READ—the following paper :—

From Colonel A. T. FRASER, R.E., Superintending Engineer, III Circle, to the Chief Engineer for Irrigation, dated Bellary, 11th November 1893, No. 2043.

With reference to your No. 11/III, dated 4th November, paragraph 5, intimating that a large grant will be provided next year for a revised Tokapalli scheme, I have the honour to mention that it is very desirable to afford rest-house shelter at Tokapalli and Markapur, as having none is a great impediment to even preliminary operations.

2. I would recommend for Tokapalli a couple of one-roomed sheds, costing about Rs. 350 each similar to the forest shed, Giddalore. One of these would always be wanted of the resident subordinate, and the other for the Executive or other engineers visiting the place.

3. At Markapur taluk head-quarters, the want of departmental shelter is much felt, as it is the centre of a whole group of works of considerable importance. Here, a building of a more substantial kind would be required, the estimate for which would amount to some Rs. 2,500.

4. I would request sanction to these propositions.

No. 59 E.W.

Forwarded to the Chief Engineer, Public Works Department, with a recommendation that sanction be accorded to these rest-houses under Provincial—Civil Buildings.

2. Means of carrying camp equipage about in the Markapur and Cumbum taluks is very limited, indeed, as the undersigned found on his late inspection of the Tokapalli reservoir scheme, and he would recommend the construction of these rest-houses for the convenience of officers and as an inducement for them to visit more frequently than they are otherwise likely to do these remote, isolated and hitherto neglected parts of the district.

3. The Markapur and Cumbum taluks have great resources in the way of water-supply in their streams which might be utilised for the improvement and amelioration of those arid and often famine-stricken tracts.

CHEPÁK, (Signed) R. R. E. DRAKE-BROCKMAN, Lt.-Col., R.E.,
16th Nov. 1893. Chief Engineer for Irrigation.

To the Chief Engineer, Public Works Department.

No. 312.

The sheds at Tokapalli need not be permanent structures. It is probable that their cost may be debited to the Tokapalli reservoir project when it is sanctioned. But the Markapur rest-house will be a permanent building and will always be in use.

(Signed) R. R. E. DRAKE-BROCKMAN, Lt.-Col., R.E.,
4th Dec. 1893. Chief Engineer for Irrigation.

ORDER—dated 14th December 1893, No. 3239 W., Public Works.

His Excellency the Governor in Council approves of the proposal to construct rest-houses at Tokapalli and Markapur at the cost of Provincial funds. The buildings at the former place need not be permanent structures, and it will be considered hereafter whether their cost should not be charged to the Tokapalli reservoir project.

To, THE *Chief Engineer*
for Irrigation
Madras

Sir,

Enclosures.

With reference to your No. *11-III* dated
4th November para 5 intimating that a large grant
will be provided next year for a Revised Lokapalli
Scheme I have the honor to mention that it is very desirable
to afford Rest House shelter at Lokapalli and Markapur,
as having none is a great impediment to even preliminary
operations.

2. I would recommend for Lokapalli a
couple of one roomed sheds costing about Rs. 350 each
similar to the Forest shed Giddalore. One of these would
always be wanted of the resident subordinate, and the
other for the Executive or other Engineers visiting the
place.

3. At Markapur, Taluk Head Quarters,
the want of Departmental shelter is much felt, as it
is the centre of a whole group of works of considerable
importance. Here a building of a more substantial
kind would be required, the estimate for which would
amount

amount to some Rs 2500.

4. I would request sanction to these propositions.

I have the honor to be

Sir

Your most obedient servant
