With reference to your endorsement
to 2928 on letter to: 14 dated 24-1-93 from
the District Judge Kurnool I have the honor
to state that the well had to be excavated
to provide water for the work during Con-
struction. It only remains now to provide
the stone lining. The provision of steps
would be more expensive than simple li-
ning and it would be better, I think, to have
a pulley and rope than steps. The water now
may be brackish but that is because it cannot
be drawn. I would advocate the completion
of the well.
