ORDER—dated 8th November 1893, No. 2500 L., Local and Municipal.

The reports of the several district boards for 1892–93 having been reviewed in the proceedings read above, the Government now proceeds to deal with them collectively.

2. They were received on an average 19 days behind time against 23 in the previous year. That from Chingleput was the only one which reached Government on the prescribed date, although the reports from Nilgiris and Tinnevelly followed it very closely. On the other hand those from Bellary and Malabar were 45 and 44 days late. Strict punctuality must be observed in future. The reports and the accompanying statements were prepared with greater care than on former occasions, but there was still much room for improvement. Those from Chingleput, Nilgiris and North Arcot were the best, those from Anantapur, Bellary, Cuddapah, Gódávari, Kistna, Kurnool and Nellore the worst.

I.—GENERAL.

3. During the year under review 50 additional unions were constituted in eleven districts, viz., North Arcot (1), South Arcot (3), Bellary (1), Coimbatore (2), Gódávari (3), Kistna (2), Kurnool (16), Salem (16), Tinnevelly (3), Trichinopoly (2), and Vizagapatam (1). With this exception, the system of local fund administration described in the general review for 1887–88 continued without change.

4. *District Boards.*—Appendix I shows the constitution of the 21 district boards on the 31st March 1893 and the average attendance of the members at the meetings held by them. There were 42 vacancies on that date against 46 in 1891–92, and in consequence of this the proportion of official members in Anantapur,

North Arcot, South Arcot, Bellary, Ganjám, Gódávari, Malabar, Nellore, Salem and Trichinopoly exceeded the maximum limit of one-fourth prescribed by the Act. These vacancies have, however, since been filled up. The number of nominated official members, including those who held their seats *ex-officio*, was 25·5 per cent. of the total strength against 25·7 in the previous year, and that of the elected members 42·6 against 42·3 per cent. Under the election rules in force half of the sanctioned number of members for each district board were elected by the taluk boards in all districts except Nilgiris and Kurnool. In Nilgiris there were no such taluk boards, while in Kurnool only 2 members out of the sanctioned strength of 40 were elected, as the privilege of election was not conferred on the taluk boards until after the expiration of a quarter of the year, and only 2 vacancies occurred among the non-official members during the remaining portion of it. On the 31st March 1893 the proportion of one-half was attained only on the district boards of South Canara, Chingleput, Coimbatore, Cuddapah and Tinnevelly.

The district boards held in the aggregate 236 meetings against 249 in 1891–92, but 7 others were adjourned for want of a quorum against 3. The number held by the Anantapur, Bellary, Chingleput, Cuddapah, Ganjám, Gódávari, Madura, Nellore and Nilgiri boards showed a falling off and in all these districts except Chingleput and Nellore, and also in South Arcot and Vizagapatam, was less than 12. The average strength being 31, the average attendance was 5 official and 10 non-official members against 4 and 11, respectively, in 1891–92. This, being less than half of the strength, must be considered below the mark. There was, however, a satisfactory increase in Cuddapah, Nellore, Bellary and North Arcot. Both classes of members in North Arcot, Bellary, Nellore, Nilgiris and Tinnevelly, and the non-officials in South Canara, Coimbatore, Cuddapah, Gódávari, Kistna, Madura, Malabar, Salem and Vizagapatam, attended fairly well, but the official members in Coimbatore, Cuddapah, Kistna, Madura, Malabar and Tanjore and the non-officials in Trichinopoly were very negligent, not 40 per cent. of the full strength being returned as present. The Government trusts that in the current year, there will be an improvement especially in the attendance of the official members.

5. *Taluk Boards.*—There were again 86 taluk boards and their constitution and attendance are shown in Appendix II. On the 31st March 1893 there were 49 vacancies on these boards, and 19 had less than the minimum number (12) prescribed by the Act; the vacancies have, however, been since filled up. The taluk boards held altogether 1,177 meetings against 1,126 in the previous year, but 44 others against 38 had to be adjourned for want of a quorum, the worst offenders in this respect being Rajahmundry (4), Mangalore (3), Proddatur (3), Chicacole (3), Wynaad (3) and Kumbakónam (3). All the taluk boards, excepting those of Pyápali, Madura, Wynaad, Kumbakónam, Trichinopoly and Musiri, met not less than once a month as required by section 28 of the Act. The irregularity in the cases named, Trichinopoly excepted, was due to the postponement of some meetings for want of a quorum. The attention of the boards concerned has been drawn to this matter in the individual reviews, and the Government trusts that the irregularity will not be repeated. Taking the taluk boards of each district collectively, Anantapur again headed the list with an average of 17 meetings, and North Arcot, Chingleput, Coimbatore and Cuddapah followed next with 15 each. In all but one of the remaining districts the average ranged from 14 to 12; in Trichinopoly it was only 11. The improvement in Cuddapah is noted with satisfaction. The average attendance of the members was 54·8 per cent. of the total strength against 53·6 in 1891–92. The attendance of the official members in South Arcot, South Canara, Coimbatore, Ganjám, Malabar and Tanjore and of the non-officials in North Arcot and Salem was good, being not less than 66 per cent. of the strength; but the officials in North Arcot, Kurnool, Nellore and Trichinopoly, and the non-officials in Chingleput and Kurnool, were very irregular. The worst cases have been noticed in the individual reviews, and the Collectors concerned have been directed to deal with them under section 24 of the Act.

6. *Union Panchayats.*—Appendix III shows the constitution of the 320 union panchayats at work on the 31st March 1893 and the number of meetings held by them. The members on the panchayats of Ichchhápuram (Ganjám), Mangalagiri (Kistna) and Vedasandur (Madura) numbered less than the minimum (5) fixed by the Act, owing to vacancies which were not immediately filled up; and the officials

exceeded the non-officials in the 20 panchayats named below; the necessary steps have since been taken in some instances for remedying this defect, while, in others, the presidents of the district boards concerned have been directed to submit proposals for securing a preponderance of the non-official element:—

Penukonda.	Jammalamadugu.	Nandikotkur.
Bukkapatnam.	Varanasi.	Sholavandan.
Dharmavaram.	Mandapeta.	Kandukur.
Hindupur.	Bhimavaram.	Krishnagiri.
Madakasira.	Avanigadda.	Kudavasal.
Kamalápuram.	Répalle.	Srivaikuntam.
Chennur.	Chagalmarri.	

The panchayats held in all 4,112 meetings against 3,609 in 1891–92, the individual average being 13 in both years, but 43 of them, excluding those newly constituted, failed to meet once a month as required by section 129 of the Act. The attention of the presidents of the taluk boards concerned has been separately drawn to this irregularity, and it is hoped that by adopting the suggestion made by Government in paragraph 6 of the general review for 1890–91 they will prevent it in future.

No information has been furnished regarding the working of the panchayats in Anantapur, Gódávari, Kurnool and Nellore. In South Arcot it was far from efficient; elsewhere it was on the whole good, Kamalápuram (Bellary), Cheyur and Tiruvottiyur (Chingleput), Ichchhápuram (Ganjám), and Krishnagiri, Kávéripatnam and Pennagaram (Salem) being, however, exceptions in this respect. The affairs of the Dharmavaram (Anantapur) union panchayat continued in a very unsatisfactory state, and the president of the district board has been directed to apply a remedy by appointing an energetic chairman. On the whole, the chairmen and members of the union panchayats showed a very fair amount of interest in carrying out the purposes of the Act; there has been little opposition, and there have been signs that the objects and usefulness of these institutions are beginning to be understood by the people. The ward system of supervision in unions, to which reference was made in the general reviews of previous years, was not adopted in Anantapur, South Arcot, Bellary, Ganjám, and Gódávari. In other districts it was partially in force and worked with moderate success. The private scavenging system was introduced into the Russellkonda (Ganjám) union and answered well. It was also adopted in the Kadiri (Cuddapah), Hosúr (Salem) and Rasipuram (Salem) unions, but in the latter cases no information has been given in regard to its operation.

7. *District, Taluk and Union Funds.*—Appendices IV, V and VI furnished by the Accountant-General show in detail the receipts and charges of the several local boards and union panchayats, while Appendix VII exhibits briefly their financial position. The total results are compared below with those of 1891–92:—

—	1891–92.				1892–93.			
	District funds.	Taluk funds.	Union funds.	Total.	District funds.	Taluk funds.	Union funds.	Total.

