The Chief Engineer
Madras Presidency
Madras.

The humble petition of the undersigned land
owners in the several Pattoms known as the
John, Hendrickswa, Dwa dethelmis, Sotho,
Sandiavoo, and Thirivappoo in the Anson
and Taluk of British Cochin.

Most humbly sheweth,

That the above named Pattoms are by
the sea-side and during the past several years a good deal
of the Western portion of the said Pattoms were by the encroach-
ment of the sea at the time of monsoon buried in the bed of the
Ocean.

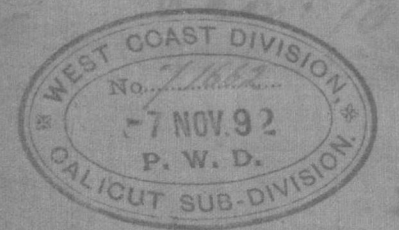

2. That certain of the present Petitioners
represented the matter to the Local Collector of Malabar and sug-
gested to him the necessity of constructing half a dozen em-
bankments (moottoos) of granite stone to prevent further en-
trusion of land; when he was pleased to direct an Engi-
neer to inspect the place and express his opinion in the mat-
ter, and the latter in pursuance of the direction inspec-
ed the place and made a report supporting the suggestion of
your Petitioners.

3. That during the late monsoon the sea has
made a great encroachment into the land, the consequence
of which the land was reduced to the breadth of 50 or 60 Rods
and thereby the land owners had to sustain very great
loss in as much as hundreds of coconut trees were
plucked off by root by the strong billows of the ocean.

4. That petitioners submit that such loss
occasioned by the monsoon to the land owners would, if it
result in a very heavy loss to the Government in as
much as the land owners would refuse to pay the Sirkar
Pattom for such trees as are destroyed by the sea and the Govt
would have no reasonable way to collect such pattoms

Address:

J. B. Larmine Esq.
Superintending Engineer,
Fourth Circle.

To
The Chief Engineer,
P.W. Department.

Sir,
In returning your Endorsement No. 4480C of 18th October 1892, I have the honour to state that the locality referred to in the Petition, is some distance to the South of the Cochin Light House; and that as general public interest being involved, Government are not called on to protect Petitioners from any encroachments which may be taking place. In this connection, please see my Inspection Notes of 21st, 22nd and 23rd November 1892.

READ the following

Petition from M^r J. W. Warrid
and other landholders of
British Columbia (H.E. ... d/ Oct^r 6, 1852)

The petitioners
are informed that
His Excellency the
Governor in Council
has learned on inquiry
that no public interest
is imperilled by the
action of the sea at
the place indicated.
The expenditure of
public funds on
protective work

cannot therefore
be sanctioned.
