Order—dated 8th December 1892, No. 2880 L., Local and Municipal.

The reports of the several District Boards for 1891–92 having been separately reviewed in the Proceedings read above, the Government now proceeds to deal with them collectively.

2. It is to be regretted that, in spite of the repeated orders of the Government, there was no less delay in the submission of the administration reports than in 1890–91. They were, on an average, 23 days late against 22 days in that year, and only those of Chingleput and Nílgiris were received on the prescribed date, while those of Salem and Bellary were 52 and 56 days, respectively, late. The Government must insist on punctuality in future. The reports and the accompanying statements were prepared with greater care than in the previous year. Those received from the districts of Salem, Chingleput and Nílgiris were the best, while those from Cuddapah and Kistna were the worst.

I.—GENERAL.

3. *Administration.*—During the year under review, six of the seven Taluk Boards in Cuddapah were dissolved and three others were formed in their stead, while in Kurnool three additional Taluk Boards were constituted. Seventeen additional Unions were formed in the districts of North Arcot (2), Chingleput (1), Coimbatore (1),

Cuddapah (1), Godávari (5), Kistna (2), Salem (4) and Vizagapatam (1), while one of the existing Unions in Cuddapah was abolished. With these alterations the system of Local Fund administration continued to be the same as in previous years.

4. *District Boards.*—Appendix I shows the constitution of the 21 District Boards on the 31st March 1892 and the average attendance of the members at the meetings. On that date there were 46 vacancies against 45 on the same date in the previous year, and consequently the number of official members exceeded the maximum limit of one-fourth prescribed by the Act in all districts, except South Arcot, Chingleput, Kistna, Kurnool, Madura, Nílgiris and Tinnevelly. The vacancies alluded to were not, as they should have been, filled up soon after they occurred. There was a delay of more than a month in this respect in the districts named in the margin. The proportion of nominated official members, including those who were *ex-officio*, to the total number of members on the several District Boards was 25·7 per cent. against 23 per cent. in the previous year, and that of the elected members was 42·3 per cent. against 44·5. Under the election rules in force, one-half of the number of members sanctioned for each District Board were elected by the Taluk Boards in all districts except Nílgiris, in which there were no Taluk Boards, and Kurnool, where the privilege of election was not conferred on those Boards before the close of the year. Only the District Boards of Chingleput, Coimbatore, Godávari, Kistna, Malabar, Salem and Tinnevelly possessed the full complement of elected members.

Kistna.
Madura.
Tanjore.
Trichinopoly.

The Boards held altogether 249 meetings or 6 less than in the previous year, excluding 3 meetings, against 8 in that year, adjourned for want of a quorum. The number of meetings held by the South Arcot and Cuddapah Boards declined and was less than 12, as was also the number held in Trichinopoly and Vizagapatam. The average attendance of members at each meeting was, as in 1890–91, 15 out of an average strength of 31 members and was unsatisfactory, being less than 50 per cent. of the strength. The attendance of both classes of members in South Canara and Nellore and that of the non-official members in Nílgiris, Salem and Vizagapatam were fair, but that of the official members in Cuddapah, Kistna, Vizagapatam and Godávari and that of the non-officials in Anantapur, Ganjam and Trichinopoly were particularly poor, viz., less than 30 and 40 per cent. of their respective strengths. The worst cases of remissness have been duly noticed in the individual reviews, and the Government trusts that the necessary action has been, or will be, taken by the Presidents of the District Boards concerned.

5. *Taluk Boards.*—Appendix II shows the constitution and attendance of the 86 Taluk Boards. On the 31st March 1892, the number of members on 14 of these Boards was below the minimum (12) fixed by the Act. In 22 of these there were 36 vacancies, and in the cases noted in the margin there was a delay of more than one month in filling them up. The attention of the Collectors concerned will be drawn to the matter. The number of meetings held by the various Boards declined by 12, but only 38 of the meetings convened, against 49 in 1890–91, had to be adjourned for want of a quorum, the Taluk Boards of Kumbakónam and Anantapur being the worst offenders in this respect. Excluding the newly formed Boards in Cuddapah and Kurnool, the 9 Taluk Boards named in the margin failed to meet once a month, as required by section 28 of the Act, in spite of the repeated orders of Government on the subject. This is discreditable, and in the majority of cases, the explanation offered could not be accepted. Taking the Taluk Boards of each district together, Anantapur heads the

list, as in the previous year, with an average of 17 meetings, and North Arcot and Ganjam are next best with an average of 16 and 15 meetings respectively. In the other districts the average varied from 14 to 12, except in Cuddapah and Malabar, where it was 9 and 11 respectively. The small number in the former case was the result of the reconstitution of the Boards, and that in the latter of some of the meetings convened having been adjourned for want of a quorum. The average attendance of the members slightly exceeded that of the previous year, being 53·6 per cent. of their total strength against 53·2 per cent. The attendance of the official members in Kistna and Malabar and that of the non-officials in North Arcot, Cuddapah and Salem were good, exceeding 66 per cent. of strength. On the other hand, the official members in North Arcot, South Arcot and Kurnool, and the non-officials in Anantapur, Bellary, Chingleput, Kurnool, Madura, Malabar and Trichinopoly, were extremely irregular in their attendance. The Presidents of the District Boards concerned have been directed in the individual reviews to deal with the worst cases under section 24 of the Act.

6. *Union Panchayats.*—Appendix III furnishes detailed information regarding the 270 Union Panchayats which were at work at the close of the year. At that time three of these Panchayats—viz., those of Pedana and Mangalagiri in Kistna and Tirupuvanam in Madura—had less than the minimum number of members (5) prescribed by the Act, as vacancies which had occurred were not promptly filled up. It is to be regretted that in the last-mentioned Union this was due to the want of public spirit displayed by the villagers. The number of official members exceeded that of the non-officials in the 21 Panchayats named below :—

Tádpatri.

Srívilliputur.
Lálgudi.
Musiri.

Proposals since submitted by the Local Boards for the reconstitution of some of these bodies have been sanctioned, and it is hoped that before long, the remainder will be dealt with in the same manner.

The Union Panchayats held altogether 3,609 meetings or on an average 13 each, against 3,084 and 12, respectively, in the previous year; but no less than 44 of them, excluding those newly formed in the course of the year, did not meet once a month as required by section 129 of the Act. The Presidents of the Taluk Boards concerned should adopt the suggestion made in this connection in paragraph 6 of the last General Review.

The Union Panchayats, with the exception of those of Dharmavaram (Anantapur), Arni (North Arcot), Krósúr (Kistna), Narsannapet, Ichápur and Russelkonda (all in Ganjam), Manachanallur (Trichinopoly) and Tirupuvanam (Madura), worked, on the whole, satisfactorily, and in many cases the members showed interest and energy in the discharge of their duties. Regarding the ward system of supervision in Unions referred to in the last two General Reviews, the reports of the District Boards of South Arcot, Bellary, Cuddapah, Godávari and Vizagapatam have furnished no information. In Anantapur, Ganjam, Kurnool and Trichinopoly the system was not introduced, but the subject has not been lost sight of. In the remaining nine districts in which Unions were at work, it was tentatively adopted in some cases and its operations extended in others, on the whole, with a fair measure of success. It has been proposed to introduce the private scavenging service in the Saidápet Union (Chingleput), and the result of the experiment will be watched with interest.

7. *District, Taluk and Union Funds.*—Appendices IV, V and VI furnished by the Accountant-General exhibit in detail the receipts and charges of the various Local Boards and Union Panchayats, while their financial position is briefly shown in Appendix VII. The abstract below compares the total results for all the Local Boards with those of the previous year.

—	1890-91.				1891-92.

Total Expenditure ..	36,21,131	34,15,672	3,48,747	72,85,550	38,77,011	37,77,906	4,07,102	80,62,019
Closing Balance ..	9,15,155	11,77,957	80,632	21,73,744	4,55,302	7,61,254	92,838	13,09,394

Excluding debt heads (Rs. 1,03,315) and contributions from the Local Boards of one district to those of another (Rs. 2,616), the actual receipts amounted to Rs. 70,91,737 against Rs. 72,04,384 in the previous year, and the charges to Rs. 79,50,774 against Rs. 71,87,983. The year closed with a balance of Rs. 13,09,394 or 18·5 per cent. of the actual receipts, of which Rs. 3,88,094 appertained to endowed institutions in charge of the Local Boards and Rs. 78,134 to the Railway Guarantee Fund in Tanjore. The Local Boards in Chingleput, Coimbatore, Kurnool, Nílgiris and Salem having overdrawn from the Government treasury a sum of Rs. 2,01,440, owing partly to short collections under land-cess and partly to the execution by their agency of famine relief works, the amount was, as usual, adjusted by a temporary contribution from Provincial funds. It will, however, be observed from Appendix V that even after credit was taken for this contribution, the accounts of the six districts named in the margin closed the year with *minus* balances, while those of Kurnool closed with a credit balance of Rs. 22,571. This was due chiefly to the fact that, under the present system of Local Fund accounts, the amount covered by cheques issued but not cashed before the close of the year is included in the expenditure, while in the Finance accounts it appertains to the cash balance in the treasury and only the amounts, if any, actually overdrawn from the treasury are adjusted by the Accountant-General by contributions from Provincial funds under Rule 36, Chapter 68, Volume II, of the Civil Account Code. The present system of Local Fund accounts will, however, be modified and there will be no such differences in future. The principles upon which the receipts and charges are distributed among the Local Boards and Union Panchayats remained the same as in previous years.

	RS.
Bellary	25,810
Chingleput	11,123
Coimbatore	13,266
Ganjam	36,119
Nílgiris	1,598
Salem	22,576

Appendix VIII shows the incidence of Local Fund taxation per head of the population in each district according to the census of 1891. The average for the Presidency was As. 2-7 including, and As. 2-2 excluding, tolls, against As. 3-2 and As. 2-9, respectively, in the previous year. Including tolls, the incidence of taxation was low in Salem (As. 1-1), Anantapur (As. 1-6), North Arcot (As. 2-1), Coimbatore (As. 2-1), Malabar (As. 2-1), Trichinopoly (As. 2-1), and Kurnool (As. 2-2); but in the first 4 districts named and in Kurnool this was due to the suspension of the land-cess collections owing to the adverse nature of the season. The incidence was, as

usual, heaviest (though less than in 1890-91) in Nílgiris (As. 7-9), the circumstances of that district being peculiar, but elsewhere it was in excess of As. 4 per head in Kistna and Godávari alone. Taking into consideration the entire Local Fund income, the average amount contributed by each individual was As. 3-4 against As. 4-0 in the previous year.

