GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

Buildings and Roads.
Civil Works.

READ—the following paper :—

From Surgeon-Major General W. F. DEFABECK, M.D., Surgeon-General with the Government of Madras, to the Chief Secretary to Government, dated Madras, 2nd March 1893, No. 213.

I have the honour to forward, for the favorable consideration of Government, the enclosed copy of a letter from the Superintendent, Lying-in Hospital, and to request that the Consulting Architect be instructed to prepare the necessary plans and estimates for the additions and alterations proposed by the Superintendent and which in my opinion are indispensable.

2. The condition of the native delivery rooms and the bath rooms adjoining them more especially demand attention. The other alterations and additions can be carried out in connection with their extension.

ENCLOSURE

From Surgeon-Lieut.-Col. A. M. BRANFOOT, M.B., Superintendent, Government Lying-in Hospital, Madras, to the Secretary to the Surgeon-General with the Government of Madras, dated Madras, 23rd January 1893, No. 22.

I have the honour to request that the Surgeon-General will be good enough to request Government to sanction certain additions and alterations to the central block of this hospital and that with this object the Consulting Architect to Government may be requested to prepare the necessary plans and estimates for submission.

2. The additions have been rendered necessary by the increase in work which has taken place in the hospital during the past two years and by the fact that the space available for offices in the hospital has always been insufficient.

3. The nature of the increased accommodation required is—

- (a) increase in the number of native delivery wards and provision of bath rooms;
- (b) increase in the delivery ward accommodation for European patients with provision of bath rooms;
- (c) improved accommodation for the Apothecary on duty;
- (d) Some provision of room for the female students on night duty and improved provision for the male students.
- (e) provision of a waiting room for patients seeking admission or for the friends of patients or others making inquiries at the hospital.

As I have said the offices are at present cramped and insufficient and some extension is much wanted, the increased accommodation can, I understand, be readily obtained by extension of buildings behind the central block.

13TH MARCH 1893, No. 690 W., PUBLIC WORKS.

No. 469, Public.

Approved and transferred to the Public Works Department.
