GOVERNMENT OF MADRAS.
PUBLIC WORKS DEPARTMENT.

Buildings and Roads.
Civil Works.

READ—the following paper :—

From Surgeon-Major-General W. F. DEFABECK, M.D., Surgeon-General with the Government of Madras, to the Chief Secretary to Government, dated Madras, 25th January 1893, No. 80.

With reference to the enclosed correspondence I have the honour to request that the Consulting Architect to Government may be directed to prepare an estimate and plan for building drains and cementing the floor of the Voluntary Venereal Hospital. I consider this work necessary in the interests of the health of the hospital inmates.

2. The removal of surface water during the rainy season will render the building more healthy and will help to prevent water-logging.

3. There seems no prospect of a new Women and Children Hospital being made available for some time to come.

ENCLOSURES.

From Brigade-Surgeon-Lieut.-Colonel A. L. HACKETT, Superintendent, Voluntary Venereal Hospital, to the Secretary, Surgeon-General with the Government of Madras, dated Madras, 14th December 1892, No. 174.

I have the honour to bring to the notice of the Surgeon-General that the hospital buildings have no proper drainage system to carry away the washings of the wards and the polluted water keeps soaking within the compound, which is injurious to the health of the inmates.

Therefore I beg that the Surgeon-General will be good enough to direct the Public Works Department to take steps to have drains built and the floors to be cemented.

No. 7881.

Referred to the Consulting Architect to Government for favour of remarks.

(Signed) F. J. CRAWFORD, M.D., Surgeon-Captain,
Ag. Secy., Surgeon-Genl. with the Govt. of Madras.
26th December 1892.

From H. IRWIN, Esq., C.I.E., Consulting Architect to the Government of Madras, to the Surgeon-General with the Government of Madras, dated Chepāk, 19th January 1893, No. 3121.

With reference to your endorsement No. 7881, dated 23rd December 1892 (herewith returned), I have the honour to state that the proposed surface drain and plastering the floor of the Voluntary Venereal Hospital will probably cost over Rs. 600, and according to G.O., No. 2806 W., dated 7th October 1892, I am prohibited from preparing estimate and plan for works likely to cost more than Rs. 500 without the sanction of Government, which I request may be obtained as early as possible.