II.—RECEIPTS.

8. *Receipts.*—The total receipts of all Local Boards and Union Panchayats under the several heads are compared with the corresponding figures of 1890-91 in Appendices IV and IX. The year opened with a balance of Rs. 21,73,744 against Rs. 21,61,502 in 1890-91. There was a marked increase of Rs. 2,47,106 in Godávari, counterbalanced by decreases of Rs. 99,580 in Malabar, Rs. 39,375 in Chingleput, Rs. 38,787 in Tinnevelly, and Rs. 36,750 in Vizagapatam. The current receipts amounted to Rs. 70,91,737 against Rs. 72,04,384 in 1890-91, and the following abstract compares them under the various heads with the figures of the previous year:—

—	1890-91.	1891-92.	Percentage of total receipts.	
			1890-91.	1891-92.

Loans, &c.	1,03,796	1,06,242	1·45	1·50
Total ..	72,04,384	70,91,737	100·00	100·00

9. *Land-cess.*—This cess continued to be levied at the same rates as in the previous year, except in South Canara, where it was raised from As. 1-3 to As. 1-6 to meet increasing expenditure. In Tanjore a portion of the receipts was reserved for railway operations. The current demand exceeded that of the previous year by Rs. 15,380; but in South Arcot, South Canara, Cuddapah, Ganjam, Godávari and Tinnevelly there were variations amounting to more than Rs. 10,000 in each case. The collections fell short of those of the previous year by Rs. 3,33,393, and amounted to but 86 per cent. of the total demand against 91 per cent. in that year. They were excellent in Tanjore (99 per cent.), good in South Canara (98 per cent.), Nellore (97 per cent.), Godávari (96 per cent.) and Madura (96 per cent.), and poor in Salem (42 per cent.), Bellary (52 per cent.), Anantapur (55 per cent.), Chingleput (57 per cent.) and Kurnool (67 per cent.), owing mainly to the unfavorable character of the season and the consequent suspension of kists. For the same reason the collections in North Arcot amounted to only 86 per cent. against 99·8 per cent. in 1890-91. In Ganjam the collections continued to be poor (78 per cent.), and the President of the Distric

Board has already been called upon to explain why a larger amount was not realized as required in paragraph 4 of G.O., dated 30th March 1891, No. 724 L., in which the District Board's budget for 1891–92 was reviewed.

10. *Tolls.*—From Appendix XI it appears that six additional toll-gates were established in Madura (3), Tinnevelly (2) and Trichinopoly (1), while in South Arcot the number of gates was reduced from 37 to 18. A toll-gate in Ganjam which was abolished in 1889–90 was erroneously included in the statement for 1890–91. The net result was a decrease of 14 in the total number of gates. The question of the redistribution of the gates in Malabar, which was stated in the last General Review to be under the consideration of the District Board, has been deferred to the end of the current year. Tolls were levied at the maximum rates at 92 gates, at half rates at 169, and at quarter rates at the remainder (2). The usual arrangements under which tolls on certain roads under the control of the Public Works Department or Municipal Councils were collected by District Boards continued to be in force. The total receipts amounted to Rs. 7,52,300 against Rs. 7,35,667 in the previous year, the increase, which occurs under "Contributions from Municipalities," being due mainly to the realisation of the arrears of the previous year from certain Municipal Councils in the districts of Madura, Tanjore and Vizagapatam. The whole of the demand from Local Fund toll-gates was realized in North Arcot, South Canara, Kurnool, Nílgiris, Salem, Tanjore, Tinnevelly and Vizagapatam, and the collections in Bellary were very nearly as good. On the other hand, the collections in Nellore and Kistna were as bad as before. In these and the other districts, however, a large portion of the arrears outstanding at the close of the year has since been realised, and it is hoped that the necessary steps will be taken in future to collect the full demand within the year. Excluding contributions to Provincial and Municipal funds and charges for establishment, &c., the net income from tolls covered 31 per cent. of the outlay on roads. In South Canara, Malabar and Bellary the percentage was above 55.

North Arcot	7
South Arcot	5
Chingleput	3
Coimbatore	11
Cuddapah	17
Kistna	1
Tanjore	1
Tinnevelly	6
Trichinopoly	2
Total ..	53

11. *House-tax.*—This tax, which is intended to provide funds for the extension of village sanitation, was levied in all Unions except 53 in the districts noted in the margin. The tax has not as yet been imposed in Cuddapah, but its introduction in 14 out of the 17 Unions in that district has been sanctioned in the current year. As in the previous year, the tax was not levied in the Krósúr Union (Kistna). No explanation of this omission has been offered, but the question of abolishing the Union referred to is stated to be under consideration. In the Batlagundu Union (Madura), it was found necessary, owing to the Chairman's reprehensible failure to prepare house-tax registers in due time, to exempt one of the villages included in the Union from payment of the tax for the year 1890–91.

The collections were somewhat better than in the previous year, amounting to 86 per cent. of the demand against 84 per cent. in that year. The collections in North Arcot, Kurnool, Coimbatore and Kistna were good; but those in Anantapur, Ganjam, Vizagapatam and Godávari were the reverse and below 80 per cent. of the demand. In Anantapur and Ganjam this was due chiefly to the want of energy displayed by some of the Union Panchayats, in Vizagapatam to the failure to recover the arrears of previous years, and in Godávari to the opposition of the villagers to the levy of the tax in two of the five newly-formed Unions. The Presidents of the Taluk Boards concerned have been reminded of their duty in this matter and it is hoped that, with the exercise of close and effective supervision on their part, better results will be secured in future.

In Appendix XIII are shown the incidence of the house-tax in those Unions in which it was collected and information regarding its realization. The figures of the census of 1891 relating to the several Unions are not yet available; but according to

the previous census the total number of houses in them was 369,291. As the number of houses actually assessed was 382,787, it may be presumed that in the majority of cases due care was taken to prevent evasion of payment of the tax. In the marginally-noted Unions, however, more than 25 per cent. of the houses escaped taxation, and the Presidents of the Local Boards concerned have been instructed, in the individual reviews, to institute the necessary inquiries into the matter, which, it must be remarked, should have attracted their attention during the year under review. The average incidence per house taxed was As. 8–9 against As. 8–10 in the previous year. The incidence varied from Rs. 2–15–7 in Kodaikánal (Madura) to As. 1–7 in Dachepalle (Kistna). It is satisfactory to note that the issue of coercive processes was very sparingly resorted to. The number of cases in which property was sold for the recovery of the tax was, however, 344 against 139 in the previous year.

12. *Educational.*—The receipts under this head amounted to Rs. 1,88,738 against Rs. 1,79,428 in the previous year, the increase occurring chiefly under school-fees, which brought in Rs. 1,66,362 against Rs. 1,50,847. The sum of Rs. 96 shown as income from endowments represents, as before, the rent of the lands attached to the Ponnoor school (Kistna), the receipts of the Moyan endowment attached to the Female Normal School at Tellicherry and the income from the endowment of the Tachanallur school (Tinnevelly). The decrease under "Contributions from private individuals" was due to the absence of any special contribution, such as that referred to in paragraph 12 of the last General Review.

13. *Medical.*—The receipts under this head amounted to Rs. 16,188 against Rs. 24,453 in the previous year. The "Income from endowments" represents, as usual, the rent of lands attached to the dispensaries at Saidápet (Chingleput) and Tiruvadanai (Madura). The contributions from private individuals to medical institutions amounted to Rs. 7,158, against Rs. 10,733 in 1890–91 and Rs. 14,318 in 1889–90. This continued falling off is to be regretted.

14. *Interest.*—The investments made by the Local Boards in favour of the endowed institutions under their control, including the Railway Guarantee Fund in Tanjore, amounted to Rs. 16,15,776 against Rs. 14,86,696 in the previous year, and the interest realized from them was Rs. 67,242 against Rs. 58,754, as shown in Appendix XIV.

15. *Miscellaneous.*—The receipts connected with choultries, markets, bungalows, &c., as shown in Appendix IX, aggregated Rs. 8,00,357 against Rs. 6,37,116 in the previous year. The principal variations under the several heads are noticed below:—

(*a*) *Choultry Rents.*—The income under this head exceeded that of the previous year by Rs. 55,235, the increase occurring chiefly in Tanjore (Rs. 41,025), Godávari (Rs. 7,498), and Tinnevelly (Rs. 5,425). The increase in Tanjore is ascribed to the stringent measures adopted to ensure the realization of the arrear and current rents, that in Godávari to the rents derived from the lands attached to two choultries transferred to the Taluk Boards during the year, and that in Tinnevelly to the collection of arrears.

(*b*) *Market Rents.*—The receipts from the markets under the control of Local Boards amounted to Rs. 1,26,235 against Rs. 1,09,150 in the previous year. There were 460 markets under their charge and in 405 of these, fees were levied, the corresponding figures for 1890–91 being 403 and 348. These institutions were, on the whole, in good order and they were freely resorted to by the public. The balances in their favour at the close of the year were large, amounting to Rs. 1,92,689, and it is necessary to draw the attention of all Local Boards to the remarks of the Government in paragraph 15 (*b*) of the last General Review on the subject of the utilization of these balances.

(*c*) *Bungalow Fees.*—The number of bungalows under the control of Local Boards was 292 against 290 in the previous year, and their condition was in general fair. Many of them lack furniture and the want might well be supplied.

(*d*) *Ferry Rents.*—The receipts under this head amounted to Rs. 1,57,611, against Rs. 48,677 in the previous year, the increase, which occurred chiefly in Malabar, South Canara, Godávari and Trichinopoly, being due to the transfer of the management of certain ferries to the Local Boards under Madras Act II of 1890.