Allotments from taluk to union funds	..	—1,74,432	+1,74,432	..	..	—1,53,949	+1,53,949	..
Allotments from union to taluk funds	..	+ 294	— 294	..	..	+ 5,574	— 5,574	..
Total Assets ..	43,32,313	45,39,159	4,99,940	93,71,412	46,01,074	44,71,964	5,23,182	95,96,200
Total Expenditure ..	38,77,011	37,77,905	4,07,102	80,62,018	39,85,153	38,16,403	4,32,585	82,34,141
Closing Balance ..	4,55,302	7,61,254	92,838	13,09,394	6,15,921	6,55,561	90,577	13,62,059

Excluding debt heads (Rs. 2,24,336) and contributions from the local boards of one district to those of another (Rs. 4,176), the current receipts amounted to Rs. 80,58,294 against Rs. 70,91,737 in the previous twelvemonth, and the charges to Rs. 80,28,726 against Rs. 79,50,774. The year thus closed with a balance of Rs. 13,62,059 or 16·9 per cent. of the receipts. Of this sum, however, Rs. 4,44,080 appertained to endowed institutions in charge of the local boards and Rs. 75,560 to the Railway guarantee fund in Tanjore, leaving Rs. 8,42,419 or 10·5 per cent. of the receipts available for general purposes. Overdrafts on the Government treasury by the local boards in Chingleput and Ganjám were as usual adjusted by temporary contributions from provincial funds.

The principles upon which the receipts and charges were distributed among the local boards and union panchayats continued the same.

Appendix VIII shows the incidence of local fund taxation on each individual of the population in every district according to the census of 1891. The average for the presidency was As. 2–11 including tolls, and As. 2–7 excluding them, against As. 2–7 and As. 2–2, respectively, in 1891–92, the increase being due to the enhanced collections under land-cess. Including tolls the incidence was low in Malabar (As. 2), Coimbatore (As. 2–1), Trichinopoly (As. 2–2), and Madura (As. 2–3); it was heaviest in the Nilgiris (As. 8–11) owing to the peculiar circumstances of that district, whilst in the other districts, Gódávari, Bellary and Kistna excepted, it was below As. 4.

II.—RECEIPTS.

8. *Receipts.*—In Appendices IV and IX the total receipts of all the local boards including union panchayats under the several heads are compared with the figures of the previous year. The opening balance was Rs. 13,09,394 against Rs. 21,73,744. The decrease occurred in all districts, except Gódávari, Kurnool, Madura, Malabar and Tinnevelly, and was owing to the large expenditure incurred in 1891–92. The actual receipts amounted to Rs. 80,58,294, and the subjoined abstract compares the figures under the various heads for the two years:—

	1891–92.	1892–93.	Percentage of total receipts. 1891–92.	1892–93.
	Rs.	Rs.		
Rates and Taxes—				
Cess on land	43,14,300	49,13,712	60·83	60·93
Tolls including the municipal contribution	7,52,360	7,09,664	10·61	8·81
House-tax	2,08,822	2,39,491	2·95	2·97
Education—				
School-fees	1,66,362	1,78,433	2·35	2·15
Income from endowments	96	154	0·34	0·36
Other items	29,280	31,646		
Medical—				
Income from endowments	619	1,211	0·23	0·35
Other items	15,569	27,159		
Interest—				
On Government securities	67,592	54,474	0·97	0·82
On arrears of revenue	1,518	1,501		
Miscellaneous—				
Choultry rents	2,45,245	2,41,867	3·46	3·00
Market rents	1,27,329	1,27,149	1·79	1·58
Bungalow fees	14,655	14,466	0·21	0·18

Other items	77,333	1,07,320	1·09	1·33
Public Works	53,463	55,391	0·75	0·69
Contributions from Provincial funds	5,00,999	8,99,744	7·06	11·17
,, from Special funds		101		
Canal and Ferry fund	81,253		1·15	
Loans, &c.	1,06,242	72,711	1·50	0·90
Total	70,91,737	80,58,294	100·00	100·00

9. *Land-cess.*—As before, the cess on land was levied at the rate of 1 anna in the rupee in all districts except South Canara and Malabar, in which the rates were respectively 1 anna 6 pies and 2 annas. In Tanjore a fourth of the income was set apart for railway operations, which will, however, soon be brought to a close on the completion of the Máyavaram—Muttupet railway. According to Appendix X, the current demand was in excess of that of 1891–92 by Rs. 36,276, but there were variations amounting to more than Rs. 10,000 each in Anantapur, North Arcot, South Canara, Cuddapah, Gódávari, Kistna, Salem, Tanjore and Tinnevelly. The collections under this head amounted to Rs. 49,13,712, showing a rise of Rs. 5,99,412, and formed nine-tenths—an advance of 4 per cent.—of the total demand. They were excellent in Nellore, where almost the whole of the demand was realised, and in North Arcot (99 per cent.), good in South Canara (98 per cent.), Tanjore (98 per cent.) and Cuddapah (97 per cent.), and bad in Ganjám (79 per cent.). Owing to the remissions allowed on account of the unfavorable season, the collections in Madura declined from 96 to 88 per cent., and on the Nilgiris, in consequence of the failure of some pattadars to pay their dues within the year, there was a similar drop from 91 to 84 per cent.

10. *Tolls.*—Appendix XI shows the statistics of tolls. Three additional toll-gates were established in Kurnool (1), Salem (1) and Trichinopoly (1), while 7 gates were closed in Bellary (1), Chingleput (3), Coimbatore (1), Malabar (1) and Nilgiris (1). In Malabar the existing arrangements were allowed to continue without alteration. Thus there were 259 gates at the end of the year against 263 in 1891–92. Tolls were levied at the maximum rates at 91 gates, at half rates at 166 and at quarter rates at the remaining 2. The usual arrangements under which tolls on certain roads under the control of the Public Works Department or municipal councils were collected by the district boards remained unaltered. The total amount booked under this head amounted to Rs. 7,09,664 against Rs. 7,52,300 in the previous year. The decrease, which occurred under both local fund tolls and contributions from municipalities, was due in the former case to want of competition at the sales of the farms, to re-arrangement of the gates in some districts, and to substitution of ferries for 3 bridge tolls in Malabar, and in the latter to the fact that the receipts in 1891–92 included arrears. The whole of the demand under local fund tolls in North Arcot, South Canara, Coimbatore, Kistna, Salem, Tanjore, Tinnevelly and Vizagapatam was realised, and the collections in Bellary, Chingleput, Kurnool, Malabar, Nilgiris and Trichinopoly were also good, but those in South Arcot and Cuddapah were far from satisfactory. The necessary instructions have already been issued for collecting the outstandings without delay. Excluding the cost of such items as establishment and contributions to provincial and municipal funds, the net income from tolls was sufficient to meet 29 per cent. of the outlay on roads; in South Canara the proportion was more than 50 per cent.

11. *House-tax.*—This tax was levied in all unions except 35 in the districts noted in the margin. The collections again amounted to 86 per cent. of the demand—an indifferent result. Those in North Arcot, Chingleput, Cuddapah and Trichinopoly were good, the percentage exceeding 95. In the remaining districts, Anantapur, Ganjám, Gódávari and Kurnool excepted, they were fair. The short collection by the bodies mentioned was due to the opposition offered by the people to the levy of the tax in some of the newly-formed unions, to the lack of interest displayed by the chairmen and members of the panchayats of other unions, and to the defective supervision exercised by the presidents of the taluk boards concerned. In Salem the decline from 91 to 85 per cent. was consequent on the late date at which some of the unions commenced to work; of the fall in Tinnevelly from 92 to 86 per cent., no adequate explanation has been furnished. The Government desires that the presidents of the taluk boards will exercise a closer and

Vizagapatam	1
Total	35

a more effective supervision over the work of the panchayats in this direction. Appendix XIII shows the incidence and other particulars connected with the collection of this tax. The results of the census of 1891 so far as they relate to the unions are not yet available, but according to that of 1881 the total number of houses in them was 462,505;* and as the number of houses actually assessed was 482,979,† due care appears to have been taken in general to prevent evasion of the tax. The chief exceptions are noted in the margin, and in these more than 25 per cent. of the houses were not taxed. Some of the hamlets included in the Véttagáranpudúr union were exempted as they were mostly inhabited by hill tribes. In the unions in Gódávari a large number of houses belonging to the poor and the houses in some suburbs of the main villages said to be situated outside the union limits were also made free of this demand. As under G.O., dated 4th July 1887, No. 1274 L., only entire revenue villages can be included in unions, the president of the district board has been requested to explain the matter. Exemptions from the tax were allowed in Dharmapuri under sections 78 and 86 of the Act, and in Manachanallur, in the case of the houses valued at less than Rs. 50, under section 63. In the remaining instances no explanation has been furnished and the matter therefore demands the attention of the presidents of the taluk boards concerned. The average incidence on houses taxed was As. 8-5 against As. 8-9 in 1891-92, and ranged between Rs. 2-15-1 in Kodaikánal (Madura) and As. 1-7 in Dachepalle (Kistna). It is satisfactory to observe that it was not found necessary to adopt coercive measures to any large extent and that property was sold for the recovery of the tax in only 298 cases against 344 in the previous year.

