pectively, the Super Engineer II
Circle submits for sanction his
supplemental estimates for en-
closing the compound of the new
Office at Pattikonda & Allagadda
in the Kurnool Dist.

Pattikonda Taluk Office - This is:
- Final estimate amounting to Rs. 470 pro-
- vide for fencing in the compound
of the Taluk Office with barbed wire
for a length of 1166 with the neces-
sary straining & intermediate
posts, including fixing & carrying
of materials to site of work.
Allagadda Taluk Office - This is:
- estimate amounting to Rs. 500 provide
for fencing in the compound of the
Taluk Office with barbed wire for
a length of 1336 Rft with the
necessaries

necessary training & intermediate posts.

In both the estimates no provision has been made for droppers between the intermediate posts, it is usual to provide droppers 6 feet apart to stiffen the wires.

The rates cannot be checked but when compared with the supplemented estimate for fencing around the Jangankonda: Cholepuram Taluk, & in the Trichinopoly Dist. they vary considerably as noted below:-

Barbed wire	18.0000	cut	20.6000	cut
Training post	30.0000	each	15.2000	each
Intermediate post	1.8000	do	2.4000	do
Droppers			1.4000	do

In this may be added the value of sink at Rs 4 each, making cost of training post 19 Rs each.

Where is this barbed wire obtained from? England?

Also, what is the average rate according to the S. S. P. list -

As there are several buildings the items enclosed might be as much if the R. W. Office sent a general order to England.