(*e*) *Fishery Rents.*—There was a decrease of Rs. 18,094 under this head, the most important variations occurring in Tinnevelly (+ Rs. 1,552), Nellore (—Rs. 1,358), Salem (—Rs. 2,902), Tanjore (—Rs. 4,207), North Arcot (—Rs. 5,705) and Ganjam (—Rs. 5,744). The increase in Tinnevelly was due to the favourable season, while the decrease in Nellore and Salem is ascribed to the insufficient supply of water in tanks consequent on the failure of the rains. The decrease in North Arcot was owing partly to the cause last mentioned and partly to the postponement of kists on account of the adverse season, and that in Tanjore was due to the prohibition of fishing when the water in the rivers was low. The falling off in Ganjam was only nominal, as the collections of the previous year included the arrears of 1889–90. Of the total receipts under this head, Rs. 92,004 were collected by the Revenue Department and Rs. 3,342 by the Public Works Department.

(*f*) *Avenues.*—Appendix XV shows the statistics of avenues in the several districts. Out of 25,633 miles of road in charge of the Local Boards, 16,078 were provided with avenues, the corresponding figures of the previous year being 24,788 and 15,845. The increase is satisfactory, but the number of trees in most districts is still inadequate and should be increased. The income realised amounted to Rs. 82,798, or Rs. 9,070 less than the amount expended on plantations and maintenance. The condition of the avenues was generally satisfactory.

16. *Contributions from Provincial Funds.*—The large increase noticeable under this head was due chiefly to a temporary contribution of Rs. 2,01,440, made to cover the overdrafts alluded to in paragraph 7 *supra.* With this exception, the grants received during the year did not differ materially from those of that preceding it, as shown below:—

	1890-91.	1891-92.
	RS.	RS.
Public Works	1,35,676	1,27,629
Schools	1,18,087	1,13,562
Hospitals and dispensaries	5,796	5,086
Choultries	33,461	34,553
General purposes	14,253	17,664
Refunds	..	1,065
Total ..	3,07,273	2,99,559

17. *Contributions from Special Funds—Canal and Ferry Fund.*—The sum of Rupees 81,253 appearing under this head represents the balance in favour of the Canal and Ferry fund, which was transferred to the Local Boards of South Canara, Cuddapah, Kistna, Malabar, Tanjore, Tinnevelly and Trichinopoly on the introduction of Madras Act II of 1890.

18. *Contributions from Municipalities.*—These amounted to Rs. 7,152 against Rs. 10,977 in 1890–91 and were as shown below, the several items being included under the respective heads in Appendix IX:—

	1890-91.	1891-92.
	RS.	RS.
Education	2,395	3,526
Medical	2,935	2,988
Public Works	5,450	400
Miscellaneous	197	238
Total ..	10,977	7,152

The decrease in the case of Public works occurs in Godávari, in which special contributions amounting to Rs. 5,000 were received in 1890–91 from the Ellore and Cocanada Municipalities for expenditure on bridge works.

III.—EXPENDITURE.

19. Excluding debt heads (Rs. 1,08,628) and contributions from one District Board to another (Rs. 2,616), the total charges amounted to Rupees 79,50,774 against Rs. 71,87,983 in the previous year, the increase occurring under all grants. Appendices V and XVI show the total outlay under the several heads as compared with that of 1890–91, while the expenditure under the principal heads and the percentage borne by outlay under each grant are contrasted below with the corresponding figures of the previous year:—

Grants.	1890-91.	1891-92.	Percentage.

Grant I.—Public Works.

20. Appendix XVII shows the particulars of the outlay on public works and the cost of the supervising establishments, including contingencies, tools and plant. The total expenditure on public works was Rs. 37,05,718 against Rs. 35,03,778 in the previous year, the increase being mainly due to the execution of works undertaken for famine relief purposes in the affected districts. The outlay amounted to 56 per cent. of the year's receipts and 47 per cent. of the total charges, and was incurred by the several agencies as shown below:—

	1890–91.	1891–92.
	RS.	RS.
By the Engineering establishments employed by the Local Boards	33,18,301	34,29,099
By the Revenue Department on behalf of the Local Boards	1,28,437	1,63,660
By the Public Works Department on behalf of the Local Boards	57,040	1,12,959
Total ..	35,03,778	37,05,718

Of the total outlay, Rs. 32,51,768, or 97 per cent. of the allotment, were spent on roads, bridges, &c., against Rs. 30,54,884, or 91 per cent., in the previous year. Of this sum Rs. 31,46,717 were expended by the Local Fund Engineering establishments and by the Revenue Department, and the balance of Rs. 1,05,051 by the Public Works Department on the construction of the Talavassal bridge in the Salem district, the causeway across the Pálár between Ránipet and Arcot and four roads on which labour was employed for famine relief purposes in the North Arcot district, some ferry works in the Godávari district, a bridge over the Ryves' canal, an aqueduct over the Bhattiprole drain, and a road across the anicut at Bezváda (all in the Kistna district) and on the construction and maintenance of roads upon tank, canal and channel banks in the districts of South Arcot, Cuddapah, Ganjam, Godávari, Kistna, Nellore, Tanjore, Tinnevelly and Trichinopoly. The outlay on the construction and repair of school-houses, hospitals, dispensaries, bungalows, choultries, &c., was Rs. 2,10,328 against Rs. 2,24,844 in the previous year, and of this sum Rs. 6,995 were expended by the Public Works Department on the construction of the Jubilee Museum building at Bezváda. The expenditure on miscellaneous public improvements, such as avenues, markets, tanks, wells, &c., amounted to Rs. 2,43,622 against Rs. 2,24,650 in 1890–91. The figure first named includes Rs. 913 spent by the Public Works Department on certain petty works in the districts of South Arcot and Godávari.

The proportion borne by the total expenditure on public works executed by the Local Fund Engineering establishments to the sanctioned allotment was 92 per cent., against 87 per cent. in 1890–91 and 83 per cent. in 1889–90. The improvement was marked and is observed with satisfaction. In Kurnool, Bellary, Nellore and Coimbatore, the outlay exceeded the allotments owing mainly to the execution of famine relief works; in the Nílgiris and Chingleput also the proportion was very good, viz., 99 and 98 per cent., respectively. On the other hand, it was very low in Anantapur (77 per cent.), Cuddapah (80 per cent.), Madura (82 per cent.), South Arcot (82 per cent.), Malabar (84 per cent.), and Godávari (86 per cent.), in all of which districts, except Malabar and Godávari, there was a retrogression as compared with the previous year. The reasons assigned for the short outlay in the case of Anantapur cannot be considered satisfactory, and the President of the District Board of Madura has been directed in the review of his report to replace the Board's Engineer by a more energetic officer if he does not turn out better work in future. The short outlay in Cuddapah is explained to be due chiefly to want of water for tamping and other purposes, while that in South Arcot was the result of delay in sanctioning estimates, which was not creditable to the Local Boards of that district. The poor outturn of work in Malabar is attributed to the revision of the Engineering establishment carried out about the working season of the year and to the non-payment of certain claims for work done within the year, and that in Godávari was due, among others, to the insufficiency of the Local Fund Engineering establishment, which has,

b

however, recently been strengthened. In addition to the districts affected by famine in which the expenditure was abnormal, there was a decided improvement in the districts of Vizagapatam and Nílgiris.

Appendix XVIII.

21. *Roads.*—The following abstract compares the total mileage of roads under the control of the Local Boards at the beginning of the year, that maintained by them during the year and the cost of upkeep, with the corresponding figures of the previous year.* The portions of the main lines of communication alluded to in paragraph 20 of the last General Review are excluded from the statement:—

	Mileage of roads under Local Boards at the beginning of the year.	Mileage of roads maintained.	Cost of maintenance.	Mileage of new roads completed during the year.	Cost of new roads completed.	Mileage of roads under construction.	Cost of roads under construction.
1890–91.			RS.		RS.		RS.
Village	5,163	2,279	1,50,770	80	39,923	84	6,718

District	* 9,465	8,766	13,35,547	94	1,21,856	118	14,162
Total ..	25,406	20,294	22,93,912	227	2,81,726	318	18,762

* Variations between these figures and those of 1890–91, due to revised classification and to the adoption of more accurate figures than those reported for that year.

There was a net increase of 184 miles in the total length of roads actually maintained, which resulted from an increase of 425 miles in 14 districts, counterbalanced by a decrease of 241 miles in 6 others. The decrease was large in Nellore (166 miles) and South Canara (43 miles). In the former case it is ascribed to the absence of necessity for ordinary repairs to roads thoroughly restored in previous years; in the latter it has not been accounted for.

The outlay on new roads, including those in progress but not yet completed, was, as in previous years, very large in Kistna, being more than one-third of the total expenditure in all districts. In South Canara, Madura, Godávari, Kurnool, Nellore, Vizagapatam and North Arcot it ranged from Rs. 10,000 to Rs. 40,000, while in the remaining districts it was below Rs. 10,000 in each case.

It is disappointing to observe that, as in the preceding two years, the outlay on village roads was only 8 per cent. of the total expenditure on communications. The proportion was, as in 1890–91, excellent in Bellary (36·4 per cent.), good in Kurnool (20·3 per cent.), and fair in Coimbatore (14·4 per cent.), and Tanjore (12·8 per cent.). Compared with the previous year, there was a marked falling off in Nellore, North Arcot, Madura and Tinnevelly. The attention of the Local Boards concerned has been drawn to the matter in the individual reviews. The average cost of road maintenance per mile was Rs. 113, or Rs. 3 in excess of that in the previous year. It was very high in the districts of Nellore (Rs. 264), Kistna (Rs. 211), Ganjam (Rs. 180), Chingleput (Rs. 161), Vizagapatam (Rs. 159), Madura (Rs. 135) and Nílgiris (Rs. 133), in all of which districts, except Ganjam and Nílgiris, the same was the case in the previous year. It was lowest in Anantapur (Rs. 52), South Canara (Rs. 61) and Cuddapah (Rs. 69).

