From, W. Jopp Esquino, Executive
Engineer, District Eastern Division,
to the Superintending Engineer,
2nd Circle, dated, Berhampore,
20. December 1892, No 5381.

Under Code para 34, Chapter
IX, Vol I of Government of India
P.W.D. Code, I have the honor
to report that on the 10th instant
a passenger along the road in
the neighbourhood of the Silana-
-garam Quarry was killed by
a fragment of rock blown from
the hill during the blasting
operations.

2. I send herewith a copy of
the report of the Amicut Superintendent
-ent, No 327 of 13.12.1892, from
which you will learn that every
precaution was taken but the
deceased refused to be restrained
from making use of the road at
the time of the blast.

(Enclosure)
From the Amicut Superintendent
District, to the Officer in charge of

Head Quarter Sub D^y, date 13th
December 1892, No. 327

I respectfully beg to report
that on the 10th instant at about
3 P.M. Seltanagaram Quarry maistry
arranged for blasting big blocks
in the quarry and fixed a red flag
near the ferry on the river side and
another near the Head sluice
Siltanagaram. Besides this he kept
men at the two sites to prohibit
passengers going by that way.
Almost all the passengers stopped,
but one of them did not care the
warnings of the maistry & the
watchers and went as far as the
place where the parapet of Seltan-
nagaram under sluice was pre-
viously damaged by the fall of
a big block. Then the maistry
embraced him and pushed him
back. Thereupon the men who
were ready to blast the blocks in-
giving the man went away.
Afterwards, a
small stone came out from one
of the blocks and struck him
on his forehead. He immediately
fell down and breathed his

last after a quarter of an hour.
The Police enquired the maistry
the men that blasted the blocks,
and the men of the deceased
and held a panchnayt, by
which, permission was given
to burn the corpse on the same
evening.