12. *Educational.*—The receipts under this head amounted to Rs. 2,05,233 against Rs. 1,88,738 in 1891-92, the increase occurring chiefly under school-fees and contributions from private individuals. School-fees brought in Rs. 1,73,493 against Rs. 1,66,362; this was due to an increase in the number of schools under the control of the local boards. The sum of Rs. 154 shown under the head "Income from endowments" represents, as usual, the rent derived from the lands attached to the Ponnur school in Kistna, the receipts of the Moyan endowment of the female normal school at Tellicherry, and the endowment of the Tachanallur school in Tinnevelly. The increase under "Contributions from private individuals" was mainly consequent on the credit in Kistna of Rs. 11,279, on account of the sale-proceeds of the Government promissory notes appertaining to the museum and technical institute at Bezwada.

13. *Medical.*—The income under this head was Rs. 28,370 against Rs. 16,188 in 1891-92. The sum of Rs. 1,211 shown under "Income from endowments" was made up of the rent of lands attached to the dispensaries at Vriddhachalam (South Arcot), Saidapet (Chingleput), Tiruvádánai (Madura), Ponnáni (Malabar) and Rayacottah (Salem). It is satisfactory to observe that a sum of Rs. 12,957 was contributed by private individuals on account of medical institutions against Rs. 7,158 in the previous year.

14. *Interest.*—The investments made by the local boards on account of the endowed institutions in their charge including the Railway guarantee fund in Tanjore amounted to Rs. 15,78,237 against Rs. 16,15,776 in 1891-92 and the interest derived from them was Rs. 64,124 against Rs. 67,242 as shown in Appendix XIV.

* Excludes the number in two unions in Cuddapah, } for which information is not available.
† Excludes the number in one union in Cuddapah, }

4/3543

15. *Miscellaneous.*—The revenue of the choultries, markets, and bungalows, as shown in Appendix IX, rose to Rs. 8,67,992 from Rs. 8,00,357; the chief variations under the several items being those noticed below:—

(*a*) *Choultry Rents.*—The amount shown under these receipts was less than in the previous year by Rs. 3,378, the decrease occurring chiefly in Madura (Rs. 2,786) and Tinnevelly (Rs. 2,618). In the former case a large quantity of paddy belonging to the Narikudi chattram was left unsold and a certain contractor was a defaulter; in the latter, the unfavorable season in the Nángunéri taluk affected the lands of the chattram at Tirukurangudi. On the other hand there was an increase of Rs. 2,190 in Vizagapatam, owing to the inclusion of the rents of the lands attached to the Bimlipatam langarkhana, the management of which was taken over by the Vizianagram taluk board.

(*b*) *Market Rents.*—The total number of markets under the control of the local boards was 499 against 460 in 1891-92. The receipts under this head were almost the same as in the previous year, though there was an increase * in the number of markets in which fees were levied. The condition of these institutions was on the whole good and the people are said to have resorted freely to them. The closing balance of Rs. 1,99,808 to their credit was still large and the local boards concerned have either promised or have been directed by Government to take early steps for utilising the greater portion of it on the improvement of the markets for the benefit of the classes using them.

* 1891-92	.. .. ..	405
1892-93	.. .. ..	436

(*c*) *Bungalow Fees.*—There were 379 bungalows under the control of the local boards against 292 in 1891-92, and they are reported to have been on the whole in a fair condition.

(*d*) *Ferry Rents.*—The income derived from this source was Rs. 1,78,421 against Rs. 1,57,611 in 1891-92; the increase occurred principally in Malabar and was due to the establishment of additional ferries.

(*e*) *Fishery Rents.*—The receipts under this head exceeded those of the previous year by Rs. 4,499, the principal variations occurring in the districts of North Arcot (+ Rs. 4,530), Salem (+ Rs. 2,121), Tanjore (+Rs. 1,996), Ganjám (+ Rs. 1,543), Bellary (—Rs. 1,392) and Madura (—Rs. 4,962). The increase in North Arcot is attributed to the more ample supply of water received by the tanks, and the same explanation may be given of that in Salem, in which the receipts for 1891-92 had fallen in consequence of the prevailing drought. The rise in Ganjám was due to prompt collection, but that in Tanjore has not been explained. The decrease in Madura is accounted for partly by the insufficiency of water in the tanks and partly by the postponement of demand on account of the failure of the monsoon, and that in Bellary to want of competition.

Of the total income under this head, the Revenue Department collected Rupees 99,261 and the Public Works Department Rs. 584.

(*f*) *Avenues.*—The statistics of avenues in the several districts are shown in Appendix XV. Out of 26,040 miles of road in charge of the local boards, 16,327 were provided with avenues; the corresponding mileages in the previous year were 25,633 and 16,078. The gradual increase in the length of road provided with avenues is noted with satisfaction, but the number of trees in most of the districts is still very insufficient. The subject is commended to the special attention of the local boards concerned. The receipts under this head exceeded the expenditure incurred on plantation and maintenance by Rs. 10,931. The condition of the existing trees was, on the whole, good.

16. *Contributions from Provincial Funds.*—A sum of Rs. 8,99,744 against Rupees 5,00,999 in the previous year was contributed from provincial funds for the following purposes:—

	1891-92.	1892-93.
	Rs.	Rs.
(1) Public works	1,27,629	97,588
(2) Schools	1,13,562	1,14,808
(3) Hospitals and dispensaries	5,086	5,106
(4) Choultries	34,553	34,205
(5) General purposes	17,664	17,460
(6) Refunds	1,065	38,185
(7) Famine relief works	*74,404	5,84,382
(8) Temporary loans to cover deficits	1,27,036	7,510
Total ..	5,00,999	8,99,744

The grants under the first 5 heads did not vary much from those of 1891–92. The increase under refunds was mainly owing to an overcredit of Rs. 36,118 to provincial funds in 1891–92 on account of the loan due by the Ganjám district board. Special grants amounting to Rs. 5,84,882 were paid to the district boards of North Arcot (Rs. 48,000), Bellary (Rs. 1,60,000), Coimbatore (Rs. 14,000), Cuddapah (Rs. 47,000), Kurnool (Rs. 1,53,882 including Rs. 88,925 for 1891–92), Nellore (Rs. 1,44,000) and Salem (Rs. 18,000) with a view to place the funds at their disposal in a solvent condition, after meeting all the famine demands. The last item has already been explained in paragraph 7 *supra*.

17. *Contributions from Special Funds.*—The sum of Rs. 101 booked under this head represented the proportionate cost of the travelling allowance of the local audit clerks, payable from special funds but erroneously debited to local funds in the first instance.

18. *Contributions from Municipalities*, amounting to Rs. 19,374, were received for the following purposes against Rs. 7,152 in 1891–92 :—

	1891-92.	1892-93.
	Rs.	Rs.
Education	3,626	2,205
Medical	2,988	3,888
Public works	490	12,759
Miscellaneous	238	522
Total ..	7,152	19,374

The increase under public works which occurred in Kistna was merely nominal, as the district board engineer undertook the construction of the Arundel chattram at Bezwada as a local fund work, the funds being supplied by the local municipality.

III.—EXPENDITURE.

19. Excluding debt heads (Rs. 2,01,239) and contributions from the local boards of one district to those of another (Rs. 4,176), the total expenditure amounted to Rs. 80,28,726 against Rs. 79,50,774 in 1891–92. There was an increase of a little over 3 lakhs under Grants I and IV, which was nearly set off by a decrease of 2½ lakhs under investment in Government securities. The total charges under the several heads are compared with the figures of the previous year in Appendices V and XVI, while the outlay under the main divisions and the percentage of the expenditure under each grant are shown in the subjoined abstract :—

* Transferred from (8) under the orders of Government issued after the accounts of the year were closed.

Total Expenditure ..	79,50,774	80,28,726	100	100

GRANT I.—PUBLIC WORKS.