The condition of the roads in South Arcot, which was not satisfactory in the previous year, on the whole improved, though it was still not what it should be. In Bellary the condition of most of the roads was fair, but in Anantapur, Salem and Vizagapatam it was anything but satisfactory, owing, in the first of the cases mentioned, to want of proper supervision and control and, in the last two, to the prolonged drought. In Ganjam many of the roads were in bad order owing to large demands for special repairs and the condition of those in some taluks of the Madura district left much to be desired. This remark applies also to Kurnool, and the explanation offered in that Board's Administration Report cannot be accepted. In the districts of North Arcot, South Canara, Chingleput, Coimbatore, Cuddapah, Godávari, Kistna, Malabar, Nellore, Nílgiris, Tanjore, Tinnevelly and Trichinopoly, communications were maintained, on the whole, satisfactorily, though, in all, and in North Arcot in particular, there is still room for improvement. In Tanjore the roads were in fair condition in spite of the difficulties experienced in procuring and transporting material. The new system of road management by contracts for maintenance, referred to in the last two General Reviews, continued to be worked in Cuddapah not unsuccessfully, and was in the course of the year introduced into the Pálghat taluk of Malabar. In Ganjam the experiment made with the system failed. In Chingleput a very similar system of road repair was introduced, and is still on trial.

22. *Establishment, &c.*—For the execution of Local Fund public works every District Board maintained, as usual, its own Engineering establishment, which worked under the direct control of the Board, the Taluk Boards contributing to its cost in proportion to the outlay from Taluk funds. In a few cases, special works such as the construction of important bridges and the maintenance of roads on tank, canal and channel banks were handed over to the Public Works Department. The total cost of the Local Fund Engineering establishments including contingencies amounted to Rs. 5,60,003, or 16 per cent. of the outlay on works, against Rs. 5,59,379 or 17 per cent. in 1890–91, 20 per cent. the maximum fixed by Government, and 23 per cent the charge payable to the Public Works Department for executing Local Fund works. The maximum in question was exceeded in Malabar and Anantapur by 3 and 2 per cent., respectively, owing to short expenditure. This was, in Malabar, the result of the introduction of extensive changes in the Engineering establishment about the commencement of the working season, and, in Anantapur, of the incompetency of the Engineer, whose services were, it should be remarked, dispensed with before the close of the year. The cost of the establishment was low in Coimbatore, Salem, North Arcot and Kistna, viz., between 13 and 14 per cent. of the outlay on works — a result which is creditable to the Boards concerned. The expenditure under this head remained almost the same as in the previous year in South Arcot, Cuddapah and Nellore, while it declined in North Arcot, Bellary, Coimbatore, Ganjam, Kistna, Kurnool, Madura, Salem and Vizagapatam, the decrease being considerable in Kurnool, Bellary, North Arcot and Salem in consequence of the large outlay incurred on famine relief works. It increased in the remaining districts, notably in Malabar (5 per cent.), Trichinopoly (4 per cent.), Chingleput (3 per cent.) and Godávari (3 per cent.).

A sum of Rs. 14,001 was paid to the Public Works Department for the execution of Local Fund works entrusted to them in the districts of North Arcot, South Arcot, Cuddapah, Godávari, Kistna, Nellore, Salem, Tinnevelly, and Trichinopoly. The *minus* entry of Rs. 3,210 under this head against Tanjore in Appendix XVII represents the adjustment of the excess amount paid to the department in question in 1890–91 for the maintenance of the Vedarniem canal. Rupees 17,215 were paid to the same department for the scrutiny of plans and estimates for Local Fund works of importance at the rate of 2½ per cent. on their estimated value.

Toll and ferry establishments cost Rs. 10,791 against Rs. 3,451 in the previous year, the increase occurring chiefly in Godávari, owing, in the main, to the expenditure incurred on the Rajahmundry steam ferry establishment.

The expenditure on tools and plant by the Local Fund Engineering establishment amounted to Rs. 39,206, or 1·1 per cent. of the total outlay on works, against Rs. 35,588 or 1·03 per cent. in the previous year, the maximum fixed by Government being 1 per cent. for all districts except Nilgiris. The cost was excessive in Kistna (2·6 per cent.), Nellore (2·0 per cent.), South Arcot (1·7 per cent.), and Godávari (1·6 per cent.). In the first two districts named, this was mainly due to the purchase of tools required for famine relief works. In South Arcot there was no

such excuse, and the President of the District Board has been directed to avoid the irregularity in future. The explanation of the President of the Godávari District Board is awaited.

23. *Contributions.*—The amount of contributions paid to Provincial, Municipal and other funds was Rs. 2,37,236 against Rs. 1,22,157 in 1890–91, the increase being due to the payment to Government by the Tanjore District Board of a sum of Rs. 1,43,059 or a moiety of the expenditure incurred in 1890–91 on the Máyavaram-Mutupet Railway, the construction of which was undertaken at the joint cost of that Board and Government.

GRANT II.—EDUCATION.

24. As usual, the educational operations of Local Boards comprised chiefly the maintenance and aid of elementary boys' schools and the training of primary schoolmasters. At the end of the year under review there were 2,786 Board schools with 114,780 pupils against 2,345 schools with 93,252 pupils in 1890–91. Of these 114 schools against 95 in that year were of the secondary grade. There were a few girls' schools, and in some others girls as well as boys were taught. The total number of girls in Local Fund schools was 15,786 against 11,919 in the previous year. The total expenditure on education, excluding the cost of construction and repair of school buildings (Rs. 41,044), debited to Grant I, amounted to Rs. 10,56,192 against Rs. 9,41,253 in the previous year, the increase occurring chiefly under Board schools and result grants. The receipts and charges and other particulars connected with the Board and aided schools are shown in Appendices* XIX, XX and XXI, but the figures do not include receipts from the sale of books and contributions from municipalities or charges relating to the purchase of books and other miscellaneous items.

25. *Inspection.*—The inspecting and supervising agency were the same as in the previous year. The District Boards employed 174 Inspecting schoolmasters against 164 in 1890–91. These officers visited 20,744 † villages and prepared 18,675 † schools for examination, against 19,989 and 19,739, respectively, in that year. On the whole, they discharged their duties satisfactorily. Their cost to Local Funds was Rs. 81,643 against Rs. 78,446 in 1890–91.

26. *Training Schools.*—At the commencement of the year under review, there were 33 elementary training schools and classes maintained by the District Boards. Of these, 3 in South Arcot were converted into sessional schools on the 1st of June 1891 and 24 others were transferred to Government on the 1st January 1892 with a view to improve their efficiency, so that at the close of the year there were in all only 3 training schools under Local Fund management, in Madura (1), Tinnevelly (1), and Malabar (1), and 3 preparatory Mappila schools in the last-mentioned district. On the 31st March 1892 the Training department of the Technico-Normal Institute at Madura contained 66 pupils against 54 in the previous year, while in the Melaviraragavapuram Training school (Tinnevelly) there were 52 students against 37 in that year, but as the results of all the examinations to which these schools sent up candidates have not been reported, no opinion can, at present, be formed of their working. The Female Training school at Tellicherry maintained from the Moyan endowment fund had 12 girls on its rolls on the 31st March last and worked well. The average cost per successful pupil was Rs. 148–13–4 against Rs. 1,649 in the previous year. On January 1st, 1893, this school will be handed over to the Educational Department. Of 36 pupils sent up by the 3 preparatory Mappila training schools 25 passed the Primary School examination. The proportion was satisfactory.

27. *Sessional Schools.*—There were 42 sessional schools at work in the districts noted below against 33 in the previous year.

---

* These appendices have been compiled from Statements IX and X submitted with the District Boards' Reports. The financial transactions shown therein do not agree in some cases with the Accountant-General's figures in Appendices IV and V. The figures given in paragraphs 26 to 32 have been taken from Appendices XIX—XXII.

† The statistics of 1891–92 not having been completely furnished in the case of Coimbatore, Cuddapah and Kurnool, the figures of the previous year have been adopted for these districts.

	1890–91.	1891–92.

Total	33	42

The Government trusts that the provision made in the current year's budget for the establishment of schools of this description in the districts of Chingleput, Nellore, Salem and Vizagapatam (in which none were at work during the year under review) will be utilised in full and that the District Board of Godávari will lose no more time in providing itself with such institutions. The number of teachers who underwent training in these schools was 524 * against 332 in the previous year. Leaving out of consideration 5 schools the results of which have not been reported, and 5 in South Canara which fared worse than in the previous year, the results achieved were, on the whole, satisfactory. From the information furnished by the Educational officers, it appears that out of 23,089 teachers employed in the several classes of Local Fund Board and aided schools, only 7,806 possessed any educational qualifications — *vide* margin. It is to be hoped that the recent transfer of the training schools to Government referred to in the foregoing paragraph and the establishment of additional sessional schools will gradually put an end to this unsatisfactory state of affairs.

No. holding	Normal certificates ..	4,015
"	Ordinary	442
"	General Education certificates	3,349
	Total ..	7,806

28. *Technical Schools.*—The industrial department attached to the Training school at Masulipatam made good progress during the year and the industrial branch of the Technico-Normal Institute at Madura met with fair success. The working of the agricultural branch of the institution last named was, however, far from satisfactory. One of the few carpentry classes attached to certain Board schools (Tiruvannámalai) proved a failure.

29. *Secondary Schools.*—At the end of the year under review, there were 114 secondary schools with 5,881 † pupils against 95 schools with 5,427 pupils in the previous year, the increase being due chiefly to the raising of the standard of 21 primary schools in Vizagapatam. Thirteen were high schools against 12 in the previous year, and the remainder were middle schools. Excluding the High school at Tiruvádi in which Sanskrit is taught, and the High school at Harpanahalli (which sent up no pupils), 137 students appeared for the Matriculation examination, of whom 72 passed against 116 and 45, respectively, in the previous year. These figures are noted with satisfaction. The Tiruválur High school did well and those of Villupuram, Coondapoor (where there was a marked improvement as compared with the previous year), Kulitalai, Námakal and Hosur fairly well, more than 50 per cent. of the pupils sent up by each having passed. On the other hand, the results achieved by the Dhárápuram school were very poor, only 25 per cent. of the number of students presented being successful. Nine of the high schools sent up 135 students for the Lower Secondary examination, of whom only 62 passed, the performance of those of Yellamanchili, Dhárápuram and Udamalpet being particularly unsatisfactory. From the middle schools 431 students appeared for the examination last named, and of these 284 or 66 per cent. passed, the corresponding figures for the previous year being 555,244 and 44 per cent. In this examination the Pollachi, Kassimkóta and Porto Novo schools did very badly.

