4TH MARCH 1893, No. 568 W., PUBLIC WORKS.

GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

Buildings and Roads.
Civil Works.

READ—the following papers :—

G.O., dated 19th November 1892, No. 2148, Judicial.

Read—the following letter from the Inspector-General of Jails, dated 24th October 1892, No. 5000.

I have the honour to submit plans and estimates, amounting to Rs. 15,600, for the construction of 60 warders' huts for the accommodation of the warder establishment of the Coimbatore Central Jail.

2. In his letter No. 16, dated 14th January 1891, Colonel MacDonald Smith stated that the Superintendent of the Jail proposed to build 78 huts at a cost of Rs. 3,120, *i.e.*, at Rs. 40 per hut, and in his letter No. 71, dated 19th February 1891, he added that he considered they could not be built under Rs. 50 a hut. In G.O., dated 7th March 1891, No. 448, Government sanctioned the latter proposal, and in G.O., dated 7th July 1892, No. 713, this sanction was renewed.

3. By August last little or no progress had been made towards the construction of these huts beyond the putting in of the foundations and the purchase of timber. It further appears that the whole of the buildings are to be of mud work, and the wood work was to be jungle wood of the cheapest kind. Indeed it is evident that it is impossible to build much of a house for Rs. 50.

4. The need for these huts is very great, as the warders at present live so far from the jail that a sound system of guarding cannot be introduced. At present 42 men live in the old lines which are to be taken over by the Police and the rest are scattered through the bazaar.

5. In erecting buildings of this kind which are intended to be permanent, it appears to be very poor economy for the Jail Department, without skilled supervision or instruction, to erect *kutcha* structures, such as it has been proposed to build at Coimbatore. Jail labour can be made available if required, but all the technical work of building is so far better done by the Public Works Department that I believe it is cheaper in the end to let that department erect permanent buildings of good materials even though the initial cost is heavier. The accompanying estimates have therefore been obtained and are submitted for the approval and sanction of Government. If approved, the timber already purchased by the jail will be otherwise utilized and the foundations laid will, I believe, also be capable of utilization.

Order—dated 19th November 1892, No. 2148, Judicial.

The plans and estimates are approved and transferred to the Public Works Department.

(True Extract.)

(Signed) N. S. BRODIE,
Ag. Under-Secretary.

From J. C. LARMINIE, Esq., Superintending Engineer, IV Circle, to the Chief Engineer, Public Works Department, dated Poiney, 18th February 1893, No. 59 W.

With reference to your memorandum No. 5417 C., dated 20th December 1892, I have the honour to retransmit the estimate for constructing 60 warders' huts in the Central Jail, Coimbatore, duly revised with the following observations :—

(1) The assumption in para. 2 is correct.

(2) No latrines were provided as the Superintendent proposes to erect open air pise work latrines by jail labour as was intended originally. It is considered that they will be sufficient.

(3) Sound work is more likely to be obtained in a 9″ wall, as no stone less than 9″ should be allowed.

(4) A note has been made at the foot of the abstract estimate as to the reductions to be effected by the use of prison labour.

Note by the Chief Engineer, Public Works Department.

The estimate for constructing 60 warders' huts in the Coimbatore Central Jail has been reduced from Rs. 15,600 to Rs. 14,040.

2. For an enclosure wall 7′ high and about 48′ long, without piers and built of rough stone in clay (adhesion practically *nil*), a breadth of 9″ is not sufficient.

3. Possibly, these blocks of huts are proposed to be built in a sheltered position, in which case they might stand, but it is thought that the outer wall of each block should be of stronger section, or built in mortar, or provided with piers at 10′ intervals.

27th February 1893.

(Signed) G. T. WALCH,
Acting Chief Engineer, P.W.D.

ORDER—dated 4th March 1893, No. 568 W., Public Works.

The estimate, as revised by the Superintending Engineer, amounting to Rs. 14,040, for constructing 60 warders' huts in the Central Jail, Coimbatore, is sanctioned for execution by the Public Works Department when funds are available.

2. Attention is called to the note by the Chief Engineer.

3. This sanction has been registered as Provincial No. 119 W. of 1892-93 and classified as Civil Buildings, Original Works.
