P. W. D.

Office of the Consulting Architect to Govt.,
Chepauk, Madras,9th January 1893.

No. 2993

From

Henry Swin, Esq., C. I. E.,

Consulting Architect

to the Government of Madras,

To

The Secretary to Government

Public Works Department

In,

Enclosures.

I have the honor to request that you will be so kind as to lay the following representation before His Excellency the Governor in Council for consideration.

That in view of impending changes in the Establishment of the Public Works Department, on the probable retirement of Mr. Walsh, in April next, should the appointment of Secretary & Chief Engineer P. W. D. be temporarily filled during the balance of furlough of Col. Pennycook R. E. by a Superintending Engineer on the Establishment of the Presidency, I would respectfully

urge

urge my claims to the same. That I
am after Colonel Drake-Brockman R.E.
who is Chief Engineer and joint Secretary
for Irrigation, the Senior Superintending
Engineer, and that I should be superseded
should any other on the establishment be
appointed. That I have reason to
believe that I am qualified for it
and that the experience I have gained
in an administrative appointment when
Secretary to the Administrations of
Rajputana & Central India gives me
superior claims independently of my
seniority.

Although I am supernumerary on
the establishment of the Presidency I am borne
on no other list and that the appointment
being one for selection, I respectfully urge
that my claims to the appointment
may receive equal consideration with
those of other Superintending Engineers.

Being on the list for three years
and some months and as forming
a portion of the strength of the Service
and having no where else to look to
for promotion, I should hope that
I may not be passed over in this instance.

Though holding a special
appointment (Consulting Architect)

it carries with it no emolument above
that of the grade or class of the officer who
fills it, and as it is impossible that I
can be promoted above the class of
Superintending Engineer while holding
it my promotion is stopped, and I
am thus penalized by being a
Specialist or rather for holding an
appointment requiring special extra
qualifications.

If I should be so fortunate as
to obtain the appointment of Offg:
Secretary and Chief Engineer, the
advantages to me would be great.

I should get increased pay.

Qualification for additional pension.

Possible residence in the hills during
the hot season.

and the prestige that would accrue
to me professionally from having held
the post of Secretary & Chief Engineer of one
of the great Presidencies of India.

I shall in all probability be
retired in three years on reaching the
age of 55 and any addition to my
pension would be most desirable,
any additional professional qualification
will be an assistance to me in obtaining

employment

employment which I must seek
as my pension will be quite
inadequate for my support and
that of my family.

Such an opportunity as this
probably will not come again
during my service. I earnestly
hope that His Excellency in
Council will take my case
into favourable consideration.

I have the honor to be

Sir

Your most obedient servant

Henry Irvine

Engg. Architect to Govt.

No 35. W. 2/10. Jany/93

Order

The Government reply that it
cannot entertain Mr. Irvine's
Application favourably.
