13TH JUNE 1892, No. 532 I., PUBLIC WORKS.

GOVERNMENT OF MADRAS.
PUBLIC WORKS DEPARTMENT.

Irrigation.
Establishment.

READ—the following papers:—

From E. C. JOHNSON, Esq., Collector of Ganjam, to the Secretary to Government, Revenue Department, dated Chatrapur, 31st March 1892, Ref. on C. No. 627 Ver.

The Executive Engineer in charge of the Rushikulya project has applied to me for the urgent acquisition of land required for 20 miles of distributary channels which should be dug between this and August next, by which time they will be required for the supply of water from the channel.

2. This land all lies in zemindari, and though, owing to the channels being narrow, the extent of land to be taken up is not large, it is spread over so wide a range that the measuring and settlement of compensation will involve a great deal of work, far more than the ordinary taluk establishment could possibly cope with. In fact, the work of acquiring the lands for distributary No. 1, which was deputed to the Aska Deputy Tahsildar, remains still incomplete owing to pressure of other work.

3. The Executive Engineer points out that the land he now applies for is required for part of the distributary channels only; that very shortly the land for other distributaries will have to be acquired, as well as the land necessary for the Ichapur and Gulleri channels. He therefore urges the necessity of a special officer being appointed.

4. At the same time I find that the land over which the Berhampore-Govindapur road (commenced in the famine of 1888-89) passes has never been acquired and claims for compensation in respect of it are being presented to me from day to day. I have now ordered the Local Fund Engineer, who will be in charge of the work from 1st April next, to send in applications for the land. This again will furnish a considerable amount of work under the Land Acquisition Act.

5. It is impossible at present to estimate the length of time for which a special officer will be necessary; the work to be done will certainly take not less than six months. I have the honour to request that a Special Deputy Collector be sanctioned for six months and would recommend that M.R.R. Budavarapu Narayanamurti Puntulu, now Acting General Charge Deputy Collector, Chatrapur, who will be almost immediately relieved of that post by M.R.Ry. D. Venkata Sastri Garu, be appointed. He will require an establishment of—

									RS.
One clerk	on Rs. 40	...	...	...	...	...	...	...	40
" "	on " 20	...	...	...	...	...	...	...	20
" muchi	on " 10	...	...	...	...	...	...	...	10
Two peons	on " 7 each	...	...	...	...	...	...	...	14
Three surveyors	on " 25 "	...	...	...	...	...	...	...	75
Six lascars	on " 6 "	...	...	...	...	...	...	...	36
Total ...									195

6. This is less by one 20-rupee clerk than what was sanctioned for the Special Deputy Collector who was appointed to acquire lands for the main canals and reservoirs.

7. I consider it economical to appoint at once a sufficient staff of surveyors whose services, as also those of lascars attached to them, will be dispensed with as soon as their work is done; until the survey is made the Deputy Collector cannot send in the notifications which are necessarily preliminaries to all acquisition work, and the want of them would cause him to waste much of his time at first.

8. I therefore request that an establishment as mentioned above may be sanctioned and that, as the matter is urgent, the appointment of the Deputy Collector and sanction for establishment may be communicated to me by wire.

No. 1892, Revenue.

Transferred to the Public Works Department (Irrigation Branch).

FORT ST. GEORGE,
8th April 1892.

(Signed) R. H. CAMPBELL,
Acting Assistant Secretary.

No. 2218 C.

Retransferred to the Revenue Department with the remark that the matter cannot be dealt with in this department till it is known what *approximately* will be the total cost of the establishment *including* the Special Deputy Collector's pay and what portions will be charged to this department and to Local Funds respectively.

27th April 1892.

(Signed) G. T. WALCH,
Chief Engineer for Irrigation.

From E. C. JOHNSON, Esq., Collector of Ganjam, to the Secretary to Government, Revenue Department, dated Chatrapur, 16th May 1892, Ref. on C. No. 627 Ver.

Referring to G.O., dated 29th ultimo, No. 2204, I have the honour to state that the monthly cost of the establishment proposed will be, as stated in my previous letter, Rs. 195, to which must be added Rs. 250, the pay of a last class Deputy Collector. The Deputy Collector and the whole of the establishment except the surveyors and lascars will be required for six months, while the surveyors and lascars may probably be dispensed with after four months' work. Thus the total cost will be approximately as follows:—

Deputy Collector's pay	...	Rs. 250 × 6 =	1,500
Establishment excluding surveyors and lascars	...	84 × 6 =	504
Surveyors and lascars	...	111 × 4 =	444
Travelling allowance and contingencies	...		2,448
			562
		Total	3,000

2. The work to be done on account of Local Funds is approximately one-sixth of the whole, so that of the cost as given above five-sixths may be debited to the Public Works Department (Irrigation Branch) and one-sixth to Local Funds.