---

* Excludes the figures for two schools in Trichinopoly which have not been reported.

† Excludes the attendance of 21 schools in Vizagapatam newly started, as the same has not been reported.

In the upper secondary schools and departments, which were, as before, all maintained on the salary system, the average net cost per pupil was Rs. 22–1–5 against Rs. 21–12–8 in 1890–91. It was highest in Trichinopoly (Rs. 71–9–7), South Arcot (Rs. 55–4–4), and Salem (Rs. 50–3–9). On the other hand, the Local Boards of North Arcot and South Canara worked their schools at a profit of Rs. 674 and Rs. 320, respectively, and those of Tanjore spent only Rs. 20–5–3 per pupil. The net expenditure on lower secondary schools and departments on the salary system was in excess of that of the previous year by Rs. 3–14–1 per pupil. The Local Boards of South Canara and Tanjore alone worked the schools under their control at a profit (of Rs. 393 and Rs. 776, respectively), and the average cost per pupil was satisfactorily low in Malabar (As. 8–9) and Bellary (Rs. 1–5–10). It was excessive in Anantapur (Rs. 36–2–8) and Kurnool (Rs. 29–5–8). The net cost of the lower secondary departments and schools maintained on the salary-results system was Rs. 10–3–10 per pupil against Rs. 7–8–9 in the previous year. It was particularly heavy in Salem (Rs. 20–7–9) and low in Godávari (Rs. 4–11–3), and Tanjore (Rs. 6–9–0). The Presidents of the District Boards of Anantapur, South Arcot and Salem are requested to report at once the steps they have taken, or intend to take, to comply with the instructions contained in paragraph 27 of the last General Review, directing the abolition of such of these schools as are not self-supporting.

30. *Primary Schools.*—There were 2,672 Board primary schools with 108,899 pupils at the end of the year, against 2,250 schools with 87,825 pupils in the previous year, the increase which occurs chiefly in the districts noted in the margin being, as in the previous year, due to the opening of new schools and to the Boards having taken under their direct control certain schools previously aided by them. The increase is very satisfactory. Taking the upper and lower primary departments of these schools separately it is observed that the upper primary departments in Malabar, South Canara, South Arcot and Tinnevelly, and the lower primary departments in Kistna, Malabar and Tinnevelly were worked at a very small cost. On the other hand, the average net cost per pupil in the upper primary departments was very high in Nílgiris (Rs. 59), Ganjam (Rs. 43–10–2) and Anantapur (Rs. 29–6–0), and the same was the case as regards the lower primary departments in South Canara (Rs. 15–8–0), Trichinopoly (Rupees 14–11–2), Kurnool (Rs. 12–10–3), Godávari (Rs. 12–1–10), and Nílgiris (Rupees 8–15–6). The Local Boards concerned should take early steps to effect a substantial reduction. The total number of pupils that appeared from these schools and from the primary departments of the secondary schools at the standard examinations was 51,026, of whom 39,337 or 77 per cent. passed, the corresponding figures for the previous year being 43,178, 31,753 and 74 per cent. The figures evidence substantial progress.

31. *Aided Schools.*—The Local Boards aided 8,242 private schools attended by 219,567 pupils, against 7,681 schools with 202,096 pupils in the previous year. The continued increase that has occurred in spite of the fact that a number of such schools were transferred during the year to the management of the Local Boards is very satisfactory. The actual expenditure (Rs. 2,23,732) under grants of all kinds was almost the same as that in the previous year and exceeded the sanctioned allotments by 3·8 per cent. — another gratifying feature. In the districts of North Arcot, South Arcot, South Canara, Coimbatore, Cuddapah, Ganjam, Godávari, Kistna, Kurnool, Malabar, Tinnevelly and Trichinopoly, the expenditure exceeded the budget provision owing to the payment of the arrears of previous years and a larger number of pupils having earned grants. In the remaining districts the outlay was more than 90 per cent. of the sanctioned allotment except in Vizagapatam, Chingleput and Madura, where it was 62·6, 84·7 and 87·1 per cent., respectively. The short outlay in Vizagapatam is explained to be due partly to the delay of the Educational officers in issuing

The Government trusts that the provision made in the current year's budget for the establishment of schools of this description in the districts of Chingleput, Nellore, Salem and Vizagapatam (in which none were at work during the year under review) will be utilised in full and that the District Board of Godávari will lose no more time in providing itself with such institutions. The number of teachers who underwent training in these schools was 524 * against 332 in the previous year. Leaving out of consideration 5 schools the results of which have not been reported, and 5 in South Canara which fared worse than in the previous year, the results achieved were, on the whole, satisfactory. From the information furnished by the Educational officers, it appears that out of 23,089 teachers employed in the several classes of Local Fund Board and aided schools, only 7,806 possessed any educational qualifications — *vide* margin. It is to be hoped that the recent transfer of the training schools to Government referred to in the foregoing paragraph and the establishment of additional sessional schools will gradually put an end to this unsatisfactory state of affairs.

28. *Technical Schools.*—The industrial department attached to the Training school at Masulipatam made good progress during the year and the industrial branch of the Technico-Normal Institute at Madura met with fair success. The working of the agricultural branch of the institution last named was, however, far from satisfactory. One of the few carpentry classes attached to certain Board schools (Tiruvannámalai) proved a failure.

29. *Secondary Schools.*—At the end of the year under review, there were 114 secondary schools with 5,881 † pupils against 95 schools with 5,427 pupils in the previous year, the increase being due chiefly to the raising of the standard of 21 primary schools in Vizagapatam. Thirteen were high schools against 12 in the previous year, and the remainder were middle schools. Excluding the High school at Tiruvádi in which Sanskrit is taught, and the High school at Harpanahalli (which sent up no pupils), 137 students appeared for the Matriculation examination, of whom 72 passed against 116 and 45, respectively, in the previous year. These figures are noted with satisfaction. The Tiruválur High school did well and those of Villupuram, Coondapoor (where there was a marked improvement as compared with the previous year), Kulitalai, Námakal and Hosur fairly well, more than 50 per cent. of the pupils sent up by each having passed. On the other hand, the results achieved by the Dhárápuram school were very poor, only 25 per cent. of the number of students presented being successful. Nine of the high schools sent up 135 students for the Lower Secondary examination, of whom only 62 passed, the performance of those of Yellamanchili, Dhárápuram and Udamalpet being particularly unsatisfactory. From the middle schools 431 students appeared for the examination last named, and of these 284 or 66

† Excludes the attendance of 21 schools in Vizagapatam newly started, as the same has not been reported.

per cent. passed, the corresponding figures for the previous year being 555,244 and 44 per cent. In this examination the Pollachi, Kassimkóta and Porto Novo schools did very badly.

In the upper secondary schools and departments, which were, as before, all maintained on the salary system, the average net cost per pupil was Rs. 22-1-5 against Rs. 21-12-8 in 1890-91. It was highest in Trichinopoly (Rs. 71-9-7), South Arcot (Rs. 55-4-4), and Salem (Rs. 50-3-9). On the other hand, the Local Boards of North Arcot and South Canara worked their schools at a profit of Rs. 674 and Rs. 320, respectively, and those of Tanjore spent only Rs. 20-5-3 per pupil. The net expenditure on lower secondary schools and departments on the salary system was in excess of that of the previous year by Rs. 3-14-1 per pupil. The Local Boards of South Canara and Tanjore alone worked the schools under their control at a profit (of Rs. 393 and Rs. 776, respectively), and the average cost per pupil was satisfactorily low in Malabar (As. 8-9) and Bellary (Rs. 1-5-10). It was excessive in Anantapur (Rs. 36-2-8) and Kurnool (Rs. 29-5-8). The net cost of the lower secondary departments and schools maintained on the salary-results system was Rs. 10-3-10 per pupil against Rs. 7-8-9 in the previous year. It was particularly heavy in Salem (Rs. 20-7-9) and low in Godávari (Rs. 4-11-3), and Tanjore (Rs. 6-9-0). The Presidents of the District Boards of Anantapur, South Arcot and Salem are requested to report at once the steps they have taken, or intend to take, to comply with the instructions contained in paragraph 27 of the last General Review, directing the abolition of such of these schools as are not self-supporting.

30. *Primary Schools.*—There were 2,672 Board primary schools with 108,899 pupils at the end of the year, against 2,250 schools with 87,825 pupils in the previous year, the increase which occurs chiefly in the districts noted in the margin being, as in the previous year, due to the opening of new schools and to the Boards having taken under their direct control certain schools previously aided by them. The increase is very satisfactory. Taking the upper and lower primary departments of these schools separately it is observed that the upper primary departments in Malabar, South Canara, South Arcot and Tinnevelly, and the lower primary departments in Kistna, Malabar and Tinnevelly were worked at a very small cost. On the other hand, the average net cost per pupil in the upper primary departments was very high in Nílgiris (Rs. 59), Ganjam (Rs. 43-10-2) and Anantapur (Rs. 29-6-0), and the same was the case as regards the lower primary departments in South Canara (Rs. 15-8-0), Trichinopoly (Rupees 14-11-2), Kurnool (Rs. 12-10-3), Godávari (Rs. 12-1-10), and Nílgiris (Rupees 8-15-6). The Local Boards concerned should take early steps to effect a substantial reduction. The total number of pupils that appeared from these schools and from the primary departments of the secondary schools at the standard examinations was 51,026, of whom 39,337 or 77 per cent. passed, the corresponding figures for the previous year being 43,178, 31,753 and 74 per cent. The figures evidence substantial progress.

