GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

Buildings and Roads.
Civil Works.

READ—the following paper:—

Proceedings of the Board of Revenue (Separate Revenue), dated 21st Jan. 1893, Mis. No. 258.

Read—the following letter from V. A. BRODIE, Esq., Acting Collector of South Canara, to the Secretary to the Commissioner of Salt, Abkári and Separate Revenue, dated 14th November 1892, No. 4707.

With reference to Board's Proceedings, dated 9th February 1891, Mis. No. 365, I have the honour to submit herewith, for sanction and provision of funds, a plan and estimate for the construction of a new custom-house at Barkur amounting to Rs. 6,600.

2. As already reported in my letter No. 4720, dated 12th December 1890, the existing custom-house, which was constructed of mud with stone pillars some 35 years ago, is now become so old and is in such a ricketty and dilapidated condition that every Port officer who has of late years inspected the building has condemned it as dangerous and unsafe for occupation and recommended its early reconstruction. The temporary repairs executed to it in 1890 have not strengthened the building and there is imminent danger of its collapse if it is allowed to stand as it is any longer. The construction of a proper custom-house at the port has also now become a matter of necessity, as the trade is considerable and the late repeal of the Goa Treaty and the consequent levy of customs duty at the port require that the custom-house should be a well protected one and there is at present not a single room where the daily collections of customs duty may be kept with any degree of security even for a day or two pending remittance to the taluk treasury which is several miles distant from the port.

3. I have therefore the honour to request that Government may be moved to sanction the estimate as early as possible and to provide the necessary funds for the execution of the work as an urgent one during the present working season.

No. 3 M.

Forwarded.

(Signed) J. C. LARMINIE,
Superintending Engineer, IV Circle.

5th January 1893.

Resolution—dated 21st January 1893, Mis. No. 258.

The plan and estimate for constructing a new custom-house at Barkur for Rs. 6,600 is submitted for the sanction of Government.

2. The Collector reports that though the old building was repaired in 1890, it is in imminent danger of collapse and that therefore the construction of the new building should be taken up as an urgent work.

3. Barkur has become an important port owing to the collection of duty on the large exports of rice to Goa in consequence of the termination of the Anglo-Portuguese Treaty in January 1892 (*vide* also Board's Proceedings, dated 10th January 1893, Mis. No. 23).

(A true Copy and Extract.)

(Signed) EDMUND MILLETT,
Assistant Secretary.

Mis. No. 706, Revenue.

The plan and estimate are approved and transferred to the Public Works Department for sanction.

FORT ST. GEORGE,
17th February 1893.

(Signed) E. GIBSON,
Ag. Secretary to Government.

ORDER—dated 13th March 1893, No. 684 W., Public Works.

The estimate, amounting to Rs. 6,600, for constructing a new custom-house at Barkur in the South Canara district, is sanctioned.

2. The question of providing funds for the work next official year will be considered after the demands on account of the incomplete works of 1892-93 have been complied with.

3. This sanction has been registered as Provincial No, 122 W. of 1892-93 and classified as Civil Buildings, Original Works.

TECHNICAL NOTE:

Name of Work New Custom House at Barkur South Canara Dist.

Amount of Estimate, Rs. 6,600

PARTICULARS OF ESTIMATE.

Main Building Office Rs. 6000

Subsidiary Buildings ,, —

Contingencies 5% ,, 298

Petty Supervision 5% ,, 298

Land compensation ,, —

Total Rupees 6600.

PARTICULARS OF CONSTRUCTION.

Surface soil } Sandy

Sub soil }

Foundations are the ends 5 feet in depth the lower 2 feet the concrete and 7 feet in width & the brick 3 feet width & laterite in thickness.

Basement is the central 3 feet high & brick & laterite in thickness.

Walls are the central 3'-9" high & the ends the lower & brick with laterite in thickness with segmental arches over doors & windows & relieving arches over doors & windows carried to terrace above.

Plastering or Pointing the inner faces generally are to be plastered with one coat of Chunam & whitewashed & the outer faces pointed with cement.

Flooring is to be of concrete 6 inches in thick: over & plastered with Portland cement.

Roofing is to be of Burmese tiles laid over teak or sapan rafters supported on jungle wood purlins. Ceilings to be ceiled with tarred bamboo mats.

Doors and Windows are to be of teak wood & of the description noted in the estimate & painted with 3 coats of Asiatic paint.

Roof timbers are to be of jungle wood & painted 3 coats.

Scantlings are correct except for the rafters, some which are slightly weak.

Rates are fair.

The plinth area of the main building is 2042 square feet, and the cost per square foot will be Rs. 3-3-9.

The plans and estimates have been countersigned by the Collector, South Canara and approved in the Revenue Dept Department.

REMARKS.

This estimate has been framed at the request of the Collector owing to the existing building being reported to be in a rickety & dilapidated condition as to render its immediate reconstruction necessary.

The accompanying estimate provides for erecting a new building on the site of the existing office on the land is stated to belong to Govt & is conveniently situated.

The proposed building will consist of a store room 31'6" x 15'0" & a shroff room 15' x 15'0". These two rooms will be situated in rear an office room 15' x 15' will be built in front projecting midway between the two rear rooms with a verandah 9'6½" wide as per plan.

The roof timbers are of jungle wood & the ceiling proposed for the verandah breastsummers viz 6" x 8" may be increased to 6¼ x 8½ as the distance between points of support is 10 feet & the width of the verandah 9'0".

The rates for plastering with Portland cement & plastering with chunam are slightly in excess but the saving in the flooring if schedule rate be applied
