No. 2678

From

Henry Swin, Esq., C.I.E.,

Consulting Architect

to the Government of Madras,

To

The Chief Engineer
 Public Works Department.

In,

Enclosures.

With reference to your memo. No. 1046 of dated 13th October 1893, I have the honor to report that the gardens, lawns & hedges around the New High Court Buildings cover a very large area and are open & exposed to the Sea breeze, which is injurious to all ornamental plant life. It is therefore very essential that great care should be bestowed on them to keep them in healthy condition. The soil in that locality being sandy and poor, requiring constant manuring and great deal of watering. The services of the gardeners now provided for in the estimate is considered to be necessary at present. It may perhaps be possible to reduce this establishment.

ment when the trees grow up and are capable of
drawing nourishment for themselves without
watering.

I have the honor to be
Sir
Your most obedient servant.

Henry Jones