31. *Aided Schools.*—The Local Boards aided 8,242 private schools attended by 219,567 pupils, against 7,681 schools with 202,096 pupils in the previous year. The continued increase that has occurred in spite of the fact that a number of such schools were transferred during the year to the management of the Local Boards is very satisfactory. The actual expenditure (Rs. 2,23,732) under grants of all kinds was almost the same as that in the previous year and exceeded the sanctioned allotments by 3·8 per cent. — another gratifying feature. In the districts of North Arcot, South Arcot, South Canara, Coimbatore, Cuddapah, Ganjam, Godávari, Kistna, Kurnool, Malabar, Tinnevelly and Trichinopoly, the expenditure exceeded the budget provision owing to the payment of the arrears of previous years and a larger number of pupils having earned grants. In the remaining districts the outlay was more than 90 per cent. of the sanctioned allotment except in Vizagapatam, Chingleput and Madura, where it was 62·6, 84·7 and 87·1 per cent., respectively. The short outlay in Vizagapatam is explained to be due partly to the delay of the Educational officers in issuing

the certifying memoranda, to which matter the attention of the Director of Public Instruction has already been drawn in the individual review, and partly to the schools generally having earned less than the estimated amounts of grant, while that in Chingleput is ascribed to the closure of several schools rendered necessary by the prevailing distress, and to irregularities in the maintenance of registers which disqualified certain others. In Madura the examinations were held late in the year.

32. *General Educational results.*—The total net outlay on education incurred by the Local Boards was 11·3 per cent. of the current receipts against 9·0 per cent. in 1890–91 and 8·4 per cent. in 1889–90, and exceeded that of the previous year by more than a lakh of rupees, a satisfactory increase. The outlay in South Canara, Chingleput, Kistna, Madura, Tanjore, Tinnevelly, Trichinopoly and Vizagapatam was, however, below the general average and the allotments in these districts should be raised in future. The total number of pupils under instruction in the Board and aided schools exceeded the figure of the previous year by 38,999 and was 13·8 per cent. of the male population of school-going age, calculated at 7½ per cent. of the total population (according to the census of 1891) against 12·2 per cent. in 1890–91. The percentage given for that year in the last General Review was calculated on the figures of the census of 1881. The advance made during the year under review was decidedly encouraging. There was fair improvement in all the districts except South Arcot, Bellary, Chingleput, Coimbatore, Ganjam, Kurnool, Nellore, Salem and Trichinopoly, and the special attention of the Local Boards of these districts has already been drawn to this matter in reviewing the individual reports. In Tinnevelly and Ganjam the proportion was about 21 per cent.—a result which is very creditable to the Boards concerned. It was fair in Malabar (19·1 per cent.), Bellary (18·3 per cent.), and Nílgiris (17·4 per cent.). In North Arcot, South Canara, Chingleput, Godávari, Kistna, Madura, Nellore and Tanjore, the proportion ranged from 12 to 17 per cent., while in the remaining districts noted in the margin it was unsatisfactorily low. The extension of primary education in these districts demands the immediate and earnest attention of the Local Boards.

South Arcot	11·5

GRANT III.—MEDICAL SERVICES, SANITATION, &C.

33. *Hospitals and Dispensaries.*—Including 16 dispensaries opened during the year and excluding 5 hospitals temporarily closed, 331 hospitals and dispensaries were maintained by the Local Boards against 320 in 1890–91. Of these 108 were hospitals and 223 dispensaries, the corresponding figures of the previous year being 97 and 223. The number of these institutions in the districts of Coimbatore, Cuddapah, Ganjam, Godávari, Kistna, Malabar, Tinnevelly, Trichinopoly and Vizagapatam continued to be unduly small, being less than one for every 100,000 of the population. In Ganjam and Godávari two additional dispensaries sanctioned were not opened within the year and the opening of 10 other dispensaries in the districts noted in the margin has since been sanctioned. Measures should be taken at an early date to increase the number in the remaining districts. Very little was done during the year to provide accommodation for in-patients except in the districts of Kistna and Godávari. It is much to be regretted that the repeated remarks of the Government on the subject have had so little effect.

Appendix XXIII.

South Arcot	2
Coimbatore	3
Ganjam	1
Kistna	1
Malabar	1
Nellore	1
Vizagapatam	1
Total ..	10

It is satisfactory to note that the total number of in and out patients treated in the medical institutions increased by 1,305 and 74,970, respectively, as shown in the margin. The advance testifies to the steady growth of their popularity, and an increasing appreciation of European methods of treatment. The number of beds available for in-patients increased by 48, but it was not more than 12·8 per hospital on an average against 13·8 in 1890–91. The total number of persons treated was 5·6 per cent. of the population. In Nílgiris the proportion was 12·8 per cent. against 11·2 in the previous year, and in Tanjore it was 9·0 per cent. against 10·5 per cent., the decrease being due to the temporary closure of 5 hospitals maintained from the chattram funds. The proportion ranged from 9 to 5 per cent. in the other districts except South Canara, Coimbatore, Ganjam, Godávari, Kistna, Malabar and Nellore, where it was below the figure last given. There was an improvement as compared with the previous year in all districts except Anantapur, South Arcot, Chingleput and Tanjore where the numbers treated declined.

	In-patients.	Out-patients.
1890–91	12,978	1,711,486
1891–92	14,283	1,786,456

The total net expenditure on the maintenance of hospitals and dispensaries, excluding the cost of midwives and midwifery pupils, was Rs. 4,49,791 against Rs. 4,08,555 in the previous year, the increase being due to (1) the opening of additional medical institutions, (2) the higher rates of pay drawn by the medical subordinates, and (3) the remedial measures adopted in connection with cholera. The average cost of treating each patient was As. 4–0 against As. 3–9 in 1890–91. It was excessive in Nílgiris (As. 7–3), Kistna (As. 6–6), Malabar (As. 5–9) and Bellary (As. 5–8), and the Local Boards concerned should take early steps to reduce it as much as possible. It was between As. 5–0 and As. 3–0 in the other districts, except Salem and Trichinopoly where it was satisfactorily low.

As regards the system of entrusting the supervision of these institutions to local committees, which was recommended by Government for adoption in paragraph 51 of the General Review for 1889–90, and to which attention was again drawn in the last General Review, it is observed that no information has been furnished for the districts of Anantapur, South Arcot, Bellary, Cuddapah, Ganjam, Godávari, Kurnool, Malabar, and Vizagapatam. In South Canara, Kistna and Nílgiris the existing arrangements are considered satisfactory and no committees have yet been formed in Nellore, North Arcot and Madura. The Musiri Taluk Board in Trichinopoly is reported to have abandoned the scheme under contemplation in the previous year, and the Hósúr Taluk Board in Salem considers a change unnecessary. In Chingleput the system has been introduced by the Tiruválúr Taluk Board and the Chingleput Taluk Board is taking steps in the same direction. In Tinnevelly the Tinnevelly Taluk Board is giving the system a trial, but the other Boards are not in favour of it, while in Coimbatore it has been adopted by the Erode Taluk Board. The system has not, however, been in operation in any district long enough to admit of a decision as to its success. The subject should not be lost sight of and should be touched upon in the reports of the Presidents of District Boards for the current year.

The example set by Dr. King in personally distributing medicines and treating patients during tours of inspection, &c., which was commended in the General Reviews for 1888–89 and 1889–90, was followed more or less by the District Surgeons of North Arcot and Chingleput only. The indifference displayed by other officers is disappointing and the Surgeon-General is requested to state whether any action was taken by him with reference to the direction of Government on this subject contained in the last General Review.

34. *Medical Schools and Medical Pupils.*—As in previous years, medical schools were maintained by the District Boards of Nellore and Tanjore and worked well. Six out of 10 pupils presented from the Nellore school for the Hospital Assistant's examination and both of those sent up from the Tanjore school, passed. The Bellary and South Canara District Boards sent 4 and 2 students, respectively, to be trained at their cost in the Madras Medical College, and the Madura District Board was permitted to train 6, of whom 5 were under instruction within the year.

35. *Midwives.*—Midwives were employed by the Local Boards in all districts, except Nilgiris, and their number was 144 against 133 in the previous year. Of these the most were in Nellore (18), Madura (16) and Bellary (12), while the number was exceedingly small in Cuddapah (1), Ganjam (2), Kurnool (2), Anantapur (3), and Malabar (3). In Cuddapah, however, there were 10 nurses who acted as midwives when required and attended 319 labour cases against 264 cases attended by 8 nurses in the previous year. In the other districts steps should be taken to increase the number of midwives as soon as possible until there is at least one attached to each hospital and dispensary. The total number of cases attended by all the midwives collectively was 8,551 or on an average 4·9 cases each per mensem, the corresponding figures for the previous year being 7,146 and 4·5. There was a slight increase, but the figures are not creditable. The midwives in Bellary did particularly well attending, on an average, as many as 10 cases each per mensem, and those in South Canara averaged 7 cases each. Those in North Arcot, Cuddapah and Nellore did fairly well, the average being 6 cases each per mensem. On the other hand, the work turned out by the midwives in Coimbatore, Kurnool, Malabar and Vizagapatam was very poor indeed. The Government trusts that the system of paying these servants partly by results, which has been so *frequently* recommended, will be adopted in all these districts unless there are any special reasons against it.

36. *Medical Training of Women.*—Information on this subject will, as usual, be found summarised in Appendix XXIV. The Local Boards of South Arcot, Coimbatore, Cuddapah, Ganjam, Madura, Nellore, Salem, Tinnevelly and Vizagapatam continued to devote attention and funds to this object, but the provision made by the Malabar District Board for training a female medical pupil again lapsed as no candidate came forward till late in the year. Nothing was done in other districts owing apparently to want of funds in most cases and to indifference in others. It is to be regretted that, notwithstanding the remark in paragraph 35 of the last General Review, sufficient information under this head has not been furnished by the Presidents of all District Boards.

Appendix XXV.