No. 83, Revenue.

Transferred to the Public Works Department (Irrigation Branch) with reference to its endorsement, dated 27th April 1892, No. 2218 C.

FORT ST. GEORGE,
1st June 1892.

(Signed) C. A. GALTON,
Secretary to Government.

ORDER—dated 13th June 1892, No. 532 L., Public Works.

The establishment proposed to be employed by the Collector of Ganjam in his letter of the 16th May 1892, at an estimated cost of Rs. 3,000, for settling compensation for land required for the Rushikulya project and the Berhampore-Govindapur road is approved. One-sixth of the cost will be debited to Local Funds, the balance of the proposed outlay, viz., Rs. 2,500 being met from the unexpended balance* of the provision of Rs. 23,988 made for land acquisition establishment in the revised estimate for the Rushikulya project, printed in Proceedings of the Madras Government, No. 482 L., dated 4th September 1890.

* Rs. 3,464—vide office-note from Examiner of Public Works Accounts, No. 587, dated 23rd April 1892.

2. The following deferred telegram will be sent to the Collector of Ganjam:—

"Your letter, 16th May. Land acquisition establishment proposed approved."

(True Extract.)

(Signed) G. T. WALCH,
Joint Secy. to Govt., P.W.D.,
Irrigation Branch.

To the Chief Engineer for Irrigation.

FROM

G. D. Wybrow Esq
SUPERINTENDING ENGINEER

FIRST CIRCLE.

TO

THE CHIEF ENGINEER

PUBLIC WORKS DEPARTMENT.

Camp Russellkonda,
~~BOWLING GREEN~~, 12 February 1893.

SIR,

In reference to your endorsement No. 5492 C. dated 24th December 1892 on copy of the office note from the Examiner of P.W. Accounts, I have the honor to explain the circumstances which led to the grants under '45 Civil Works' Local of Godavari Eastern & Rushikulya Div. for the current year, being decided as below—
Godavari Eastern Division.

2. The subjoined statement furnished by the Executive Engineer, shows that the actual outlay under Incorporated Local to end of November 1892, amounts to Rs. 5748, against Rs. 5898, noted in the Examiner's statement, the difference of Rs. 150, representing deductions on account of refunds as per accounts of November 92.

Item	Name of work	Grant	Outlay
	<u>Major</u>		
1	Widening & gravelling the Godavari left embankment in the first 4 miles below aricut for adaptation as a road.	5748	1028

	Rs. 0/-	574	1028
<u>Minor</u>			
2 Proposed sluice to supply Kottipalli Tank Bank Canal	-	-	10
<u>Repairs</u>			
3 Maintenance of Kotturallanjai Junction Canal for 1892-93	5860	4347	
4 Do of the road on the Godavari left Embankment in the first 14 miles below Anicut -	300	261	
5 Dredging the Channel at S. S. Wharf below A. loading -	100	- 3	
<u>Tools & Plant</u>			
6 Repairing ferry Ballacuto Kotturallanjai Junction Canal	250	100	
Total -	5084	5748	

The excess over grant on the first named work is within the permissible limit of Rs. 500, under para 59 Chapter XIV Volume II India Code. The Engineer reports that the work has been completed & Completion Report sent to the Examiner of P. W. Accounts.

The second item is an incomplete work of last year requiring no special appropriation under the Code para quoted supra.

The fourth & fifth items being below grants call for no comment. Regarding the third & sixth items, I beg to refer you to paras 4 & 5 of G.O. No. 2560 dt. dated 28 December 1892, from which it will be seen that the Local & Municipal Department has already been requested to provide the additional allotment required for the maintenance of Kotturallanjai Junction Canal, and to resume the sum of Rs. 150 surrendered from the grant for repairing the ferry boat on the Kotturallanjai Junction Canal.

5/63 Rushikulya Division -

3. As regards the excess over appropriation in this Division under 45 Civil works Local the Executive Engineer explains that the expenditure shown in the Examiner's statement includes $\frac{1}{6}$ share of special Establishment employed for the acquisition of land, which is debited to this head under G.O. No. 532 I dated 13-6-92. He has however been informed that no special provision of funds by this Department to cover this debit appears to be necessary, since the grant for the Berham-pore to Govindapur Road has been resumed & transferred to the Revenue Department, & a write-back debit to "Civil Department" in the Divisional accounts, by book adjustment will wipe out the transaction.

I have the honor to be,
Sir,
your most obedient S^t

J. D. D. W. W.
Supt. Engineer 1st Circle