20. The details of the expenditure on public works, and the cost of the supervising establishments including contingencies and tools and plant, are shown in Appendix XVII. The total outlay on public works amounted to Rs. 38,53,827 against Rs. 37,05,718 in 1891–92, the increase being again due chiefly to the execution of famine relief works. The expenditure was equivalent to 53 per cent. of the receipts and 48 per cent. of the total charges and was incurred by the several agencies as shown below :—

	1891-92.	1892-93.
	Rs.	Rs.
By the engineering establishments employed by the local boards	34,29,099	35,10,555
By the Revenue department	1,63,660	1,98,066
By the Public Works department	1,12,959	1,45,206
Total ..	37,05,718	38,53,827

A sum of Rs. 34,07,224 or 110 per cent. of the allotment was spent on communications, against Rs. 32,51,768 or 97 per cent. in the previous year. The amount disbursed by the local fund engineering establishments and by the Revenue department was Rs. 32,69,631 and that by the Public Works department Rs. 1,37,593. The construction of the Wenlock causeway across the Palar between Ranipet and Arcot and of 3 roads undertaken for famine relief purposes in North Arcot, the widening and gravelling of the Gódávari left embankment in the first mile below the anicut, the

construction of an iron girder bridge on the Kaudavalle road in Godávari, the construction of a bridge over the Ryves' canal in Kistna and of the Talavasal bridge in Salem, and the construction and maintenance of roads running upon tank, canal and channel banks in South Arcot, Cuddapah, Ganjám, Gódávari, Kistna, Nellore, Tanjore, Trichinopoly and Tinnevelly, may be mentioned as the principal works in charge of the Public Works Department. The expenditure incurred on the construction and repair of buildings, such as school-houses, hospitals, dispensaries, bungalows and choultries, amounted to Rs. 1,92,741 against Rs. 2,10,328 in 1891–92. The outlay on miscellaneous public improvements, such as avenues, markets, tanks and wells, was Rs. 2,53,862 against Rs. 2,43,622. The percentage of expenditure on works executed by the local fund engineering staff on the sanctioned allotment was 101 against 92, the increase being mainly due to the execution of famine relief works in Nellore, Kurnool, Bellary and Cuddapah, and to the construction of the Berhampur-Govindapur road in Ganjám, for which there was no provision in the budgets. The percentage was very high in Chingleput (99), Coimbatore (98) and Nilgiris (98), and low in South Canara (73), Malabar (79), Gódávari (82) and Tinnevelly (86); in all of these districts there was a falling off as compared with the previous year. The explanation of the short outlay offered in South Canara has not been accepted as satisfactory, and the President of the district board has been directed to see that the estimates are brought forward for sanction in time to allow of the execution of works within the twelvemonth. The short outlay in Gódávari was due chiefly to the lapse of the provision for ferry works and to the heavy rains in the latter half of 1892–93; on the other hand, there was an increase in the expenditure, which amounted to Rs. 3,19,149 against Rs. 2,63,351, in the same district. In Malabar, the lapse is ascribed to delay on the part of the Public Works Department in sanctioning estimates. In Tinnevelly, it was mainly due to want of water, in consequence of which the metal could not be spread on the roads. The improvement in the rates of expenditure in Anantapur, South Arcot and Trichinopoly is noted with satisfaction.

21. *Roads.*—Appendix XVIII shows the statistics of roads in each district. Certain portions of the main lines in Malabar and Nilgiris which continued to remain in charge of the Public Works Department are excluded.

The following abstract compares the figures of 1892–93 with those of the previous year :—

—	Mileage of roads under Local Boards at the beginning of the year.	Mileage of roads maintained.	Cost of maintenance.	Mileage of new roads completed during the year.	Cost of new roads completed.	Mileage of roads under construction.	Cost of roads under construction.
1891–92.			Rs.		Rs.		Rs.
Village	6,731	2,468	1,51,412	77	53,342	65	3,637
Taluk	10,210	9,060	8,06,953	56	1,06,528	135	963
District	9,465	8,766	13,35,547	94	1,21,856	118	14,162
Total ..	25,406	20,294	22,93,912	227	2,81,726	318	18,762
1892–93.							
Village	* 5,585	2,324	1,57,315	70	43,369	30	1,795
Taluk	* 10,833	9,477	8,33,845	91	96,621	104	1,057
District	* 9,406	8,771	12,60,278	55	1,63,835	116	35,016
Total ..	25,824	20,572	22,61,438	216	3,03,825	249	37,867

* Variations between these figures and those of 1891–92 due to revised classification and to the adoption of more accurate figures than those reported for that year.

There was an increase of 278 in the total mileage of roads actually maintained by the local boards and panchayats, which was the net result of an increase of 469 in 16 districts and a decrease of 191 in 5 others. The increase was largest in Kurnool (79), Nellore (105) and Tanjore (111). In the first two cases it was probably due to the addition of the roads repaired with a view to find work for the people on account

of the scarcity, and in Tanjore to the inclusion for the first time of the mileage of roads running upon the banks of rivers and channels in charge of the Public Works department. The decrease was large in Salem (96) and Cuddapah (71), but in regard to this no explanation has been furnished.

The expenditure on new roads, those in progress but not yet completed being included, was again very considerable in Kistna, where it was more than one-third of the collective outlay in all districts. Elsewhere it was less than Rs. 10,000, except in Ganjám, Gódávari, Kurnool, Salem and Vizagapatam, where it varied between Rs. 20,000 and Rs. 40,000.

It is to be regretted that the expenditure on village roads amounted to only Rs. 2,02,478 or 7·7 per cent. of the total outlay on communications, against Rupees 2,08,391 or 8 per cent. in 1891–92. The proportion was good in Kurnool (17·1 per cent.), Tanjore (15·2) and Coimbatore (13·4), though in the case of the districts first and last named there was a decrease. On the other hand, it was very low in Ganjám, Cuddapah, Chingleput and Vizagapatam, being less than 3 per cent. in each case. The attention of the local boards concerned has been drawn to this point. The average cost of maintaining each mile of road was Rs. 110 against Rs. 113 in 1891–92. It was very high in Kurnool (Rs. 236), Kistna (Rs. 169), Vizagapatam (Rs. 162), Ganjám (Rs. 153), Nellore (Rs. 145), Gódávari (Rs. 141), Chingleput (Rs. 132) and Madura (Rs. 132), and remarkably low in Anantapur (Rs. 61), South Canara (Rs. 61) and Salem (Rs. 67). Compared with the previous year, the rate rose in 8 and declined in 12 districts.

The condition of the communications in South Canara, Coimbatore, Kistna, Malabar, Nellore, Tanjore and Tinnevelly is reported to have been, on the whole, fair. This may also be said of those in Bellary and Trichinopoly, though in the former case there were some complaints. In Cuddapah they were maintained in good order as far as funds permitted. In South Arcot and Vizagapatam, there was considerable improvement. In Anantapur, the condition of the roads in the talúks of Gooty, Tadpatri, Hindupur and Madakasíra was below the average. In North Arcot, it was excellent except in the case of a single road—that from Kuppamu to Kangundi; in Ganjám, it was fair in the south and bad in the north. In Chingleput, it was far from good owing to the scanty rainfall. Much damage was done by severe storms to some of the roads in Gódávari and on the Nilgiris. In Kurnool, the state of the communications was bad in spite of the large amount spent on their maintenance, but it is stated that there is now a large stock of materials which can for some years to come be used in their repair. There was little improvement and some deterioration in Madura, while in Salem the general condition of all the roads, those in the Uttankarai taluk excepted, was again unsatisfactory. No information has been furnished regarding the working of the new system of road management by contracts for maintenance, adopted by the local boards of Cuddapah in previous years. In Malabar, where it was extended throughout the district, fair success was achieved. The experiment in Gódávari failed, while in Ganjám no fresh attempts were made as the trial given to it in 1891–92 had proved unsuccessful. It was not introduced in Nellore owing to the unsettled state of the season in the spring. In South Arcot and Madura, it was tentatively adopted to a limited extent. In Chingleput, a similar system of road repairs which had been introduced in the previous year was in operation, but further experience is necessary before a verdict can be given. In Bellary, the President of the district board has started a system under which contracts for short lengths of road are given to village contractors, and the result of the experiment will be watched with interest.

22. *Establishments, &c.*—As in former years, each district board maintained an engineering establishment for the execution of public works, the cost of which was generally met from the district and taluk funds in proportion to the relative outlay. A few special works, such as the construction of important bridges and the construction and maintenance of roads running upon tank, canal and channel banks, were entrusted to the Public Works Department. The local fund engineering staff worked as usual directly under the district boards, and their total cost amounted to Rs. 5,89,804 or 17 per cent. of the outlay on works executed by them, against Rs. 5,60,003 or

16 per cent. in the previous year, the maximum limit prescribed by Government being 20 per cent. and the rate payable to the Public Works Department for executing local fund works 23. In Anantapur, South Canara, Cuddapah, Malabar and Nilgiris the cost exceeded the maximum limit by 3, 2, 5, 2 and 2 per cent. respectively. On the Nilgiris, the excess is allowed by Government in view of the peculiar circumstances of the district. In the other districts it was mainly owing to the short outlay on works. On the other hand, the cost of the establishment was low in Bellary (10 per cent.), Kurnool (12) and Nellore (13), in consequence of the large outlay incurrred on famine relief works, as well as in South Arcot (14), Gódávari (15) and Kistna (15). Compared with the previous year, the percentage of expenditure under this head showed a rise in 12 and a decline in 8 districts, while in the remaining one it remained unchanged. The increase was large in Coimbatore (7 per cent.), North Arcot (6 per cent.), Cuddapah (5 per cent.), Salem (4 per cent.) and Vizagapatam (4 per cent.). Short outlay on works in the first three districts and additional establishments employed in the last two were the causes. For the reasons already assigned, the decrease was large in Bellary, Kurnool and Nellore.

