Collector's Office at Kokarkulam

Estimate of Rs. 4,700 for improving the English record rooms of the — in the Tinnevelly district, sanctioned.

Trichinopoly 506/2

No. 823 T.S. 506/P 10th December 1892

From

Lt. Col. A. C. Smith R.E.
Superintending Engineer, 6th Circle,
Trichinopoly.

To

The Collector of Tinnevelly.

Sir,

With reference to G. O. No. 2602 W. dated 19th September 1892, I have the honor to forward for your approval and submission to Government an estimate amounting to Rs 4,700 accompanied by plan and report for improving the English record rooms of your office at Kokarkulam.

2. In the Proceedings of the Board of Revenue No. 5138 Miscellaneous dated 17th August 1892, recorded in the Government Order above quoted it is stated that the building required only repairs, and accordingly Government directed me to arrange for the same being carried out but as the cost of repairs or the amount of the present estimate exceeds one fourth the value* of the main building and as the present [illegible]

*Rs 14,500

roof of the record rooms in question is proposed to be substituted by truss roof with Calicut tiles, the estimate is classed under Original works. In submitting the estimate to Government the Board will have to ask them to make the necessary provision in the next year's Budget.

I have &c.

(Signed) A. C. Smith Lt. Col. R. E.

Superintending Engineer; 6th Circle

TECHNICAL NOTE.
B 20/2/93
21/2/93

Name of work Improving the English Record rooms of the Collectors office at Kokarakulam, Tinnevelly Dist.

Amount of Estimate Rs 4,700

This estimate has been framed with reference to G.O. No. 2602 W dated 19th Sept 1892. It provides for improving the English record rooms of the Collectors office at Tinnevelly.

The existing building consists of 3 rooms, a centre room 40'x20' & two side rooms 40'x18' each. The roof of the side rooms is reported to be unsound & leaky, as the roof timbers have decayed. It is therefore proposed to reconstruct the side rooms & substitute truss roof for the existing terraced roof & provide additional ventilation by inserting extra windows, as per plan.

The estimate provides for reroofing the whole building with Calicu tiles laid over teak reapers & rafte rafters supported by trusses placed 13'4" apart & ceiled with ½" Congo wood planks.

Provision is made in the estimate for lead sheeting 3½ ft wide for the valleys.

The surface soil is stated to be loam to a depth of 6 feet & the subsoil hard clay. The foundations are to be sunk 6 feet deep, the lower 2 feet to be built of concrete & the upper 4 feet of brick in chunam. No basement has been provided & the floor level of the side rooms will be as the existing floor. The superstructure walls are to be raised 14'4" high to bottom of tie beams & plastered both interior & exterior with 2 coats of chunam & the existing cut stone floors removed & relaid with 3" of concrete below. The roof is to be of Calicut tiles ceiled with ½" of Congo planks, rafters to be placed 2 feet apart.

The scantlings for roof timbers are somewhat heavy but they appear to be fair for a roof with trusses placed 13'4" apart.

The rates are fair & like are submitted for roofing with Calicut tiles &.

The plan & estimate have been countersigned by the Collector & approved in Revenue Dept.
