No. 7000

From,

Executive Engineer

Eastern Division Kistna.

To,

The Superintending Engineer

2nd Circle.

Dated

Despatched

Received

Sir

24 } March 1893.

Referring to G. 6 No. 724
W. dated 15-3-93 Communicated
to me with your endorsement
No 3153 No dated 20-3-93. I have
the honour to offer the following
remarks which I trust you
will lay before the Chief Engr.
for his Consideration with as
favourable comments as you are
able to make.

2 In the G. 6 referred to, my
application for 1 1/2 years furloughs
has been refused. The Chief Engr.
assigned is, that there is much
work to be done in April, May
& June, that cannot be done at
any other time of the year, & that
as the Supt. Engr. is unable to
provide an officer from his own
circle & none other is available
for transfer owing to many officers
being on leave the furlough had
to be refused.

3 In reference to this I beg

Peter & M. Jofalo;
I desire with much respect

beg to submit that there are no works of any considerable importance either to be undertaken or which will be in progress during April, May & June in this division.

4 Even in the matter of routine silt clearances, owing to the decision that silt accumulations are not this year to be cleared at the heads of the Ryons & Bandur Canals, there is but little work to be done during the closure of Canals. What there is, is of extreme routine nature and can be carried out with the greatest ease. There are no new Capital production works to be started, except the Akhedu Channel, a distributary from Bandur Canal, for prosecution of which arrangements have already been made. Such project works as are in hand, are comparatively small distributaries, and are ~~near~~ ⁱⁿ completion & entail no difficulty whatever. The ancient head works repairs, are insignificant, & of the usual routine nature, such as packing aprons, pointing &c. The repairs of floating plant, which is under the immediate charge of the workshop Supt., is already in hand & is progressing satisfactorily; in the same manner as it has always done in former years.

5 From these considerations, it will be seen that there are no works of any considerable importance that necessitate ^{any} ~~my~~ personal supervision or the transfer of any officer of special experience to this circle.

6 With the Supt. Engr's kind consideration, arrangements might be made without the slightest risk to Government interests by putting Asst Engineer Mr. Pereira in charge of the division, one of the senior upper subordinates of the division being kept if necessary at Bezwada to work under him in special reference to his sub divisional work.

7 Mr. Pereira is an officer of considerable experience of all the work in progress in the division, especially at the workshops and at head quarters. He is also well acquainted with the Southern Sub. Division, having been at one time in charge of it himself for a considerable period. He has also already done duty for me to my satisfaction on an occasion when on privilege leave, and the probable period of

Peter & M. Jofalo;
I desire with much

of his acting on this occasion would not extend over more than three months -

8 In these circumstances it is that it will be considered that the furlough may be granted to me without any risk to my interests.

9 From consideration of my health I am extremely anxious to get away from India before the hot weather fully sets in.

Since December 179 I have spent every hot weather in the field except two and during that period, over 14 years I have had but 10 months leave & returned from this 10 months leave 5 years and 2 months ago -

These 14 years were not spent in good and healthy sleeping but for the most part in sultry & very trying places. It is not for me to say more on this point except that I do not recollect having spared myself.

10 I now feel that it is advisable in the interests of my health to leave the country before the ensuing hot weather and I hope that in consideration of my long continuous service it will be deemed feasible to accept the suggestion that I have made & grant me furlough from as early a date as possible in April.

I have the honor to be

Yours most obedt. Servt.

Exc. 29/3/93

P. W. DEPARTMENT.

30/3/93

Read the following:-

Letter 3219 K.S. 25/3/93
from V. P. II Circle
forwarding & supporting
one from Mr. Joffe
asking reconsideration
of P.O. 724 15/3/93 -

FOR ORDERS.

1 The number of officers
absent or just-going, as

On furlough	18.
- Priv. leave	6.
- Other duty	2.
	26-

or just one third of
full strength.

2 The proportion of absence
allowable in this department
has never been
laid down but when
the present organization
was sanctioned the
allowance for absence
was put down as 7.

3 In view of the small
number of officers absent
I considered it my
duty not to recommend
the application for
furlough of Mr.
Peter & Mr. Joffe,
I desire to state that

but I considered, &
still consider, that
the advisable limit
of number of absentees
has been reached, if
not indeed exceeded.

FOR ORDERS.

Mr. Peters has since
obtained sick Certificate
for one year.

It is of course for
Governement to decide
whether there is to be
a limit to the number
of absentees & if so
whether that limit
has been reached.

One of the absentees on
furlough, will probably
return about the
middle of May & the
C. Officer on Priv. leave
will be back about
the end of June.

When I dealt with
Mr. Joffe's orig. Application
I was not possible
to take the opinion of
the Acting Chief L.
for Irrigation as he
was away but he had
declined to recommend
Mr. Martin's priv. leave
because the C. Officer
not about as necessary
officers for the work
required during the

+ Mr. Martin has
since got his priv. leave

296/3

The Acting Chief L.
for Priv. will be back
in a day or two & it
will be well to take
his opinion, if it
be decided that the
Priv. leave, or otherwise
of the leave is to turn
upon the work to be
done and not upon
the number of officers
absent.

(6) It will be noticed
that on the orig. applica-
tion the Sup. L.
said that if Mr. Joffe
was allowed to go
a suitable officer
to take his place
should be "sent," he
has said there is one
at hand, the former
Assistant L.

(7) Both Mr. Joffe &
the Sup. L. say
that there is but
little to do in
April - May & June
that there should
be the case indicate
conditions very
different from
any I have ever
known in a long
series of years in the

hasari & Kista
+ see that it is
said that it has
been decided but
the necessary to
clear all in the
Hqrs & keep part
of the manifestum
Causal of a decision
which could not
have anticipated.
+ sent clearance,
shewly send the
next orders
prohibiting the
deport of April
in place with the
used, request that
Causal clearance
+ helpful
Provisional clearance.
unclear

(8) An alternative in
the conditions
of the case which
tells in favour of Mr
Granting Mr Joffe's
leave, if the number
of officers absent be
not considered a
fatal bar, & that
since the original
application was
dealt with it has
been decided to

896
L
state the Indian
Division instead
of the Army it is
then intended, into
the Kista & Pota
Division at the
end of March; & as
there is also another
Change of conditions
which tells in the
same direction
and that is, that
when the original
application was
dealt with I did
not know when to
set an office to
take Mr Joffe's place,
but now a suitable
one is available,
the services of Mr.
C. A. Smith being
being no longer
wanted in the
for famine relief.
It has just been
decided to send
this officer to the
Sindia Division
but ~~it~~ it will
be better to direct
him to the more
important Pota

11 CIRCLE.

Dated 25th March 1893.

From,

Superintending Engineer.

II Circle

but of course the usual routine
work in the way of annual repairs
is in progress except silt clearance
work in Ryne's Canal and ^{the} upper
part of the Masulipatam Canal,
as it has been decided that it is not
necessary to clean silt from these Canals
this year.

3. Under these circumstances, I
think furlough may be granted
to Mr Jopp from about 20th April.
At that time arrangements for
carrying out, during April and
May, the ordinary annual routine
works will be completed, and the
works themselves will be in progress,
and then I consider Mr Periera ~~may~~
may be put in charge of the Eastern
Division and that he should be ~~able~~
able to carry on the work until
end of June or afterwards, if you
cannot transfer from another
circle, a suitable officer for the
change of the Division.

I have the honor to be,

Sir