A sum of Rs. 13,077 was paid to the Public Works Department as a contribution for the execution of the local fund works in their charge in the districts of North Arcot, Gódávari, Kistna, Nellore, Salem and Tinnevelly. The *minus* entries of Rs. 87 and Re. 1 under this head against South Arcot and Cuddapah in Appendix XVII were due to re-adjustments. A sum of Rs. 18,314 was also paid to the same department for the scrutiny of plans and estimates for local fund works of importance, at the rate of $2\frac{1}{2}$ per cent. on the estimated value.

The cost of toll and ferry establishments amounted to Rs. 10,938 against Rs. 10,794 in 1891–92.

The outlay on tools and plant by the local fund engineering staff came to Rs. 28,748 or 0·8 per cent. of the expenditure on works, against Rs. 39,206 or 1·1 per cent. in the previous year, the maximum limit fixed by Government being 1 per cent. for all districts except the Nilgiris. This limit was exceeded in Gódávari (1·9 per cent.), South Canara (1·8 per cent.), Trichinopoly (1·4 per cent.) and Bellary (1·1 per cent). The excess in Gódávari was due to the construction of a steam-boat for the use of the Local Fund Engineer and the purchase of certain machines; that in South Canara to the substitution, as an experimental measure, of a more costly kind of tools; that in Trichinopoly to the construction of water-carts; and that in Bellary to the inclusion of the charges for the carriage of tools required for relief works.

23. *Contributions.*—The total amount contributed to Provincial, Municipal and other funds was Rs. 2,88,699 against Rs. 2,37,236 in the previous year. There were considerable variations under this head in Tanjore (+ Rs. 70,677), South Arcot (— Rs. 22,781) and Gódávari (+ Rs. 10,750). In the first-mentioned district a sum of Rs. 2,13,311, being a moiety of the expenditure incurred on the construction of the Mayávaram-Mutupet Railway in 1891–92, was credited to Provincial revenues against Rs. 1,43,059 in that year, and in Gódávari a contribution of Rs. 8,750 was paid to Government towards the cost of raising the bank of the Gódávari from Vijeswaram to Polavaram.

GRANT II.—EDUCATION.

24. The lines on which the educational operations of local boards were conducted remained unchanged at the end of the year under review. There were 3,089 board schools with 127,084 pupils, the corresponding figures in the previous twelvemonth having been 2,786 and 114,780. There were a few girls' schools, and in others children of both sexes were taught. The total number of girls educated by local boards was 17,241 against 15,786 in 1891–92. The outlay, excluding the expenditure on school buildings (Rs 42,130) shown under Grant I, amounted to Rupees 10,45,970, representing a decrease of Rs. 10,222, chiefly under training schools the cost and management of which were transferred to the department of Public Instruction. This was counterbalanced by increases under board schools and result grants. The receipts and charges connected with the institutions maintained and aided

1/3343

from local funds, as entered in Appendices XIX, XX and XXI, do not, however, include receipts from the sale of books and contributions from municipalities or charges on account of the purchase of books and other miscellaneous items.

25. *Inspection.*—The inspecting and supervising agencies continued unaltered. 181 inspecting schoolmasters were employed by the district boards or 7 more than in 1891–92, and they visited 20,621* villages and prepared 21,834* schools for examination, the corresponding figures for the year last mentioned having been 20,744 and 18,675. Their work was fairly efficient. The cost to local funds amounted to Rs. 83,355 against Rs. 81,643.

26. *Training Schools.*—The district boards of Madura, Tinnevelly and Malabar alone continued to maintain training schools, but in the last district there were also three preparatory Mappilla schools. On the 31st March 1893, the training department of the technico-normal school at Madura was attended by fewer pupils (53 against 66) than in 1891–92. Nor can its working be regarded as satisfactory. Out of the 17 students of the lower secondary grade sent up from it for examination in school management, only 11 were successful, and only 5 of the primary grade students passed out of 8 who appeared for the same test. In the Melaviraragavapuram institution in Tinnevelly, 41 pupils were trained against 52 in 1891–92. None of these appeared for examination within the year under review. The Moyan training school at Tellicherry was handed over to the Educational department from September 1892. The working of it had been, however, satisfactory, 3 candidates out of 6 for the lower secondary examination, and all (5) who were presented for the primary school examination, having passed. The 3 preparatory Mappilla schools contained on the 31st March 1893, 37 pupils or 4 more than before, and the results achieved at the primary school examination by two of these schools were fair, while in the case of the third they were excellent, none of 12 candidates from it failing to qualify.

27. *Sessional Schools.*—There were 63 schools of this kind in the districts noted below against 42 in 1891–92, and they were attended by 780 students against 524.

	1891–92.	1892–93.

Vizagapatam		
Total	42	63

Excluding 10 schools in the districts of Chingleput, Salem, Nellore and Gódávari, which did not send up students for examination within the twelvemonth, 2 in Kurnool the progress of which has not been reported, and 1 in Tinnevelly information

* The statistics of 1892–93 not having been completely furnished in the case of Coimbatore, Cuddapah, Kistna, Kurnool and Tanjore, the figures of the previous year have been adopted for these districts.

as to which is also lacking, the results were fair upon the whole. It appears that only 9,566* teachers out of 24,426* employed in all the schools of the several districts of the Presidency were in any way of proved qualifications. It is hoped that by the establishment of additional schools of this description and by the improvement which may be effected in the training schools, all but two of which are now under the control of the Educational department, this defect will ere long be remedied.

Number holding Normal certificates ..	4,048
" " Ordinary " ..	525
" " General education certificates ..	4,993
Total ..	9,566

28. *Technical Schools.*—The industrial school at Masulipatam made good progress, and the industrial and agricultural departments attached to the training school at Madura did fairly well. The carpentry class attached to the training school at Rajahmundry proved a failure and has since been closed.

29. *Secondary Schools.*—There were 122 secondary schools attended by 7,054 pupils against 114 with 5,881 pupils in 1891–92. Sixteen additional schools were started—in the districts of North Arcot (3), Coimbatore (1), Ganjám (1), Gódávari (3), Kistna (1), Kurnool (3) and Vizagapatam (4); and, on the other hand, 8 were closed—in North Arcot (1), Gódávari (2), Nellore (1), Tanjore (1) and Vizagapatam (3). Twelve of these were high, and the others middle, schools. Out of 83 students who appeared for the matriculation examination, only 15 passed, the corresponding figures for the previous year being 137 and 72. The high schools at Coondapoor, Chittoor and Tiruvállúr did fairly well; the unsatisfactory results obtained by the others were apparently due to a change in the system introduced by the University. The high schools sent up also 187 students for the lower secondary examination, of whom 100 passed, the results achieved by the Namakkal, Coondapoor, Chittoor and Harpanahalli high schools being particularly good. From the middle schools 408 students appeared for the lower secondary examination, and 268 or 66 per cent. passed, against 431, 284, and 66 per cent., respectively, in the previous year. The Dharmapuri, Villupuram, Hosúr, Porto Novo, Tirukkóyilúr, Ellamanchili and Kuppam schools met with hardly any success. All the upper secondary schools and departments again maintained on the salary system, and the average net cost of the pupils in them was reduced from Rs. 22–1–5 to Rs. 19–3–9. The local boards of South Canara and Coimbatore worked their schools at a profit of Rs. 50 and Rs. 300, respectively, and the cost (As. 12–10) for each pupil was low in North Arcot. On the other hand, it was excessive in South Arcot (Rs. 95–2–11), but there the school has since been reduced to the lower secondary grade. The net cost of the lower secondary institutions and departments on the salary system was Rs. 10–0–7 for each pupil, against Rs. 9–7–5 in the previous year. It was satisfactorily low in Coimbatore (As. 8–6) and Ganjam (As. 13–8), and very high in Nellore (Rs. 23–4–6), Kurnool (Rupees 22–14–7), Anantapur (Rs. 20–9–5) and Cuddapah (Rs. 20–1–5), while the local boards of South Canara and Tanjore secured profits of Rs. 128 and Rs. 353. The net average expenditure on pupils in the lower secondary schools and departments maintained on the salary-results system declined from Rs. 10–3–10 to Rs. 5–13–0 —a satisfactory result. In South Canara, there was again a profit of Rs. 515. The cost was low in Vizagapatam (Rs 3–12–0), and very high in Salem (Rs. 20–3–5), Gódávari (Rs. 17–10–8) and Ganjam (Rs. 15–10–8). The local boards of Anantapur, Cuddapah, Ganjám, Gódávari, Kurnool, Nellore and Salem should take immediate steps to reduce the cost of the institutions under their management.

