ANANTAPUR COLLECTOR'S OFFICE,

Dated 11 August 1892.

No. 341
Enclosure..

From W. G. Lumsden Esq. Esq.

Collector of
ANANTAPUR.

To

The Secretary to the Commissioner of

Madras.

RECEIVED BY THE SECRETARY TO THE COMMISSIONER OF ANANTAPUR 2293 OF 1892

MADRAS.

Sir,

1752.18 P.W.D.
13-5-92
13-7-92

In Government Order No 1752 dated 13th June 1892 embodied in Board's Resolution No 3572 dated 13th July 1892, I perceive that the allotments for Kinturpur and Jaspatri Taluqs have been withdrawn. I have the honor to request that sanction may be accorded for erecting temporary sheds at these places for the accommodation of the Taluk establishments. They have been patched until they can be patched no longer and I do not consider the lives of the clerks secure. There nearly was an accident at Kinturpur when the second room fell in. I was full of sorrow last year at Jaspatri. There are no buildings that

that can be needed and if Government
will be pleased to sanction ^{that} ~~that~~ Mess
Anand address the S. P. W. with a view
to having estimates prepared.

Leave the leave to be

REVENUE DEPARTMENT

1893

Proceedings of the Board of Revenue

(Land Revenue),

Dated 9 January 1893,

No. 55 Misc

359

READ letter from the Collector of Anantapur
dated 11 August 1892 B.L. No. 341
and the following reference thereon
dated 25 August 1892.

The Collector is requested to
report whether the work in question,
which does not seem to require any
special professional skill, could
not be carried out by the Revenue
Department, and if so what its
approximate cost would be.

(2) also letter from the same officer
dated 14 December 1892 Refon C. No. 606.

Resolution dated 9 January 1893.

The collector's letters read above
will be submitted to Government
with reference to the correspondence
ending with Board's Proceedings 14

August

request that the estimates called for
in G.O. dated 10 September 1889 No.
2507 W communicated with G.O.
27 September 1889 No. 6155 Revenue
may be ordered to be submitted
without delay. It is observed that
more than three years have elapsed
since the Superintending Engineer
the Circle was directed to "submit
the required estimates as soon as
possible" and the new public
offices the construction of which
has been sanctioned by Govern-
ment are urgently required.

2. As the construction of any
new Taluk Cutcherry will occupy
not less than two years, the best
temporary arrangements that may
be feasible must be made without
delay. Before moving Government
G.O. 643 dated 5 November 1892) the
sanction the preparation of
estimates by the D.P.W., the Board
desires to know whether the Collector
cannot by contract under the Revenue
or Local Funds agency at his disposal,
carry out speedily and efficiently
the repairs that are urgently
required - first in re-roofing the
Tadpatri

25/10/89

Tadpatri Taluk Cutcherry and
secondly in whatever may be necessary
for the Hindupur Taluk Cutcherry.
A report on these points should be
submitted without delay and funds
will be allotted as may be found
necessary.

3. The expenditure of Rs 89 on
the Cutcherry ^{and} Rs 13 on the sub jail
at Madakaira and of Rs 38 on
the record room at Dharmapuram
is sanctioned.

4. The renting of S. Sambiah
Chetty's house at Gooty for use
as a Taluk Cutcherry is sanctioned,
but the Board desires the Collector
to satisfy himself as to the strength
of the iron barred room to be used
as a treasury. The proposed rental
of Rs 8 per month can hardly
reimburse the owner for the
outlay that would seem to be
necessary. An agreement should
be entered with the owner
laying down reasonable conditions
as to repairs and rent and
providing that Government may
retain the building if it desires
for

for a period of five years at
the rent fixed and may also
vacate it on giving three months
notice.

From

G. S. Courney Esq.

Collector of

ANANTAPUR.

To

The Secretary to the Commission of

Land Revenue

MADRAS.

Sir,

I have the honor to reply to
your reference of the 25th August 1892
General Register No 2293 upon this office
letter of the 11th August 1892 No 341 requesting
leave to build temporary sheds to accommodate
the Salub establishment at Chindapur and
Saidpatri. I was asked to report whether the
work could be carried out by the Revenue
Department and if so at what cost. In reply
I beg to state that the work if carried out
could be carried out by the Revenue Depart-
ment at a cost in the case of Chindapur of
Rs 305 and at Saidpatri of Rs 750. There are
revised estimates received on the 17th & 29th
ultimo. Delay in receiving these & further
enquiries in reference to other Salub Establishments
are the cause of the delay in replying to
the

the reference.

