To
The Chief Engineer

Madras

Sir,
I have the honor to request sanction
to write off the marginally noted
explosives - valued at Rs 145-9-5 from
the Stock returns of this Division. The
circumstances are as follows:-

The system on which explosives are
dealt with at Periyar is as follows:-

the sufficiency and accuracy of
balance in the Magazine. Each morning
on indent from the various quarrying
pieceworkers, the Sub Overseer issues
the explosives required for the day.
The blasting is usually carried on
between 6-30 & 7 A.M. and between noon
and 12-30 P.M. and on its conclusion
each time any small balances remaining
unexhausted are locked in separate boxes.
Each pieceworker has one such box of which
he has the key, and after the blasting
is over the boxes are locked up in the
old Magazine. There is no watchman
at this Magazine the contents of it
being of small value, and the magazine
being within 80 yards of the treasury
where 4 officer lascars watch nightly.
On the night of the 20th March
however some person contrived to enter
it noiselessly by drawing the hasp of the
fastening, which subsequent inspection
showed to have been imperfectly bedded,
and of insufficient strength.

The robbery was at once reported
to

to the police, who after enquiry, have
failed to find any trace of either
the thieves or the missing articles.