30. *Primary Schools.*—The number of board primary schools rose from 2,672 attended by 108,899 pupils at the end of the previous year, to 2,907 with 120,030 pupils on the 31st March 1893. The increase, which occurred in all districts, was considerable in Gódávari (65), Kistna (34), Nellore (24), South Arcot (23) and Vizagapatam (22). Dealing with the upper and lower primary departments of these schools separately, the Government observes that the net cost of educating each pupil in the former was either nothing, or extremely little, in the districts of South Canara, Malabar, Tinnevelly and Coimbatore, while in Madura, Kurnool, Bellary and Nellore,

* The figures for 1891–92 have been adopted in the case of Bellary as no information has been furnished for 1892–93.

8/5343

where it was more than Rs. 10 a pupil, it was very high. The same remark applies in regard to the lower primary departments and classes in Gódávari and Vizagapatam. Measures for reducing the excessive cost in these cases should be promptly taken. The pupils who appeared from these schools and from the primary departments of the secondary institutions numbered 76,153. Of these, 57,283 or 75 per cent. passed, the corresponding figures of the previous year being 51,026, 39,337 and 77 per cent. These schools may, therefore, be regarded as having made satisfactory progress.

31. *Aided Schools.*—8,558 institutions, attended on the 31st March 1893 by 218,254 pupils, were aided by local funds, against 8,242 and 219,567, respectively, in 1891–92. The increase in the number, in spite of the fact that many were taken over by the boards concerned under their direct control, is gratifying. The outlay was again above the sanctioned provision by 3·8 per cent. In Anantapur, North Arcot, Bellary, South Canara, Coimbatore, Cuddapah, Ganjám, Kurnool, Malabar, Salem and Tanjore, the allotments were exceeded in consequence of the payment of arrears and of the larger grants that had been earned. On the Nilgiris and in Chingleput, grant and expenditure closely agreed with one another. The only districts in which the lapses were considerable were Gódávari and Nellore. The short outlay in the former was chiefly attributable to preventable causes such as the late publication of the lists of aided schools and the consequent delay in the issue of certifying memoranda by the educational officers, and in Nellore partly to the absence of applications for building grants and partly to the late date at which, in some instances, the examinations were held.

32. *General Educational Results.*—The total net expenditure incurred by the local boards on educational operations fell short of that of the previous year by about twenty thousand rupees, and the percentage which it bore to the current receipts declined from 11·3 to 10·0. The decrease appears to be mainly due to the incompleteness of measures taken for utilising the saving to local funds caused by the transfer of training schools to the Educational department. As the outlay in Anantapur, South Canara, Chingleput, Coimbatore, Kistna, Tanjore, Tinnevelly and Trichinopoly was still below the general average, the allotments in these districts should be increased as funds become available. The total number of pupils under instruction in the schools maintained and aided from local funds was 345,338 or 14·3 per cent. of the male population of school-going age, the corresponding figures of the year before having been 334,347 and 13·8 per cent. The advance was general except in Bellary, Chingleput, Madura, Tinnevelly and Vizagapatam. The attention of the local boards of the districts just named has already been drawn to the matter in the individual reviews. The proportion was again creditable in Ganjám and Tinnevelly, where it was more than 20 per cent., and in Malabar, where it was 19·9 per cent. In Anantapur, Coimbatore, Cuddapah, Kurnool, Madura, Salem, Trichinopoly and Vizagapatam, it was below 12 per cent. Elsewhere it was fair. In the districts last named, as indeed in all, the unremitting attention of the local boards concerned should be given to the development of education.

GRANT III.—MEDICAL SERVICES, SANITATION, &c.

33. *Hospitals and Dispensaries.*—There were 114 hospitals and 232 dispensaries maintained by the local boards, against 108 and 223, respectively, in the previous year. In Coimbatore, Cuddapah, Ganjám, Gódávari, Malabar, Tinnevelly, Trichinopoly and Vizagapatam, where the proportion was less than 1 to 100,000 persons, the number of these institutions was still inadequate. In Tinnevelly, however, 8 dispensaries managed by missionary bodies and by a medical practitioner were aided from local funds. Owing to the difficulty in procuring the services of medical subordinates, the proposal to open new dispensaries at Garabanda (Ganjám) and Triprayur (Malabar) was not carried out, and the establishment of one at Rambha (Ganjám) was postponed for want of funds. Early steps should be taken to increase the number of these institutions, and the conversion of some of the existing dispensaries into hospitals is also a matter calling for attention.

Appendix XXIII.

The total number of patients treated in these institutions rose from 1,800,739 to 2,025,968, as shown in the margin. This steady increase is eminently satisfactory and testifies to energy and care on the part of the medical officers and subordinates concerned, and to a growing desire on the part of the poorer classes of natives to have resort to European drugs and treatment. The total number treated was, of course, still very small, being equivalent to a percentage of only 6·3 on the total population. Compared with the previous year, there was an improvement in all districts except Malabar and Nilgiris. On the Nilgiris the numbers fell from 12·8 to 12·1 per cent., and in Malabar from 3·5 to 3·3, while the rise in Tanjore was small. In Coimbatore, Ganjám, Gódávari, Nellore, they were below 5, and in the remaining districts they varied from 9 to 5 per cent. The number of beds available was 1,409 or on an average 12·4 to a hospital, against 1,386 or 12·8 in the year before. The average in North Arcot, South Arcot, Bellary, Chingleput, Cuddapah, Kistna, Kurnool, Malabar, Nilgiris and Tanjore was fair, being more than 10 to a hospital. Elsewhere, additions are most necessary.

	In-patients.	Out-patients.
1891–92	14,283	1,786,456
1892–93	14,510	2,011,458

The total net outlay on the maintenance of these institutions, the cost of midwives and midwifery pupils being excluded, amounted to Rs. 4,46,270 against Rupees 4,49,791 in 1891–92. Owing to the large increase in the number of persons treated, the average cost of patients declined from As. 4 to As. 3–6. It was very low in South Arcot, Madura, Salem, Tanjore, Trichinopoly and Vizagapatam, where it was less than As. 3, and moderate in most other districts. On the Nilgiris and in Malabar, Cuddapah and Kistna, it ranged, however, from As. 8 to As. 5. Measures should at once be adopted by these local boards to reduce it as much as possible.

In previous reviews, the system of entrusting the supervision of these institutions to local committees was recommended for adoption, and during the year under review it was introduced by the Chittoor, Salem and Tinnevelly taluk boards, while the Tanjore, Trichinopoly, Nellore, Gódávari and Arni boards contemplated making trial of it in the current year. In Chingleput such committees were already in existence, but on account of some misunderstanding between one of the committees and the local medical subordinate the taluk boards have been instructed by the President of the district board to frame revised rules in the light of G.O., dated 22th December 1892, No. 3056 L., to ensure more harmonious working.

It is to be regretted that, with a few conspicuous exceptions in the case of the officers in Chingleput, North Arcot, South Canara and Madura, none of the district surgeons followed to any extent the example set by Dr. King, while in charge of the Kurnool district, in personally distributing medicines and treating patients during their tours of inspection. In Anantapur, Tanjore, Tinnevelly and Trichinopoly, it is true, some steps were taken in this direction, but the information which has been furnished to Government is extremely meagre. The lack of interest displayed by district surgeons generally in this matter, notwithstanding the assurance made by the Surgeon-General in his letter, dated 20th January 1893, No. 58, is not creditable. Dr. deFabeck is now requested to report whether due attention has since been paid to the matter by the district surgeons throughout the presidency, and, if not, how he proposes to give effect to the wishes of Government in regard to it.

34. *Medical Schools and Medical Pupils.*—Two medical schools were again maintained by the district boards of Nellore and Tanjore. All the students (4) sent up from the Nellore school passed the hospital assistant's examination, and two of them were placed in the first class. The school at Tanjore was attended by 26 students, of whom 11 appeared for the same test, 6 passing in the first and 5 in the second class, whilst one carried off the Government gold medal. The working of this school is very satisfactory. Five medical pupils from each of the districts of Bellary, South Canara and Madura were trained in the Madras Medical College at the cost of the respective district boards, and 3 in the Nellore medical school, the Gódávari district board paying their stipends.