I however have further the honor to suggest that the work be not done. In both cases the sheds would not accommodate the Treasury while would cause great inconvenience as they would have to be outside the town & some distance from the present offices. Scarcely the rainy season is over & there is no immediate necessity for removing the establishment, and finally I have other proposals to make. The Chief of Police suggests now that until the new outbuilding is built the office may be allowed to remain where it is. Provision may therefore be made if necessary for something to be done in the next official year before the rains. In regard to Tazpatri in June last the permanent Collector asked the Executive Engineer to put in hand (if necessary before the new outbuilding was built.) an estimate for re-roofing the outbuilding. No answer to the reference has been received and I do not know what the amount of the estimate was. I however when at Tazpatri asked the Local Juns Overseer what the cost of such work would be, as it seemed to my unprofessional mind, that when Government had in the last 5 or 6 years spent Rs 500 or 600 in making a safe Treasury

in the middle of the building & that when the Stone walls still seemed good, it would be a pity to abandon what might be retained. A complete estimate for Rs 1100 has come in with the information that if the work be carried out the building will last 5 or 6 years more. This does not quite seem in accordance with a late Executive Engineer's opinion (who I believe did not think the walls were good) but I give it for what it is worth. If necessary the Executive Engineer could check and give an opinion upon whether the work should be done or not. If it were done & a new building were constructed, the old one would be sold and part of the outlay recouped in getting a higher price for the house being in fair instead of bad order. At present as little or no more rain is expected I request that matter be left as they are pending the opinion of the Executive Engineer as to which is the best course to adopt. If the course be approved of it ~~will be done~~ ^{reference will be made}.

I beg to take this opportunity of making some suggestions in regard to ^{the} Tazpatri outbuildings of this district, for ^{the} new ones were mentioned for all Taluks in Government Order of the 9th August 1889 to 1887 it is not certain when they will be built, and also

2005/19/89
2005/19/89

also if only some have funds allotted for them they should be built where the present ones are the worst. Money was originally allotted this year for those at Madukani, Sivapur & Jaspatri. The Executive Engineer who appeared to think that the money for Madukani has not been withdrawn (Board's Proceedings of 13th July 1892 No 357 shows no funds are provided for new works) wished for the transfer of the sum from there to Thummanam. The Govt Dy. collector assented that the Govt Cutcherry was the worst the Collector seemed to think that Jaspatri was the worst.

The Madukani Talukdar has sent in an estimate for Rs 89 for the repairs of the roof of his Cutcherry & Rs 13 for repairs to the Tailward roofs. Apparently if these repairs are carried out it will be sufficient for the present. The Thummanam Cutcherry only leaks in one corner of the rear room Rs 38 will be sufficient. I have sanctioned these amounts out of the Budget for petty construction & repairs. ^{now} I have come to the consideration of the Govt office. Which is in so bad a state as to be dangerous, & when it is raining one ^{may} has to be kept on the roof to fill up the leak. It is absolutely necessary to do something before next rains.

The

37/8

The Deputy collector proposes at the Talukdar's suggestion and I support his proposition that the house of one S. Sambay Chetti be rented for the office. A ground plan of this house is enclosed. The Superintendent of Police (his letter received 7th Inst) states that the building will do well for the safe custody of the Treasury if an iron barred room with a cemented roof in place of the present mud roof is provided. It might be cheaper to make the roof iron barred under the present roof. The rent asked is Rs 2 months. The owner has given a written consent to this and to make certain alterations including the providing of the iron barred room. The present building is so unsafe & leaky that any repairs to it are out of the question. Rs. 703 still remain ^{unsanctioned} ~~unexpended~~ out of the year's allotment.

When funds are allotted the Govt Cutcherry should have preference, that is, if the present proposition in regard to Jaspatri is feasible & approved, I have the honor to request the Board's approval of the several propositions made in this letter.

I have the honor to be,
Your most obed^t Servant
A. H. Murray
Dy. collector
