, be charged direct to the Estimate for "Repairs of the Penner Anicut for 1893-94" under para 1790 of the Madras P.W. Code, instead of being accounted for under suspense head "Stock manufacture and Carriage" which is simply a multiplication of accounts work in this Division.

6. Similarly the balance of Rs 3757 remaining unadjusted under "Land and Kilns," at end of October 1893 may be finally charged off to the estimate for "Repairs of Penner Anicut", inasmuch as separate land and Kilns account is not permissible where manufacture of material is carried on only for a specific work – see clause 1 para 1791 A of the Madras P.W. Code.

7. I trust that, under the circumstances, the proposals will meet with your approval, in which case I request that you will be good enough to obtain the necessary Sanction of Government so that the adjustments may be effected in accounts as early as possible.