9/3343.

35. *Midwives.*—One hundred and sixty-two trained midwives were employed by the local boards. Of these the number was largest in Nellore (19), Madura (17) and Bellary (13), while it was inadequate in Cuddapah (1), Ganjám (2) and Kurnool (2). In Cuddapah, however, there were also 10 nurses who discharged such functions when necessary, and they attended 525 cases against 319 in the previous year—a satisfactory advance. At least one midwife should be attached to every hospital or dispensary and steps to this end should be taken. The total number of cases of labour attended was 9,904 or on an average 5 in a month for each midwife, the corresponding figures in 1891–92 having been 8,551 and 4·9. Such a slight increase can be of little use. The midwives in Bellary and South Canara were present, on an average, at 10 and 7 cases each per mensem. On the other hand, those in Kurnool, South Arcot, Malabar and Tanjore did particularly ill and the attention of the local boards concerned has been drawn to the necessity for effecting some improvement.

36. *Medical Training of Women.*—Statistics regarding this subject are to be found in Appendix XXIV. It will be observed that the local boards of South Arcot, Coimbatore, Ganjám, Madura, Salem, Tinnevelly and Vizagapatam continued to incur expenditure on this account, while in Kistna and Nellore no additions to the existing staff were needed. Due attention appears to have been paid in most districts to the training of midwifery pupils.

37. *Vaccination.*—This subject has been fully dealt with in G.O., dated 19th July 1893, No. 1585 L., in which the report of the Inspector of Vaccination was reviewed. The number of operations performed by local fund vaccinators as given in paragraph 9 of that report differs, however, as shown below, from the figures appearing in Appendix XXV, and the Sanitary Commissioner is requested to explain this and to take the necessary steps to prevent the recurrence of such discrepancies.

Appendix XXV.

Districts.	Number of operations by local fund vaccinators.		Number of successful cases.	
	As in Appendix XXV.	As in Vaccination report.	As in Appendix XXV.	As in Vaccination report.
Kurnool	26,401	25,945	25,316	24,904
Tanjore	41,847	41,560	38,509	38,246
Vizagapatam	48,699	48,599	46,368	46,268

There were 49 deputy inspectors of vaccination and 664 vaccinators and probationers employed by the district boards, against 49 and 668, respectively, in 1891–92. The total number of operations performed by this agency was 968,834 against 862,185—a very satisfactory increase. The percentage of success (95 against 93) was also high. The average number of operations (1,449) performed by each vaccinator rose by 147. The outturn was very good in Trichinopoly (3,085 cases), and good in Kurnool (2,162), Madura (2,039) and Tinnevelly (2,015). Elsewhere it was fair, except in Anantapur, Ganjám, Gódávari and on the Nilgiris, where it was less than 1,000 cases. The improvement in Coimbatore, Madura, South Canara, Tinnevelly, Trichinopoly and Vizagapatam is satisfactory, and where, as in the case of Chingleput, Gódávari and Kurnool, there was a decline, the causes were, it is hoped, temporary.

The average cost of successful cases was As. 3–4 or 2 pies less than in the previous year. It was very high in Nilgiris (As. 9–7), Bellary (As. 6–0), Anantapur (As. 5–6) and Cuddapah (As. 5–4), and moderate elsewhere, except in South Canara, Coimbatore, Madura, Salem, Tinnevelly and Trichinopoly, where it was below As. 3. Compared with the previous year there was a reduction in 12 districts and an increase in 7 others, while in the remaining 2 the cost continued stationary.

Discretion having been given to the medical subordinates in charge of local fund hospitals and dispensaries in the matter of vaccination, the work turned out by them necessarily compares to disadvantage with that of 1891–92.

If the work done by these subordinates is included, the successful operations performed in the local fund areas numbered 947,364 or 29·4 per mille, the corresponding figures of the previous year being 834,195 and 25·8. The results in reference to population were best in South Canara (44 per mille) and Tinnevelly (42·7). They were also fair in Bellary, Chingleput, Coimbatore, Cuddapah, Kurnool, Madura, Nilgiris, Salem and Trichinopoly, where they ranged between 40 and 30 per mille. On the other hand, the outturn in Ganjam was extremely low, being less than 20 per mille. The total number of successful operations on children under one year of age rose from 165,296 to 207,161. This is an encouraging feature of the reports. Individually, Bellary and Chingleput again head the list of districts with ratios of 16·1 and 15·6 per mille, while Ganjám, Gódávari, Malabar, Nilgiris and Tanjore close it with ratios of less than 3 per mille. The local boards last named must make special efforts to obtain better results.

Vaccination by means of animal lymph was conducted in all districts and the total number of operations performed by this method was 722,277, of which 683,480 or 95 per cent. were successful, the corresponding figures for the previous year being 380,219, 351,263, and 92 per cent. The method is received with favour by the people.

38. *Sanitation.*—Excluding Rs. 3,781 spent on sanitary public works debited to Grant I, the outlay under this head was as shown below :—

Appendix XXVI.

	1891-92.	1892-93.
	Rs.	
Improvement of water-supply	1,91,354	1,36,210
„ of village sites	40,349	42,600
Conservancy establishments	2,54,190	2,70,135
Arrangements at fairs and festivals	12,495	12,879
Other sanitary outlay	30,703	20,675
Total ..	5,29,091	4,82,499

The decrease under improvement of water-supply was due to the absence of any necessity for incurring so large an expenditure under this head as in 1891–92 when scarcity of water was felt in many parts of the presidency. No sanitary works of any importance were undertaken in the rural tracts, but many of a petty kind such as those mentioned in previous general reviews were, as usual, carried out by local boards and union panchayats. Four hundred and eighty-three new wells were sunk and 1,621 existing sources of water-supply repaired or otherwise improved, the corresponding figures last recorded being 700 and 2,673. The decrease was due to the reason just assigned. The village sites on which works of improvement were executed numbered 832 against 884. The system of employing itinerating gangs for the removal of prickly pear and noxious vegetation in villages was introduced in some places with success, but the information supplied in regard to this is meagre and no decided opinion can as yet be formed. Much will, no doubt, depend on local circumstances, and the difficulty of obtaining proper supervision will probably be a serious obstacle in many districts.

Out of 44,622 minor towns and villages in the presidency, 872 (320 unions and 552 other villages) were provided with conservancy establishments against 348 (270 unions and 578 other villages) in the previous year. There was an increase in every district but Anantapur, Ganjám and Nilgiris, where the number remained unaltered, and Bellary, South Canara, Madura, Nellore, Tanjore and Tinnevelly, where it declined. In Bellary the decrease was considerable and unexplained. Gódávari

again headed the list with 105 villages, and Tinnevelly and Cuddapah followed next with 85 and 68 respectively. The number of villages conserved in Anantapur, Bellary, South Canara, Chingleput, Nellore and Vizagapatam was far too small. The sanitary condition of the rural tracts received increased though still inadequate attention, but some district medical and sanitary officers, and notably one or two devoted to the subject, showed considerable energy and application.

It is to be regretted that the proportion of expenditure to the sanctioned allotments under this head should have fallen from 90 to 89 per cent. The outlay in Nellore exceeded the allotments, and in Chingleput the whole of the assignment was utilised. The rate was fair in the other districts with the exception of Bellary and Cuddapah. In these it was only 72 and 67 per cent., but the short outlay has been satisfactorily explained in the district reports.

39. *Choultries.*—If the Arcot, Bimlipatam and Kurnool langarkhanas and the kanji house at Tanjore are taken into account, the local boards maintained 501 choultries against 483 in the previous year. The increase occurred chiefly in Gódávari, Salem and Malabar. The cost of maintaining these institutions amounted to Rs. 2,03,414 against Rs. 1,86,319 in 1891–92; the rise was nominal and due to the payment of certain arrears in Tanjore. Two hundred and twenty-six choultries had endowments attached to them, and in as many as 50, travellers numbering 1,173,878 were fed at a cost of Rs. 87,627. In the previous year the corresponding figures were 1,121,136 and 84,582. Elsewhere, in a few instances, pensions were granted to pauper and infirm persons. The majority, however, of the choultries were mere rest-houses.

40. *Contributions.*—The amount contributed to Provincial and Municipal funds and to private individuals for medical, sanitary and other purposes was Rs. 1,24,655 against Rs. 1,13,946 in 1891–92, the increase occurring chiefly under contributions to Provincial funds.

