Statement of Proposal for revision of Establishment to accompany Letter No. 656, dated 18-2-1893.
83

[illegible]

20 FEB 93

NOTES.

REFERENCE TO MADRAS P. W. D. CODE,
EDITION OF 1886.

PARAS. 25 & 26.

1. The column headed "present scale" should invariably show the sanctioned scale for the time being and not the strength of the actual (whether above or below sanctioned) establishment as it happens to stand at the time. The "present scale" should be verified by the examiner before the proposal is submitted to government for sanction (paras. 25 and 26).

2. In the column "average or fixed pay," financial value, not mean value, should be given.

3. The financial value should in the case of progressive appointments be calculated as follows:—

(1) If the period of rise from minimum to maximum is 5 years, the average will be the minimum plus two-thirds, or if the appointment is a ministerial one, plus three-fourths, of the difference between the minimum and maximum (C. S. R., Art. 164).

(2) If the period of growth exceeds five years (as in the case of accountants) the $\frac{1}{5}$ th fraction should be decreased by $\frac{1}{5}$ th of the difference for every year by which the period exceeds five; the fraction for periods in excess of five years will therefore be as follows:—

$$6 \text{ years} = \frac{1}{5} - \frac{1}{5} = \frac{4}{5}$$

$$7 \text{ years} = \frac{1}{5} - \frac{2}{5} = \frac{3}{5}$$

$$8 \text{ years} = \frac{1}{5} - \frac{3}{5} = \frac{2}{5}$$

and so on; so that when the period of growth is 20 years the financial value will be the exact mean.

How many depots are there?
