GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

General.
Account.

READ—the following papers :—

From S. D. PEARS, Esq., Executive Engineer, No. I Periyár Division, to the Chief Engineer, Public Works Department, dated Periyár, 10th February 1893, No. 260 C.E.

I have the honour to request that you will be good enough to obtain sanction of Government to purchase a lathe for the use of the Periyár workshops.

2. You will understand from your recent inspection of the shops that the amount of wear and tear to bearings, shafting rollers, &c., is very large and that repairs are incessantly required. At present a worn brass has either to be entirely recast—with such imperfect foundry appliances as we have—or sent to Madras for repairs, and days of laborious chipping have to be resorted to in many cases where a lathe would accomplish the required end in a fraction of an hour.

3. The size and description of lathe best suited to our purpose would be a self-acting, sliding, surfacing, and screw-cutting lathe; length of bed not less than 15′, height of centre not less than 10″, fitted with dog and bell chucks, one compound slide rest and complete set of tools.

4. A suitable lathe is figured at page 102 of Messrs. Richardson and Cruddas' catalogue for 1892. Its price is quoted as Rs. 1,950, which would be amply repaid before the completion of the project in saving of time and labour, and the lathe could then be transferred elsewhere or sold.

5. The General Superintendent, Public Works Stores, Madras, to whom I have referred, informs me that he has not a suitable lathe to spare.

No. 653 C.

Forwarded to the Superintending Engineer, V Circle, for the submission of an indent in the prescribed form.

(Signed) G. T. WALCH,
Ag. Chief Engineer, P.W.D.

13th February 1893.

From J. HANNAN, Esq., Superintending Engineer, V Circle, to the Chief Engineer, Public Works Department (through the Examiner, Public Works Accounts), dated Chepâk, 9th March 1893, No. 86 W.

With reference to your endorsement No. 653 C., dated 13th February 1893, returned herewith, I have the honour to forward an indent on the Director-General of Stores in England for a lathe required for No. I Periyár division.

From the Examiner, Public Works Accounts, dated 18th March 1893, No. 897 C.

Order—dated 24th March 1893, No. 822 W., Public Works.

Ordered that the indent be forwarded to the Director-General of Stores for compliance.

[Here enter No. 823 W., Public Works, dated 24th March 1893.]