37. *Vaccination.*—This subject has been fully dealt with in G.O., dated 6th August 1892, No. 1790 L., reviewing the report of the Inspector of Vaccination for the year. There were 49 Deputy Inspectors of Vaccination and 668 vaccinators and probationers against 49 and 660, respectively, in 1890–91. The number of operations performed by the Local Fund vaccinators as given in Appendix XXV differs, as shown below, from the figures appearing in paragraph 9 of the vaccination report above referred to. The Sanitary Commissioner is requested to explain these discrepancies and to take the necessary steps to prevent such in future:—

Districts.	Number of operations by Local Fund vaccinators		Number of successful cases	
	As per App. XXV.	As per vaccination report.	As per App. XXV.	As per vaccination report.
Bellary	23,796	23,949	22,662	22,595
Cuddapah	30,412	32,971	28,553	27,087
Ganjam	27,491	27,219	27,164	27,188
Godávari	46,676	45,472	44,753	43,744
Kurnool	30,654	31,876	29,204	28,603

It is satisfactory to note that the total number of operations performed by the Local Fund vaccinators increased from 780,554 in 1890–91 to 862,185 in the year under review. The percentage of success was 93 against 95 in the previous year. The outturn is the highest on record, but the low percentage of success was the result of changes in the kind of lymph used. The average outturn per vaccinator was, as in 1890–91, highest in Kurnool (2,490 cases) though less than in that year (2,856). Only in Anantapur, Bellary, Ganjam and Nilgiris was it less than 1,000 cases, and the attention of the Presidents of these Boards has already been drawn to the matter in the individual reviews. The increased outturn of work in North Arcot, South Arcot,

South Canara, Cuddapah, Godávari, Malabar and Tinnevelly was creditable, but the large decline in Trichinopoly and Coimbatore is to be regretted; the District Boards concerned should give their best attention to the matter in the current year.

The average cost per successful case was the same as in the previous year, viz., As. 3–6. It was less than 3 annas in Trichinopoly, Salem, Tinnevelly, Madura and South Canara, but unduly high in Nilgiris (As. 11–0), Anantapur (As. 6–0), Cuddapah (As. 5–9), and Bellary (As. 5–2). Compared with previous year, there was a reduction in 10 districts and an increase in 9.

The medical subordinates did rather more work than in 1890–91. In the current year the Government in G.O., dated 9th May 1892, No. 1066 L., has given effect to the recommendation of the Surgeon-General that the amount of vaccination work to be performed by these officers should be left to their own discretion.

Including the work done by the medical subordinates, the total number of successful operations performed in the Local Fund areas amounted to 834,195 or 25·8 per mille of the population according to the census of 1891 against 768,511 or 23·8 per mille in the previous year. The best results in proportion to population were achieved in Chingleput (39·3 per mille), Kurnool (36·6 per mille), and Tinnevelly (36·3 per mille). In South Canara, Salem and Nilgiris the proportion was fair, but in Malabar and Ganjam it was, as before, insignificant. The District Boards concerned should make every effort to show better results in the current year. The total number of successful operations on infants under one year was 165,296 against 141,149 in the previous year — a fairly satisfactory advance. In this respect Bellary heads the list (16 per mille), and in Chingleput (15·1 per mille) good work was done. In Nellore, Kistna, South Canara, Nilgiris, Ganjam, Godávari and Malabar, where the proportion was less than 2·5 per mille, this important matter was neglected in a very discreditable way, and it is to be hoped that the remarks of the Government on the subject in the individual reviews will not be without effect.

Vaccination with animal lymph was conducted in all districts, the total number of operations performed being 380,219 against 216,221 in 1890–91. Of these, 351,263 against 198,613 were successful, the percentage in both years being 92. In the current year fresh animal lymph is, under the orders of Government, to be employed wherever possible.

Appendix XXVI.

38. *Sanitation.*—In addition to an expenditure of Rs. 8,144 incurred on sanitary public works and debited to Grant I, Rs. 5,29,091 were spent on sanitation, against Rs. 4,06,014 in 1890–91 as shown below:—

	1891–92.	1890–91.
	RS.	RS.
Improvement of water-supply	1,91,354	97,419
" of village sites	40,349	37,399
Conservancy establishments	2,54,190	2,31,460
Arrangements at fairs and festivals	12,495	11,200
Other sanitary outlay	30,703	28,536
Total ..	5,29,091	4,06,014

The increase occurred chiefly under "improvement of water-supply" on which considerable outlay was incurred owing to the adverse nature of the season. No sanitary works of any importance were undertaken during the year, but many minor works, such as improvements to water-supply and village-sites, the construction and repair of dust-bins, latrines, drains, &c., were, as usual, carried out by the Local Boards and Union Panchayats. No less than 700 new wells were sunk and 2,673 existing sources of water-supply were repaired or improved against 171 and 1,044, respectively, in the previous year. It is gratifying to note that the number of village-sites improved also rose from 709 in 1890–91 to 834 in the year under review. The system referred to in the previous General Reviews of employing itinerating gangs for the extirpation of prickly-pear, &c., in villages was in operation in portions of North Arcot, Cuddapah, Tinnevelly and Vizagapatam. In North Arcot it was adopted only at the close of the year. In Cuddapah it was worked with success under the Cuddapah Taluk Board, and the President of the District Board hopes that the other Taluk Boards will introduce it in the current year. The four gangs employed by the Taluk Boards in Vizagapatam did good work. In Tinnevelly two gangs were at work under the Srivilliputur Taluk Board, but the services of one of them were dispensed with in consequence of the high wages demanded by the men; the other gang worked satisfactorily. The system was not introduced in Anantapur and Kistna, owing to want of funds in the one case and to the difficulty of procuring men in the other, while in Coimbatore, Godávari and Nellore, the subject was not lost sight of, though nothing was done. In Madura and Salem the system is not viewed with favour, and in Nílgiris its adoption is not practicable. The Presidents of the remaining District Boards have not furnished any information on this subject, notwithstanding the remark in paragraph 37 of the last General Review. This omission should not be allowed to recur.

Out of 42,862 minor towns and villages in the Presidency, 848 (270 Unions and 578 other villages) were provided with regular conservancy establishments, against 818 (252 Unions and 566 other villages) in 1890–91. The number of villages conserved declined in South Arcot, Kurnool and Malabar, while in all the remaining districts, except Bellary, Nílgiris and Salem, it increased. Godávari, as before, heads the list with 101 villages conserved, and Tinnevelly and Cuddapah come next with 86 and 65, respectively. Very little indeed has, as yet, been done in this direction in South Canara, Chingleput, Anantapur and Vizagapatam. The matter should be neglected no longer. The sanitary condition of the rural tracts received, on the whole, more attention than in previous years, and some of the District Medical and Sanitary Officers paid great attention to the subject, notably Surgeon-Major Walker of Nellore.

It is satisfactory to note that the proportion borne by the expenditure on sanitation to the sanctioned allotments amounted to 90 per cent. against 86 per cent. in the previous year. The outlay in Nellore, Nílgiris and Chingleput exceeded the allotment, and that in Vizagapatam, Anantapur, North Arcot, Cuddapah, Kistna, Madura and Tinnevelly was fair, viz., above 90 per cent., but in Godávari and Kurnool it was very small, viz., 64 and 75 per cent., respectively. The special attention of the Local Boards in these two districts has been drawn to this matter in the individual reviews.

39. *Choultries.*—Including the Arcot and Kurnool langarkhanas and the kanji-house at Tanjore, there were 483 choultries under the control of the Local Boards at the close of the year, against 453 in 1890–91, the increase occurring chiefly in Ganjam and Salem. The total outlay on these institutions amounted to Rs. 1,86,319 against Rs. 2,13,301 in the previous year, the decrease — which occurs chiefly in Tanjore — being due to the reduction effected in expenditure on the feeding of travellers. Of the choultries, 229 had endowments attached to them, in 49 of which 1,121,136 travellers were fed at a cost of Rs. 84,582, the corresponding figures for the previous year being 1,354,089 and Rs. 1,11,240. In three others, monthly pensions were paid to certain infirm and poor persons. The remaining choultries were mere rest-houses. The number of choultries in Chingleput continued to be small, but the wants of the people are met by the numerous private choultries existing in the district.

40. *Contributions.*—The contributions paid to Provincial and Municipal Funds and to private individuals for medical, sanitary and other purposes amounted to Rs. 1,13,946 against Rs. 1,18,525 in 1890–91, the decrease occurring under Contributions to Provincial services.

41. *Miscellaneous.*—The Local Boards (those in Ganjam, Kurnool, Malabar, Nílgiris and Vizagapatam excepted) incurred an outlay of Rs. 40,944 on lighting against Rs. 33,122 in 1890–91. The expenditure was generally restricted to the lighting of the more important Unions; but in Chingleput, Salem, Tinnevelly and Trichinopoly, some important roads and bridges were provided with lights. In all, 165 places were supplied with 5,209 lights. In spite of the remarks of the Government in paragraph 40 of the last General Review, full information on this subject has not been furnished for the districts of Cuddapah, Godávari and Nellore — an omission which should not be allowed to recur.

GRANT IV.—MISCELLANEOUS.

42. *Supervision and Office Management.*—The total expenditure under this head was Rs. 3,73,218 against Rs. 3,41,224 in the previous year and was 5·6 per cent. of the total receipts and 4·7 per cent. of the total charges against 4·7 per cent. in both cases in that year. The increase, as compared with the previous year, was due to the entertainment of additional establishments required for Taluk Boards in consequence of increased work and of the establishments entertained in the Unions newly formed during the year. The system of supervision of the work, &c., of Local Boards and Union Panchayats and the nature and cost of the establishments maintained by them remained the same as in previous years.

