GOVERNMENT OF MADRAS.

JUDICIAL DEPARTMENT.

READ—the following paper:—

From Colonel C. A. PORTEOUS, Inspector-General of Police, to the Chief Secretary to Government, dated Madras, 2nd February 1893, No. 591.

In submitting the accompanying letters * from the Superintendent of Police, Vizagapatam, I have the honour to request the sanction of Government for locating the Krishnadevipeta police station at Lakshmipuram instead of at Krishnadevipeta itself, which is very unhealthy and is therefore most unpopular with the men. Lakshmipuram is but three-fourths of a mile from Krishnadevipeta and from a strategic point of view is as favorably situated as the latter. The Agent to the Governor has no objection to the proposed change. The station will still be called Krishnadevipeta station.

* Copy of letter, No. 842, dated 3rd August 1892, with enclosure.
Copy of letter, No. 17, dated 31st December 1892.

2. The present station-house and 7 huts at Krishnadevipeta were constructed at a cost of Rs. 360 and require repairs now. If the above proposal meets with the approval of Government, I request sanction also for the construction of the necessary station-house and huts at Lakshmipuram. The required funds can be appropriated from the provision for public works in the Public Works Department budget for 1893–94.

ENCLOSURES.

From H. G. YOUNG, Esq., Superintendent of Police, Vizagapatam District, to the Inspector-General of Police (through the Agent to the Governor, Vizagapatam, and Deputy Inspector-General of Police, Northern Range), dated 3rd August 1892, No. 842.

I have the honour to submit for your consideration a report from the Assistant Superintendent of Police, Narsapatnam, on the proposal to abandon the police station at Krishnadevipeta and locate the police now stationed there at Lakshmipuram, a healthy and flourishing village about a mile distant from Krishnadevipeta.

2. The reasons for the proposed transfer are gone into fully by Mr. Hunt, who has made a personal inspection of the sites available for police buildings at both villages.

3. Krishnadevipeta is a notoriously unhealthy village and consequently most unpopular with the men, who are constantly in hospital with fever, dysentery and kindred ailments; for this reason the transfer of the station to Lakshmipuram is strongly recommended.

4. From a strategic point of view the proposed site for this station is quite as favorably situated as is Krishnadevipeta.

REPORT upon the proposal to remove the Police station from Krishnadevipeta to Lakshmipuram.

The proposal is due mainly to the unhealthy situation of the present station and lines.

The village of Krishnadevipeta lies upon low ground, which in the rainy weather becomes nothing more nor less than a swamp. On the 5th and 6th ultimo, I visited Krishnadevipeta and it happened to rain hard most of the time I was there; the compound inside the stockade was quickly converted into a pool of water. The constables informed me that after a few days' steady rain, the damp rises through the mud flooring of the huts; they are in consequence constantly down with dysentery, fever and ague. That Krishnadevipeta is an excessively unhealthy place

will, I think, be admitted. Twenty or thirty years ago villagers began to desert Krishnadevipeta and built themselves huts upon the high ground about three-fourths of a mile away; year by year others followed their example, the collection of huts became a village and was called "Lakshmipuram." Lakshmipuram can now count her children by the thousand, while the parent village has but a few hundreds left.

Lakshmipuram	(approximately)	2,000
Krishnadevipeta	(")	400

Lakshmipuram is built upon the bank of a large geddah, through the bed of which, about 40 feet below, a continual stream of water flows. To the east of the village, there is a large piece of patta land (*vide* sketch attached) which would be an excellent site in every way—a commanding and healthy situation, good water and plenty of it and within a couple of minutes walk from the "Sunta," the centre of supply in that part of the taluk. The village munsif, Chitikila Nukayya, and a rich villager, Chintalob Raju, are willing to accept a contract to build the police station, lines and stockade. All the materials (bricks, tiles, chunam, &c.) for pucka buildings can be made on the spot. The village munsif and several others have built themselves pucka houses and the materials used seem to my unprofessional eye to be excellent.

With regard to the site suggested by the Agent—*i.e.*, the high ground about 200 yards at the back of the present station—it is very little higher than the present site, and would not, I think, prove a much healthier one, it is too close to the low, swampy ground. I understand that the Agent is inclined to disapprove of removing the police further away from the bottom of the ghâts. Krishnadevipeta is about 3½ miles from Koyyur and 4 miles from Peddavalasa ghât. Distance from present to proposed site is under three-fourths of a mile.

There is a final reason—not the least one—why the station should, I think, be removed to Lakshmipuram. The police, whilst affording a certain amount of protection to the village, would themselves be less likely to be attacked; and the villagers, if they did not assist the police, would think twice before assisting the enemy by supplying them with the sinews of war, as I am credibly informed they did when Krishnadevipeta was attacked last year.

Waltair,
19th July 1892.

From H. G. YOUNG, Esq., Superintendent of Police, Vizagapatam District, to the Inspector-General of Police, Madras (through the Deputy Inspector-General of Police, Northern Range), dated Vizagapatam, 31st December 1892, No. 17.

I have the honour to bring to your notice that both the station and lines at Krishnadevipeta are in very bad repair. When I inspected them on the 26th of last month, I found that the floors of the huts were on a level with the water in a well hard by. Owing to the general unhealthiness of the place and to the situation of the lines, the men doing duty at this station are constantly falling sick and very considerable difficulty is experienced in getting men to serve here. Under the circumstances explained in this letter as well as in my No. 842, dated 3rd August 1892, I have the honour to request that the work of erecting necessary buildings at Lakshmipuram may be treated as urgent, and that Government may be asked to direct the Department of Public Works to prepare the necessary plan and estimates at a very early date.

No. 17.

I strongly advocate the very early construction of these buildings. When recently at Narsapatnam, the Inspector told me that not a constable at Krishnadevipeta had his family living with him. The usual unhealthiness of the place has been aggravated by the low, marshy ground on which the present buildings are situated. Pucka huts and lines are urgently required.
