28th February 1893, No. 525 W., Public Works.

GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

Buildings and Roads.
Civil Works.

Order—dated 28th February 1893, No. 525 W., Public Works.

His Excellency the Governor in Council observes that the procedure in regard to the submission to Government of budget estimates of works to be carried out by the agency of the Public Works Department is becoming unsettled and that in some cases duplication of work occurs. It is desirable that this matter should be placed on a proper footing.

2. It had long been customary to look to Superintending Engineers for complete budget estimates of the requirements of all departments within the limits of their circles, but in recent years a practice has grown up whereby the heads of certain departments, *e.g.*, Police, Jails, Registration, &c., submit direct to Government additional lists of works. His Excellency the Governor in Council considers that this practice may with advantage be extended to all departments so far as *civil works* are concerned. Heads of departments will therefore be expected to submit by 1st October in each year complete lists of their requirements in the accompanying form, the works being entered in each case in the order of urgency. The lists will include all departmental demands under "Provincial and Local Civil Works" for *original* works,* whilst minor works † and repairs will be included in the budget estimates of *Superintending Engineers*. The budget estimates of Superintending Engineers will also include Provincial roads and buildings required for the use of the Public Works Department. Any provision made by Superintending Engineers on account of Local Fund works, original or repair, should be based on the specific approval to the entry in each case of the local authority concerned. All heads of departments will submit their budgets through the department of the Secretariat to which they are subordinate.

* Costing more than Rs. 500.
† Costing Rs. 500 and below.

3. Superintending Engineers will furnish heads of departments with any information they may require in regard to works including previous expenditure that may be necessary for the preparation of the budget lists.

4. The following are the heads of departments who will submit budget estimates under these orders :—

Board of Revenue (Land Revenue, Forest and Customs).
Registrar of the High Court, Appellate Side.
Archdeacon of Madras.
Inspector-General of Jails.
Inspector-General of Police.
Director of Public Instruction.
Surgeon-General with the Government of Madras.
Inspector-General of Registration.
Presidents of District Boards.
Presidency Port Officer.
Registrar, University of Madras.
Superintending Engineers.
Consulting Architect.

5. These orders do not apply to the budget estimates of Irrigation works.

Chepák.

SIR,

With reference to G.O. Public Works, No. 2815 W, dated 6th November 1895, I have the honor to state that there are no original works costing over Rupees 500 to be proposed for execution by the Public Works Department in 1896/97, in accordance with G.O. No. 525 W, dated 28th February 1893.

2. The provision of a residence for each Port Officer who is not already supplied with one must cost over Rupees 500, but the matter is under consideration in

in the Public Works Department.

3. No lighthouse works are proposed pending the orders of Government on Mr. Ashpitel's Scheme in connection with Lights, Lighthouses and Lighthouse Keeper's quarters generally.

I have the honor to be,
Sir,
Your Obedient Servant,

Charles L. Hewett

P. W. DEPARTMENT.

READ the following:—

FOR ORDERS.

The procedure in the P. W. D, in regard to the preparation of budget estimates of Civil works is becoming unsettled. It has long been the practice to look to Suptg. Engineers for the submission of budget estimates of all works to be carried out by the agency of the P. W. Dept. within their circles. But in recent years, demands from certain Departments e.g. Police, Jails and Registration come up direct to Government in separate lists

lists from the heads of those departments. It thus happens that duplicate lists of works for inclusion in the ensuing year's budget are communicated to the Chief Engineer. The departmental lists not infrequently come in after the Chief Engineer's budget has been framed. It sometimes happens that Suptg. Engineer's budgets include departmental demands which would otherwise be left out. In other cases they do not. It will be thus apparent that not only is there duplication of work under the present system but that there is also likely to be some amount of confusion. As an instance in point, attention is invited to the accompanying C. No 950 in which the Director of Public Instruction brings forward a number of works for inclusion in the budget for 1893-94 long after that

V 9/10

budget has been settled. The list reached this office on the 2nd instant.

To admit of proper consideration being given to works for inclusion in a budget the demands should reach this office by the 1st October preceding, as the rough estimate of probable requirements has to reach the Financial Department by the 1st November.

It is submitted that if Suptg. Engineers are to continue to frame budget estimates of expenditure, all heads of departments should be instructed to send in their demands to those officers, and not to Govt. direct. If on the other hand departmental officers are to submit budget estimates to Govt., then the estimates of Suptg. Engineers should no longer come to the P.W. Secretariat but should be sent to the heads of those departments.

The

The only

Suptg: Engineers would then submit to this department, would be demands on account of P. W. buildings.

13/2/93

O.U.
13.2.93

I think the Departmental demands for all works other than minor works which S.E., can sanction should be sent direct to the Sec.ʸ to Govᵗ P.W.D. by 1st October. S.Es would then budget only for minor works & repairs.
