Report & accompanying the
Estimate for Survey & establishment
in the Pampett Sub-Division
for the year 1893-94. 1716

Estimate for ~~the~~

The Projects that require investi-
gation in this Sub-Division are:

1. Extensions and Improvements
Ponny Eastern System - consisting
essentially in increasing the supply
down the main Eastern channel,
either by another head sluice or
increasing the water way of the existing
head sluice, Improvement of the main
Eastern channel. Extension of the
System to the River at South end
the investigations as to the feasibility
of converting ^{it} into a Reservoir. Exten-
sion of the System as well to the
Palayapalayam groups Kinner
and Tanks East of North West Line
Madras Railway. Improvements
to existing channels and providing
efficient means of regulating and
distributing the water.

1. Extensions and Improvements of Palas and Purney Systems in Tanks South and South East of the Wallajah Talug.

2. Estimates for Repairs to Tanks in the Area of Talug. and investigation of their Sources of supply. more especially in the West and South West of the Talug - Improvements to the Kalanai Tank and channel and Extension of the Palas System from the Tank and Surplus. Improvements to the Dui Innamadoot Tank, and the Extensions of the System below.

4. Investigation of the Innamadooti Tank and the feasibility of converting it into a large Reservoir and damming it up with the Tanks below it and cultivating their beds.

5. I hope also if possible to investigate some Projects in the Chendraghiri Taluk. but the regular Establishment will be able to do a good deal towards that.

The Returns to Government and the General Advantages to people and

and Country, cannot, with out sufficient reliable data be calculated to any thing that may approach to accuracy. But may be briefly described as great.
