# PROCEEDINGS OF THE MADRAS GOVERNMENT.

READ the following paper :—

Proceedings of the Public Works Department, dated 9th March 1893, No. 650 W, regarding preparation of estimates for repairs of tanks in the Palni Taluk.

Read extract from letter from the Deputy Director of Revenue Settlement, dated 17th July 1876, No. 233-90 :-

The tract on the North of the Vigay is greatly in want of cross roads to connect the villages with the numerous roads radiating northwards from the town of Madura. This want should certainly be supplied before irrigation is brought to the villages. The Local Funds, the revenues constituting which are mainly made up by a percentage of the land assessment will benefit largely by the construction of the project and may well be expended in making these roads directly the carrying out of the project is determined on. The purchase of the land required for these improvements would after irrigation has been

brought to the villages entail a very large expenditure which might be avoided by taking up the land at once