41. *Miscellaneous.*—An expenditure of Rs. 47,412, against Rs. 40,944 in the previous year, was incurred on account of lighting in all districts but Ganjám, Kurnool, Malabar and the Nilgiris. This was mainly confined to important unions, although in Chingleput, Coimbatore, Salem, Tinnevelly and Trichinopoly, some main roads and bridges were also provided with lights. The local boards maintained altogether 5,513 lights in 174 places, the corresponding figures last recorded being 5,209 and 165.

GRANT IV.—MISCELLANEOUS.

42. *Supervision and Office Management.*—The expenditure under this head amounted to Rs. 3,85,289 against Rs. 3,73,218 in 1891–92, and was equivalent to 5·3 per cent. of the total receipts and 4·8 per cent. of the total charges, against 5·6 and 4·7, respectively, in that year. The larger outlay was due to the reorganisation of the local audit staff in consequence of increase of work, and to the staff employed in the newly-constituted unions. The system of supervision of the work of the local boards and union panchayats, and the character and cost of the establishments employed by them, remained almost unaltered.

43. *Repayment of Loans, &c.*—The Chingleput and Malabar district boards paid Rs. 19,217 as instalments of principal, and Rs. 5,016 as interest, on account of loans previously obtained by them from general funds for the construction of the Korttalaiyár bridge and the completion of the Tamracheri and Periya ghát roads. The amounts still due by these boards are Rs. 73,598 and Rs. 22,978, respectively, and it is expected that they will be repaid in 1898. In Tinnevelly the sixth instalment (Rs. 5,000) of the loan of Rs. 45,000 received by the district board from the taluk endowment funds, and the fourth instalment (Rs. 3,600 inclusive of arrears) of the loan of Rs. 35,000 received from the zamindar of Ettiyapuram, both being for the construction of the Srivaikuntam bridge, were repaid, together with interest amounting to Rs. 1,968. A sum of Rs. 1,27,037, temporarily advanced from

Provincial funds in order to cover the deficits in the districts of Chingleput, Kurnool and Nilgiris, was recovered. The Tanjore Railway Guarantee Fund had on the 31st March 1893 a balance to credit in Government securities of Rs. 9,32,000. Out of this, a sum of Rs. 70,000 was withdrawn for expenditure, leaving a balance of Rs. 8,62,000 in paper and Rs. 75,560 in cash. A moiety (Rs. 2,13,311) of the expenditure incurred in 1891–92 on the construction of the Máyávaram-Muttupet Railway was paid to Government. The work was making rapid progress, and the line should be ready for opening on the 1st February 1894.

IV.—ENDOWMENTS.

44. Appendix XXVIII shows the number of endowed institutions, such as schools, dispensaries, choultries and markets, under the control of the local boards and union panchayats, while their financial transactions are exhibited in Appendices XXIX and XXX. Excluding Rs. 73,448 appropriated or lent from general funds to meet the deficit with which some of the institutions would otherwise have closed, and Rs. 3,000 allotted from chattram funds in Tanjore for other purposes, and including Rs. 5,985 paid by the Tinnevelly district board to the taluk endowment funds on account of the loan mentioned in the preceding paragraph, the receipts of these institutions stood at Rs. 4,73,660 and the charges at Rs. 4,17,674, the corresponding figures of the previous year having been Rs. 4,65,181 and Rs. 3,78,212. As the opening balance in their favour was Rs. 3,88,094, the twelvemonth closed with a balance of Rs. 4,44,080. The large balance in Gódávari is attributed by the President to erroneous adjustments made in the treasury accounts in and after 1884, by which large amounts spent on public works in connection with some of these institutions were excluded from the endowment fund statements; but it is stated that the necessary steps have been taken to render the accounts as correct as possible. In Tinnevelly, proposals for utilizing the balance have been sanctioned in the current year's budget. The local boards of Madura, Salem and Tanjore, where the balances were also considerable, should take steps for spending the greater portion of them for the benefit of the people who are interested in the upkeep of the institutions.

V.—GENERAL REMARKS.

45. *Local Fund Accounts.*—There was no change in the arrangements for audit and inspection. The local fund accounts of 1891–92 for every district but Ganjám were inspected during the twelvemonth, and those of 1892–93 were also partly examined in the case of 15 districts. From the reports which have reached Government it appears that the state of the accounts in South Canara, Chingleput and Kistna was good, and in Gódávari, Nellore and Kurnool indifferent, although in the last-named district some improvement was apparent.

46. *Map.*—The map of the presidency, which should have been attached to the General Review for 1891–92, is still under preparation in the Survey Office, and will be circulated separately.

47. *General Administration.*—Detailed remarks on the administration of each district have been made by His Excellency in Council in reviewing the individual reports, and he has now but little to add. He is glad to be able to commend, on the whole, the administration of local affairs by the bodies to which they were entrusted, and to record his opinion that the rate of progress which was with pleasure noticed in 1891–92 was fully maintained in the year under review. Credit for this is due to the local boards and also in some districts to the union panchayats concerned. North Arcot, South Canara and Chingleput may again be specially singled out as examples of excellent administration, but elsewhere also, except in the single instance of Kurnool, there were abundant signs of efficient control. Much, of course, remains to be done, and Government need only mention primary education, medical relief, vaccination, and sanitation—the last still in its infancy in rural tracts—as matters

11/5543

requiring development. The extension of these will depend greatly on the tact and energy of the Collector-presidents and of the medical, sanitary and educational officers, to whom especially the thanks of Government are due for such good results as were achieved in 1892–93.

* The arrear demand as shown in this statement differs from the closing balance of 1891-92 given in the corresponding statement for that year, the difference being due to adjustments made after the settlement of the Jamabandi accounts.

† These figures include amounts collected in 1891-92 for 1892-93 and in other districts and exclude advance collections of 1893-94.

‡ These figures do not agree with those given in Appendix IV for which the Accountant-General's explanation is awaited.

* Excludes the cost of (1) medical practitioners employed in sanitary inspection, distribution of medicines, &c., (2) medical schools, (3) the District Medical and Sanitary officer's establishments, (4) medical pupils, and (5) midwives and midwifery pupils, but includes the pay of the medical subordinates in charge.

† Excludes 131 cases attended by 16 nurses. ‡ Excludes the work of the midwives who were employed for only a portion of the year.

APPENDIX XXIV.

A SUMMARY of the measures adopted in furtherance of female medical education and connected purposes in 1892-93.

Anantapur.—Four trained midwives were employed and provision has been made in the current year's budget for a fifth.

Arcot, North.—Ten midwives were employed in the district.

Arcot, South.—A female student was undergoing training in the Medical College for the civil apothecary grade, receiving a scholarship of Rs. 30 per mensem from the district board.

Bellary.—Thirteen midwives were employed by the local boards, and an East Indian woman was sent to Madras for obstetric instruction on a stipend of Rs. 15 a month.

Canara, South.—Eight midwives were employed.

Chingleput.—Ten midwives were employed.

Coimbatore.—The 3 female students trained for the apothecary grade at the cost of the district and Erode taluk boards passed out successfully. The students of the district board accepted employment in the district. No more scholarships have been provided.

Cuddapah.—Besides the employment of a midwife and 10 nurses, nothing was done towards the furtherance of female medical education.

Ganjám.—A female student underwent training and a sum of Rs. 150 was paid on her behalf to the bankers of the Lady Dufferin fund.

Godávari.—It has not yet been found practicable to take any steps for the higher medical education of women.

Kistna.—Eleven trained midwives and a female apothecary were employed, and 4 pupils were sent to Madras for training in the Government Lying-in-Hospital.

Kurnool.—The Board was not able to do anything beyond employing some midwives.

Madura.—Two pupils were trained in the local Lying-in-Hospital and 17 midwives were employed. A female student, trained for the apothecary grade, passed out successfully, and she is now borne on the reserve.

Malabar.—Beyond the employment of 4 midwives, no expenditure was incurred under this head.

Nellore.—No addition to the existing staff of 2 female hospital assistants was called for.

Nilgiris.—No expenditure was incurred under this head.

Salem.—Two of the three female medical pupils under training passed the final examination and were employed in the district. The other resigned towards the end of the year.

Tanjore.—No expenditure was incurred under this head. There were, however, 8 midwives.

Tinnevelly.—The usual contribution of Rs. 240 to the Lady Dufferin fund was paid on account of a female student undergoing training for the apothecary grade.

Trichinopoly.—No special measures were adopted in furtherance of this object beyond the employment of 9 trained midwives.

Vizagapatam.—Five female apothecary pupils underwent training at a cost of Rs. 1,200. One died and the other 4 completed their course in June 1893.