43. *Repayment of Loans, &c.*—The Chingleput and Malabar District Boards paid Rs. 5,901 as interest and Rs. 18,714 as instalments of principal, on account of loans previously obtained by them from Imperial funds for the construction in the one case of the Kortalayár bridge and of the completion of the Támrachéri and Periyaghat roads in the other. The amounts still due from these Boards — viz., Rs. 85,150 and Rs. 30,643, respectively — are expected to be repaid in 1898. In Tinnevelly, the District Board paid Rs. 8,400 as instalments of principal and Rs. 1,600 as interest on account of loans obtained from the Taluk Endowment fund and the Zemindar of Etaiyápuram for the construction of the Srívaikuntham bridge. A net sum of Rs. 1,30,000 was invested in Government securities in favour of the Railway Guarantee Fund in Tanjore, the total investment on this account up to 31st March 1892 being Rs. 9,32,000 in addition to a cash balance of Rs. 78,134. The lands required for the Máyavaram-Mutupet Railway, the cost of which is to be equally divided between Provincial and Local Funds, were made over to the South Indian Railway Company before the close of the year under review, and Rs. 1,43,059 were paid by the District Board to Government, being a moiety of the expenditure incurred on the work in 1890–91.

IV.—ENDOWMENTS.

44. The number of endowed institutions such as schools, dispensaries, choultries, markets, &c., under the control of the Local Boards and Union Panchayats are shown in Appendix XXVIII and their financial transactions in Appendices XXIX and XXX. Excluding Rs. 75,673 appropriated from General funds to meet the deficit with which some of the institutions would otherwise have closed the year, and Rs. 10,663 allotted from Chattram funds in Tanjore for other purposes, but including Rs. 6,250 paid by the Tinnevelly District Board to the Taluk Endowment funds on account of the loan referred to in the preceding paragraph, the receipts of these institutions amounted in the aggregate to Rs. 4,65,181 and the charges to Rs. 3,78,212, against Rs. 4,10,293 and Rs. 4,18,606, respectively, in the previous year. The opening balance in their favour having been Rs. 3,01,125, the year closed with a balance of Rs. 3,88,094. The Chattram funds in Tanjore having closed the year 1890–91 with a *minus* balance of Rs. 9,514, steps were taken in the year under review to reduce the expenditure under this head by, among other things, abolishing some of the hospitals supported from these funds and providing for the maintenance of some others from the General funds. As a result of this reduction a large balance of Rs. 44,389 has now accumulated in their favour, which shows that retrenchment was carried somewhat further than was necessary, and the Government has accordingly sanctioned the District Board's proposal, recently received, to re-open three of the hospitals which had been temporarily closed. The balances in Godávari, Madura, Salem, Tinnevelly and Trichinopoly were very large, and the Local Boards concerned have been directed, in the individual reviews, to take the necessary steps towards the utilization of them for the benefit of the institutions to which they belong.

V.—GENERAL REMARKS.

45. *Local Fund Accounts.*—The arrangements for the audit and inspection of these accounts continued to be the same as in previous years. The accounts of all the districts for 1890–91 were inspected during the year, and those of 18 districts were examined for

a portion of the year under review. Excluding Vizagapatam, the report relating to which has not yet reached Government, the results of the inspections were, on the whole, good in Anantapur, North Arcot, South Canara and Nílgiris, while in South Arcot, Bellary, Chingleput, Ganjam, Kurnool, Cuddapah, Godávari and Kistna, the state of the accounts was very unsatisfactory, although in the last three cases there was some improvement as compared with the state of things found at the previous examination.

46. *Map.*—The map of the Presidency which should be annexed to this review, with reference to the letter of the Government of India, dated 31st August 1886, No. 25–1289, is still under preparation in the Survey Office, and will be published separately.

47. *General Remarks.*—Detailed remarks on the general administration of each district having been already passed in the individual reviews, it will be sufficient to say here that the administration of local affairs during the year under review continued to be, on the whole, creditable to the Local Boards and Union Panchayats. Taking the districts individually, North Arcot, South Canara, Chingleput and Nílgiris were conspicuous for good administration. In Anantapur, Godávari, Kurnool and Malabar the administration was far from efficient, although it must be remarked that there was an improvement as compared with the previous year. The remaining districts were fairly satisfactory. The advancement of primary education and the extension of medical relief, vaccination and sanitation still demand careful attention, but in some districts it was not possible to do much in these directions during the year under review, as there was a considerable decline in the receipts under land-cess and heavy expenditure had to be incurred on famine relief works — *vide* paragraphs 9 and 20 *supra*. On the whole, His Excellency the Governor in Council is satisfied with the results of the administration of local affairs in 1891–92, and trusts that the improvements already effected will be sustained and that there will be a further advance in all directions in the current year.

(*a*) Short outlay due chiefly to the inefficiency of the Engineer whose services were accordingly dispensed with and another appointed.

(*b*) Short outlay due to delay in sanctioning estimates.

(*c*) The decrease in expenditure is attributable to—
  (1) Delay in sanctioning estimates.
  (2) Several works having had to remain incomplete or uncommenced for want of water for tamping and other purposes.

(*d*) Short outlay due to—
  (1) Failure of contractors.
  (2) Savings on works.
  (3) Late sanction of allotments.
  (4) Payments being deferred pending final settlement.
  (5) Insufficiency of the Local Fund Engineering establishment.

(*e*) Short expenditure due to delay on the part of Presidents of Taluk Boards to take steps to acquire sites and the remissness of the District Board's Engineer.

(*f*) The decrease in the outlay is due to—
  (1) Revision of the Engineering establishment in the course of the year about the working season.
  (2) Withholding of payments due to certain contractors owing to their death.
  (3) Non-payment of certain contractors' bills which were received towards the close of the year.
  (4) Late receipt of sanction for certain works.

* Excludes the cost of (1) medical practitioners employed on sanitary inspection, distribution of medicines, &c.; (2) medical schools; (3) the District Medical and Sanitary officers' establishments; (4) medical pupils; and (5) midwives and midwifery pupils, but includes the pay of the medical subordinates in charge.

† Excludes 319 cases attended by 10 nurses.

‡ Excludes eight aided dispensaries at which 53,111 patients were treated.

APPENDIX XXIV.

A SUMMARY OF THE MEASURES ADOPTED IN FURTHERANCE OF FEMALE MEDICAL EDUCATION IN 1891–92.

1. *Anantapur.*—No expenditure was incurred under this head for want of funds.

2. *Arcot, North.*—Besides the employment of seven trained midwives, two midwifery pupils are undergoing training in the Lying-in Hospital at Vellore.

3. *Arcot, South.*—A Scholarship of Rs. 20 continued to be paid to a female student undergoing training in the Madras Medical College for the Civil Apothecary grade.

4. *Bellary.*—Besides the employment of twelve midwives, no steps were taken to further female medical education.

5. *Canara, South.*—Eight midwives are employed in the district.

6. *Chingleput.*—Nine trained midwives are employed by the Local Boards, and two more are under training in the Lying-in Hospital at Madras.

7. *Coimbatore.*—Three candidates continued to be under training for the Civil Apothecary grade.

8. *Cuddapah.*—As in the previous year, a sum of Rs. 240 was contributed to the Lady Dufferin Fund for securing the services of a female medical officer.

9. *Ganjam.*—A female Apothecary is already at work in the District, and the District Board has resolved to endow another scholarship for a lady Apothecary student.

10. *Godávari.*—There are four trained midwives in the district and a midwifery pupil is under training at Madras.

11. *Kistna.*—Nine midwives are employed in the district and one midwifery pupil is under training at Madras.

12. *Kurnool.*—No expenditure was incurred under this head beyond the employment of two midwives.

13. *Madura.*—One student continued to be under training at Madras for the Apothecary grade and two midwifery pupils are being trained locally.

14. *Malabar.*—The provision of Rs. 250 made in the budget for training a female medical pupil again lapsed, as a candidate came forward only towards the close of the year.

15. *Nellore.*—A female medical student continued to be under training in the Madras Medical College for the Hospital Assistant grade, and the services of a passed woman were secured during the year for employment in the district.

16. *Nilgiris.*—No expenditure was incurred under this head.

17. *Salem.*—Three medical pupils continued to be under training for the Civil Apothecary grade and Rs. 900 were paid towards their stipends.

18. *Tanjore.*—Nothing was done in this matter beyond the employment of ten midwives.

19. *Tinnevelly.*—A pupil was under training at Madras for the Apothecary grade and Rs. 240 were contributed to the Lady Dufferin Fund on account of her stipends.

20. *Trichinopoly.*—Out of the ten dispensaries in the district, nine were provided with trained midwives.

21. *Vizagapatam.*—Five female Apothecary students continued to be under training at Madras and Rs. 790 were paid as stipends.

APPENDIX XXV.

STATEMENT showing the strength, cost and operations of the Vaccine establishments for 1891–92.

Districts.	Establishment.			Total cost of vaccination.	Number of vaccine operations performed.			Number of successful cases.	Percentage of successful cases to total number.	Proportion per mille of total number of successful operations to the total population.	Average cost of each successful case by Local Fund vaccinators.	Number of successful operations on children under one year of age.	Proportion per mille of the total number of successful operations on children under one year to the total population.	Animal vaccination.			
	Deputy Inspectors.	Vaccinators.	Probationers.		By Local Fund vaccinators.	By medical subordinates.	Total.							Number of months in which animal vaccination was conducted.	Number of persons vaccinated by this agency.	Number of successful cases.	Percentage of successful cases to number vaccinated.

(a) Rs. 29-8-5, balance of District [illegible]'s Bungalow Fund, has been credited.
(b) Amount adjusted to arrive at the correct balance under Endowment Fund—Vide President's remarks on the revised appendix, dated 1st August 1892.
(c) Includes Rs. 5,066 on account of loans.
(d) Includes Rs. 1,537-11-[illegible] on account of surplus [illegible] and Rs. [illegible] on account of Price Vaccination Fund.
(e) Being the balance of Cangoo included as per budget.
(f) Lingarkhana contributions.
(g) Includes Rs. 500 on account of Jubilee Fund and Rs. 57 other contributions.
(h) Adjusted to arrive at the closing balance of the year 1891–92.
(i) Includes Rs. 115 on account of other contributions.
(j) Includes Rs. 200 on account of other contributions.
(k) Includes Rs. 227 on account of other contributions.

The figures in columns "Rents and Produce of lands" and "miscellaneous," under chaultries and markets, respectively, will not invariably agree with those appearing in the statement of receipts under the above institutions, as the former includes other items.—Vide G.O., No. 28 L., Miscellaneous, dated 6th January 1892, Clauses (4) and (5).
