12TH FEBRUARY 1892, No. 431 W., PUBLIC WORKS.

GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

General.
Establishment.

Read—the following paper :—

Proceedings of the Government of India, Public Works Department (General),
dated Calcutta, 16th January 1892, No. 148 G.

[Procedure to be adopted in future with a view to the Survey Department being supplied
with information as to all public works.]

Read—again

Public Works Department circular No. XIV P.W., dated 11th October 1883.
III 20th March 1890.
Paras. 44 and 44-A, chapter IX, volume I, Public Works Code, 5th edition.

Read—also

Public Works Department letter No. 3551 G., dated 23rd December 1890, to local Gov-
ernments and Administrations, asking for opinion as to the best method of supplying
information to the Survey Department as to the exact location of various public works.
Replies from local Governments and Administrations to the above letter.

Resolution—

In supersession of the previous orders communicated in the circulars read in
the preamble and contained in Public Works Department Code, volume I, chapter IX,
paras. 44 and 44-A, relative to the procedure to be adopted with a view to the
Survey Department being supplied with information as to all new public works
to enable the map of India to be brought up to date, His Excellency the Governor-
General in Council is pleased to lay down the following procedure, which, having
already been adopted in the case of railways, should be adopted in future with regard
to canals, large irrigation channels and main lines of road :—

(1) When any such public work has been constructed, or section thereof has
been opened, the index or record map, on whatever scale available (not less than
one inch = one mile), provided it is from original surveys and not a mere eye-sketch
made on traces from the Survey of India maps, should be sent to the Survey of India
Office, Calcutta, and that department should take steps to have the material utilised
by its own draftsmen.

(2) To ensure the material supplied being suitable for the purposes of the
Survey Department, the topography adjoining the alignment, such as village-sites,
trijunction boundary pillars, other permanent objects and the crossing of roads and
streams, should be accurately shown and it should be stated on the maps supplied if
the information is derived from actual survey or otherwise.

(3) The index or record maps that are sent to the Survey Department should
be treated with every care and always returned as early as possible to the offices
from which they have been received, so that the labour of making traces need not be
resorted to.

Order—

Ordered that the above Resolution be forwarded to the local Governments and

The Governments of Madras, Bombay, Bengal, the North-Western Provinces and
Oudh, and the Punjab. Administrations noted in
The Chief Commissioners of the Central Provinces, Burma, Assam and Coorg. the margin and to the
The Resident at Hyderabad. Surveyor-General for in-
The Agents to the Governor-General for Central India, Rajputana, and Balu-
chistan, formation and guidance.

(Signed) G. H. D. WALKER,
Under-Secy. to the Govt. of India.

ORDER—dated 12th February 1892, No. 431 W., Public Works.

Communicated to officers concerned, for information and guidance, in supersession
of previous orders * on the subject.

* Vide G.O., No. 893 W., dated 19th March
1891.

2. Public Works officers will be
responsible for submission of the required
maps in the case of all works of the classes
named carried out by them. Works carried out by Civil officers will be similarly
reported to the Revenue Department and those undertaken by Local Boards to the
Local and Municipal Department.

3. The maps from all officers and departments, excluding those showing railways,
will be forwarded to the Surveyor-General through the Public Works Secretariat.

4. As regards railways, an index plan accompanies each report to the Govern-
ment of India of the opening of a new section of line and it is understood that
the Survey Office at Calcutta thus obtains a copy from the Government of India
Secretariat.

(True Extract.)

Map of India

Government of India Resolution laying down a revised procedure for the supply of information to the Survey Department as to all new public works for bringing the — up to date, communicated to officers concerned with instructions.

Current No. 1231

Ch. 431

The accompanying tracing shows the Periyar main & branch channels in V. 2 Division, Madras Dist. It is in accordance with instructions laid down in India Resolution No. 1486 dated 16th Janr. 1892, except that the portion of the main channel from Kidari work & the 10" branch channel is dotted on the tracing, may be omitted, as they have not been begun as yet.

The tracing is according to measurements drawn on a scale of 1" = 1 mile & shows the alignments of the main & branch channels, position of measuring marks &c. It is accompanied with a Revenue survey map.

OFFICE OF THE SUPERINTENDING ENGINEER,

6TH CIRCLE.

Trichinopoly, 7th February 1893.

From

H. Hughes Esquire
The Superintending Engineer,

6th CIRCLE

To

The Chief Engineer,

PUBLIC WORKS DEPARTMENT.

SIR,

ENCLOSURES, 6

1. Training map
2. Lithographs of
of Madras Taluk
2. Dr. Melur Taluk
1. Dr. Dindigul Taluk

With reference to your
Memorandum No. 5198 C dated

8th December 192, I have the honor

to submit a sketch map showing
large irrigation works constructed

or in course of construction for the
year 1892.

2. The map is prepared to
a scale 1 inch = 1 mile, and
the only important works in pro-
gress in the Circle - the main
and branch channels of the
Piriyar Project - are shown
thereon.

3. As the information is re-
quired for the completion of pub-
lished maps, I also send the Taluk
maps with the channels marked

on them.

4. The line of the main Canal
beyond the Kedari Pakki rock
and the 10" Branch Channel
have not been begun; these
are for the present shown in
dotted lines.

I have the honor to be
Sir.

Your most obed^t. Servant.

W. Hughes
